Preface .....	xv
---------------	----

## Section I. Pharmacology

<b>1. <i>Pharmacokinetics and Pharmacodynamics of Injected and Inhaled Drugs</i> .....</b>	<b>3</b>
Stereochemistry, 3	
Description of Drug Response, 4	
Pharmacology of Injected Drugs, 4	
Pharmacodynamics of Injected Drugs, 17	
Pharmacokinetics of Inhaled Anesthetics, 20	
Pharmacodynamics of Inhaled Anesthetics, 30	
<b>2. <i>Inhaled Anesthetics</i> .....</b>	<b>36</b>
History, 36	
Clinically Useful Inhaled Anesthetics, 37	
Comparative Pharmacology, 39	
Central Nervous System Effects, 40	
Circulatory Effects, 43	
Ventilation Effects, 53	
Hepatic Effects, 57	
Renal Effects, 61	
Skeletal Muscle Effects, 64	
Obstetric Effects, 65	
Resistance to Infection, 65	
Genetic Effects, 66	
Bone Marrow Function, 66	
Peripheral Neuropathy, 67	
Total Body Oxygen Requirements, 67	
Metabolism, 67	
<b>3. <i>Opioid Agonists and Antagonists</i> .....</b>	<b>77</b>
Structure Activity Relationships, 77	
Mechanism of Action, 77	
Opioid Receptors, 78	
Neuraxial Opioids, 79	
Opioid Agonists, 83	
Opioid Agonist-Antagonists, 104	
Opioid Antagonists, 106	
Anesthetic Requirements, 108	
<b>4. <i>Barbiturates</i> .....</b>	<b>113</b>
Commercial Preparations, 113	
Structure Activity Relationships, 113	
Mechanism of Action, 113	

	Pharmacokinetics, 114	
	Clinical Uses, 118	
	Side Effects, 120	
<b>5.</b>	<b><i>Benzodiazepines</i></b> .....	<b>126</b>
	Structure Activity Relationships, 126	
	Mechanism of Action, 126	
	Side Effects, 127	
	Midazolam, 128	
	Diazepam, 132	
	Lorazepam, 136	
	Oxazepam, 137	
	Clonazepam, 137	
	Flurazepam, 137	
	Temazepam, 137	
	Triazolam, 137	
	Quazepam, 137	
	Flumazenil, 138	
<b>6.</b>	<b><i>Nonbarbiturate Induction Drugs</i></b> .....	<b>140</b>
	Propofol, 140	
	Etomidate, 145	
	Ketamine, 148	
	Eltanolone, 155	
<b>7.</b>	<b><i>Local Anesthetics</i></b> .....	<b>158</b>
	Commercial Preparations, 158	
	Structure Activity Relationships, 158	
	Mechanism of Action, 160	
	Minimum Concentration, 161	
	Pharmacokinetics, 161	
	Side Effects, 167	
	Uses of Local Anesthetics, 171	
	Cocaine Toxicity, 178	
<b>8.</b>	<b><i>Neuromuscular-Blocking Drugs</i></b> .....	<b>182</b>
	Pharmacodynamics, 182	
	Pharmacokinetics, 184	
	History, 185	
	Clinical Uses, 185	
	Structure Activity Relationships, 186	
	Neuromuscular Junction, 187	
	Depolarizing Neuromuscular-Blocking Drugs, 189	
	Nondepolarizing Neuromuscular-Blocking Drugs, 194	
	Long-Acting Nondepolarizing Neuromuscular-Blocking Drugs, 202	
	Intermediate-Acting Nondepolarizing Neuromuscular-Blocking Drugs, 205	
	Short-Acting Nondepolarizing Neuromuscular-Blocking Drugs, 216	
	ORG 9487, 219	
<b>9.</b>	<b><i>Anticholinesterase Drugs and Cholinergic Agonists</i></b> .....	<b>224</b>
	Mechanism of Action, 224	
	Classification, 224	
	Structure Activity Relationships, 226	
	Pharmacokinetics, 226	
	Pharmacologic Effects, 229	
	Clinical Uses, 231	
	Overdose of Anticholinesterase Drugs, 235	
	Synthetic Cholinergic Agonists, 235	

