Contents

Foreword ix
Preface xi
The Geometry Center Workshop xiii
The DIMACS Workshop xiv
Lower bounds of isoperimetric functions for nilpotent groups 1
José Burillo
A filtration of the chain complex of a rewriting system 9
Lisa J. Carbone
Formal languages and infinite groups 27
Robert H. Gilman
Groups of deficiency zero 53
George Havas, M. F. Newman, and E. A. O'Brien
The Warwick automatic groups software 69
Derek F. Holt
Some remarks on one-relator free products with amalgamation 83
Arье Juhász
Detecting quasiconvexity: Algorithmic aspects 91
Ilya Kapovich
A user's guide to the mapping class group: Once punctured surfaces 101
Lee Mosher
Computing nilpotent quotients of finitely presented groups 175
Werner Nickel
An algorithm detecting hyberbolicity 193
P. Papasoglu
On the finite subgroups of a context-free group 201
Géraud Sénizergues
