3  The orthodox Keynesian school and the reinterpretation of Keynes  89
   3.1 Introduction  89
   3.2 The orthodox Keynesian school  89
   3.3 The IS–LM model  90
   3.4 Underemployment equilibrium in the Keynesian model  100
   3.5 The reinterpretation of Keynes: disequilibrium models  109
   Interview with James Tobin  124

4  The orthodox monetarist school  137
   4.1 Introduction  137
   4.2 The quantity theory of money approach  138
   4.3 The expectations-augmented Phillips curve analysis  146
   4.4 The monetary approach to balance of payments theory and exchange rate determination  164
   4.5 The orthodox monetarist school  169
   Interview with Milton Friedman  171
   Interview with David Laidler  179

5  The new classical school  188
   5.1 Introduction  188
   5.2 The structure of new classical models  188
   5.3 Equilibrium business cycle theory  195
   5.4 The policy implications of the new classical approach  197
   5.5 Conclusion  215
   Interview with Robert Lucas, Jr  219
   Interview with Patrick Minford  227

6  The real business cycle school  236
   6.1 Introduction: the demise of new classical macroeconomics mark I  236
   6.2 The transition from monetary to real business cycle theory  237
   6.3 Real business cycle theory in historical perspective  239
   6.4 Cycles versus random walks  240
   6.5 Supply-side shocks  243
   6.6 Real business cycle theory  244
   6.7 The real business cycle aggregate demand and supply model  249
   6.8 Calibrating the model  252
   6.9 Real business cycle theory and the neutrality of money  253
   6.10 Measuring technological shocks: the Solow residual  255
   6.11 Real business cycle theory and the stylized facts  258
   6.12 The policy implications of real business cycle theory  260
# Contents

6.13 Criticisms of real business cycle theory 262
6.14 An assessment 265
*Interview with* Robert Barro 268
*Interview with* Charles Plosser 279

7 The new Keynesian school 286

7.1 A Keynesian crisis? 286
7.2 A Keynesian resurgence? 287
7.3 New Keynesian economics 288
7.4 Core propositions and features of new Keynesian economics 290
7.5 Nominal rigidities 292
7.6 Real rigidities 301
7.7 New Keynesian business cycle theory 318
7.8 Hysteresis effects and unemployment 323
7.9 New Keynesian economics and the stylized facts 325
7.10 Policy implications 325
7.11 Criticisms of new Keynesian economics 328
7.12 An assessment of new Keynesian economics 330
*Interview with* Gregory Mankiw 331
*Interview with* Edmund Phelps 341

8 The Austrian and Post-Keynesian schools 351

8.1 Introduction 351
8.2 The Austrian research tradition 352
8.3 The Austrian theory of business fluctuations 353
8.4 The Mises–Hayek model 355
8.5 Evaluating the Mises–Hayek model 361
8.6 Inflation and the revival of the Austrian school 363
8.7 The Austrian critique of rational expectations 365
8.8 The Post-Keynesian school 367
8.9 Common Post-Keynesian themes 368
8.10 Fundamentalist Keynesianism: the uncertainty–money–unemployment link 375
8.11 The Post-Keynesian critique of rational expectations 379
8.12 Comparing the Austrian and Post-Keynesian schools 380
*Interview with* Roger Garrison 383
*Interview with* Victoria Chick 398

9 Conclusions and reflections 408

9.1 Introduction 408
9.2 Why economists disagree 409
9.3 Where economists disagree 413
9.4 The future direction of macroeconomics 418

Bibliography 420
Subject index 457