<b>10.</b>	<b><i>Anticholinergic Drugs</i></b> . . . . .	<b>238</b>
	Structure Activity Relationships, 238	
	Mechanism of Action, 238	
	Pharmacokinetics, 240	
	Clinical Uses, 241	
	Central Anticholinergic Syndrome, 245	
	Overdose, 245	
	Decreased Barrier Pressure, 246	
<b>11.</b>	<b><i>Nonsteroidal Antiinflammatory Drugs</i></b> . . . . .	<b>247</b>
	Mechanism of Action, 247	
	Pharmacokinetics, 247	
	Adverse Reactions, 249	
	Perioperative Use of Nonsteroidal Antiinflammatory Drugs, 250	
	Aspirin (Acetylsalicylic Acid), 251	
	Acetaminophen, 253	
	Diflunisal, 254	
	Indomethacin, 254	
	Sulindac, 254	
	Tolmetin, 254	
	Propionic Acid Derivatives, 255	
	Phenylbutazone, 255	
	Piroxicam, 255	
	Ketorolac, 255	
	Miscellaneous Antiarthritis Drugs, 256	
<b>12.</b>	<b><i>Sympathomimetics</i></b> . . . . .	<b>259</b>
	Clinical Uses, 259	
	Structure Activity Relationships, 259	
	Mechanism of Action, 262	
	Metabolism, 264	
	Route of Administration, 264	
	Naturally Occurring Catecholamines, 264	
	Synthetic Catecholamines, 268	
	Synthetic Noncatecholamines, 270	
	Selective Beta <sub>2</sub> -Adrenergic Agonists, 274	
<b>13.</b>	<b><i>Digitalis and Related Drugs</i></b> . . . . .	<b>278</b>
	Clinical Uses, 278	
	Structure Activity Relationships, 278	
	Mechanism of Action, 278	
	Pharmacokinetics, 280	
	Cardiovascular Effects, 281	
	Electrocardiographic Effects, 281	
	Digitalis Toxicity, 281	
	Preoperative Prophylactic Digitalis, 283	
	Drug Interactions, 283	
	Selective Phosphodiesterase Inhibitors (Noncatecholamine, Nonglycoside Cardiac Inotropic Agents), 284	
	Nonselective Phosphodiesterase Inhibitors, 285	
	Calcium, 286	
	Glucagon, 286	
<b>14.</b>	<b><i>Alpha- and Beta-Adrenergic Receptor Antagonists</i></b> . . . . .	<b>288</b>
	Alpha-Adrenergic Receptor Antagonists, 288	
	Beta-Adrenergic Receptor Antagonists, 290	
	Combined Alpha- and Beta-Adrenergic Receptor Antagonists, 300	

