## Introduction 1

<b>1</b>	<b>An Overview of the Scope and Contents of the Book</b>	<b>1</b>
1.1	The Chemical Industry	1
1.2	The Role and Breadth of R&D	2
1.3	R&D Organisation	4
1.4	R&D Personnel	4
1.5	Creativity and Innovation	5
1.6	Project Management	5

## Section A: Harnessing the Human Resource 7

<b>1</b>	<b>Building the Scientific Skills Base</b>	<b>11</b>
1.1	Defining the Skills Base	12
1.1.1	The Skills Audit	12
1.1.2	The Skill Requirements	13
1.1.3	The Skills Gap	14
1.1.4	Deriving the Skills Gap	14
1.2	Recruitment	16
1.2.1	Job Definition	18
1.2.2	The Advertisement	19
1.2.3	Selection of the Short List	21
1.2.4	Interviewing	22
1.2.5	The Choice	24
1.2.6	The Offer	26
1.2.7	The Acceptance	26
<b>2</b>	<b>Developing the People who form the Skills Base</b>	<b>28</b>
2.1	Management of Performance	29
2.1.1	Setting Performance Objectives	30
2.1.2	Reviewing and Monitoring	32
2.1.3	Training	33
2.1.4	Reward	35
2.1.5	Disciplinary Action and Trade Union Representation	36
2.1.6	Career Development	36
2.1.7	Succession Planning	40

<b>3</b>	<b>The R&amp;D Team Manager</b>	42
3.1	Managerial Skills	43
3.2	Managing Creative Groups	44
3.3	Managing Your Own Career	46

## **Section B: Organising for an Innovative Environment** 49

<b>1</b>	<b>The Structural Components of an R&amp;D Organisation</b>	53
1.1	Organisational Environments for R&D	53
1.1.1	The Functional Organisation	54
1.1.2	The Strategic Business Unit	55
1.1.3	The R&D Contractor	56
1.1.4	The Matrix	58
1.1.5	Organisational Comparisons	59
1.2	The Internal Organisation of R&D	60
1.2.1	R&D Work Groups	61
1.2.2	Technical Management of Work Groups	62
1.3	The Outsourcing of R&D	64
<b>2</b>	<b>The Provision of the Appropriate Support</b>	65
2.1	Analytical	65
2.2	Intellectual Property	66
2.3	Information and Library Services	67
2.4	Information Technology	68
2.4.1	R&D Office Technology	69
2.4.2	Databases	69
2.4.3	Design	70
2.5	Toxicology & Regulatory Affairs	71
2.6	Chemical and Equipment Supplies	71
<b>3</b>	<b>A Financially Sound, Healthy, Safe and Quality Environment</b>	73
3.1	Financial Control	73
3.1.1	Budgets	74
3.1.2	Plans	76
3.1.2.1	Personnel Costs	76
3.1.2.2	Capital Costs	77
3.1.3	Cost Control	77
3.2	Health and Safety	78
3.3	Quality in R&D	80
3.3.1	Quality Procedures	81
3.3.2	Continuous Improvement	82
3.3.3	Benchmarking	86

## **Section C: Creativity and Innovation 91**

- 1 Creativity and the Nurturing of Innovation 95**
  - 1.1 Definitions 96
  - 1.2 The Creative Climate 96
  - 1.3 The Climate for Innovation 98
  - 1.4 The Creative and Innovative Individual 99
  - 1.5 Innovation Pathways 100
    - 1.5.1 Innovation based on Core Technologies 101
    - 1.5.2 Innovation which satisfies unmet Customer Needs 102
    - 1.5.3 Innovation based on Scientific Research 102
    - 1.5.4 Innovation using Functional Excellence 103
  - 1.6 Tools for Creativity 103
    - 1.6.1 Creative Thinking 104
    - 1.6.2 The Generation of Ideas 105
      - 1.6.2.1 Brainstorming 105
      - 1.6.2.2 Synectics 107
      - 1.6.2.3 Morphological Analysis 108
    - 1.6.3 The Evaluation of the Ideas Generated 109
- 2 The Protection of Intellectual Property 110**
  - 2.1 Patents 111
    - 2.1.1 Inventorship 112
    - 2.1.2 Filing and Prosecution of the Application 113
    - 2.1.3 Infringement of Patents 116
  - 2.2 Trademarks 116
  - 2.3 Trade Secrets 117
  - 2.4 Internal Records 117
- 3 The Exploitation of Opportunities 119**
  - 3.1 Development within the Company 120
  - 3.2 Joint Venture 120
  - 3.3 Licensing and Assignment 123
  - 3.4 Technology Transfer 124

## **Section D: Project Management 125**

- 1 The Selection and Evaluation of R&D Targets 129**
  - 1.1 The Development of Existing Products and Processes 130
    - 1.1.1 Cost Benefit Targets 130
    - 1.1.2 Product Quality 133
    - 1.1.3 Plant Output 133
    - 1.1.4 The Environmental Challenge 134

1.2	The Invention of New Products and Processes for Existing Businesses	135
1.2.1	New Product Targets	135
1.2.2	New Process Targets	138
1.2.2.1	New Manufacturing Processes	139
1.2.2.2	New Application Processes	139
1.3	Strategic Research Targets	139
<b>2</b>	<b>The Innovation Chain</b>	<b>142</b>
2.1	New Product Innovation Chain	142
2.1.1	Speculative Research	143
2.1.2	Process Development	144
2.1.2.1	HSE and Product Registration	145
2.1.2.2	Pilot Plant Manufacture	147
2.1.2.3	Field and Customer Trials	147
2.1.3	Trial Manufacture	148
2.1.4	Market Launch	148
2.1.5	Establishment of the Manufacture and Sales	149
2.2	Time Management and the Innovation Chain	149
2.2.1	The Faster Evaluation of New Products	150
2.2.2	The Faster and Increased Return on Investment	150
2.2.3	Lead Times and the Development Risks	154
2.2.4	R&D Management Issues	155
2.2.5	The Interfaces between R&D, Manufacturing, and Marketing	157
2.2.6	The Overall Management of Time	158
<b>3</b>	<b>The Project Management Skills</b>	<b>159</b>
3.1	Manager and Team Selection	160
3.2	Project Definition, the WHAT, WHEN and Constraints	162
3.3	Resource Allocation	165
3.4	Planning, the WHO and the HOW	166
3.4.1	WHO	166
3.4.2	HOW	167
3.4.2.1	Gantt Charts	167
3.4.2.2	Network Diagrams	167
3.4.2.3	Critical Paths	168
3.4.2.4	Program Evaluation and Review Technique	169
3.5	The Formal Launch	169
3.6	Monitoring and Controlling the Project	170
3.7	The Completion of the Project	171