<b>15.</b>	<b><i>Antihypertensive Drugs</i></b> . . . . .	<b>302</b>
	Sympatholytics, 302	
	Angiotensin-Converting Enzyme Inhibitors, 307	
	Angiotensin Receptor Blockers, 309	
	Calcium Channel Blockers, 310	
	Vasodilating Drugs, 310	
	Diuretics, 311	
<b>16.</b>	<b><i>Peripheral Vasodilators</i></b> . . . . .	<b>313</b>
	Nitric Oxide, 313	
	Sodium Nitroprusside, 315	
	Nitroglycerin, 322	
	Isosorbide Dinitrate, 325	
	Dipyridamole, 325	
	Papaverine, 326	
	Trimethaphan, 326	
	Diazoxide, 327	
	Purines, 328	
	Sildenafil, 329	
<b>17.</b>	<b><i>Cardiac Antidysrhythmic Drugs</i></b> . . . . .	<b>331</b>
	Classification, 331	
	Decision to Treat Cardiac Dysrhythmias, 333	
	Quinidine, 333	
	Procainamide, 334	
	Disopyramide, 335	
	Lidocaine, 335	
	Mexiletine, 336	
	Tocainide, 337	
	Phenytoin, 337	
	Moricizine, 337	
	Flecainide, 337	
	Propafenone, 338	
	Propranolol, Metoprolol, and Esmolol, 338	
	Amiodarone, 339	
	Sotalol, 341	
	Bretylium, 341	
	Verapamil and Diltiazem, 341	
	Digitalis, 342	
	Adenosine, 342	
	Prodysrhythmic Effects, 343	
<b>18.</b>	<b><i>Calcium Channel Blockers</i></b> . . . . .	<b>344</b>
	Classification, 344	
	Mechanism of Action, 344	
	Pharmacologic Effects, 348	
	Risks of Chronic Treatment, 348	
	Clinically Available Drugs, 348	
	Drug Interactions, 351	
<b>19.</b>	<b><i>Drugs Used for Psychopharmacologic Therapy</i></b> . . . . .	<b>357</b>
	Antidepressants, 357	
	Anxiolytics, 367	
	Lithium, 368	
	Antipsychotic (Neuroleptic) Drugs, 369	
<b>20.</b>	<b><i>Prostaglandins</i></b> . . . . .	<b>377</b>
	Nomenclature and Structure Activity Relationships, 377	

	Synthesis, 377	
	Mechanism of Action, 378	
	Metabolism, 378	
	Effects on Organ Systems, 378	
<b>21.</b>	<b><i>Histamine and Histamine Receptor Antagonists</i></b> . . . . .	<b>385</b>
	Histamine, 385	
	Histamine Receptor Antagonists, 388	
	Proton Pump Inhibitors, 396	
	Cromolyn, 397	
<b>22.</b>	<b><i>Renin, Plasma Kinins, and Serotonin</i></b> . . . . .	<b>398</b>
	Renin, 398	
	Plasma Kinins, 401	
	Serotonin, 403	
<b>23.</b>	<b><i>Hormones as Drugs</i></b> . . . . .	<b>409</b>
	Anterior Pituitary Hormones, 409	
	Thyroid Gland Hormones, 410	
	Drugs That Inhibit Thyroid Hormone Synthesis, 410	
	Ovarian Hormones, 411	
	Androgens, 414	
	Corticosteroids, 415	
	Melatonin, 422	
	Posterior Pituitary Hormones, 422	
	Chymopapain, 425	
<b>24.</b>	<b><i>Insulin and Oral Hypoglycemics</i></b> . . . . .	<b>427</b>
	Insulin, 427	
	Structure Activity Relationships, 427	
	Oral Hypoglycemics, 430	
	Biguanides, 433	
	Intestinal Glycosidase Inhibitors, 434	
<b>25.</b>	<b><i>Diuretics</i></b> . . . . .	<b>435</b>
	Thiazide Diuretics, 435	
	Loop Diuretics, 437	
	Osmotic Diuretics, 440	
	Potassium-Sparing Diuretics, 442	
	Aldosterone Antagonists, 442	
	Carbonic Anhydrase Inhibitors, 443	
<b>26.</b>	<b><i>Antacids and Gastrointestinal Prokinetics</i></b> . . . . .	<b>444</b>
	Antacids, 444	
	Drug Interactions, 445	
	Sucralfate, 447	
	Gastrointestinal Prokinetics, 447	
<b>27.</b>	<b><i>Anticoagulants</i></b> . . . . .	<b>453</b>
	Heparin, 453	
	Low-Molecular-Weight Heparin, 459	
	Oral Anticoagulants, 459	
	Thrombolytic Drugs, 461	
	Antithrombotic Drugs, 463	
<b>28.</b>	<b><i>Antimicrobials</i></b> . . . . .	<b>465</b>
	Antimicrobial Prophylaxis for Surgical Procedures, 465	
	Penicillins, 465	
	Cephalosporins, 470	

	Other Beta-Lactam Antimicrobials, 471	
	Aminoglycoside Antimicrobials, 472	
	Tetracyclines, 474	
	Macrolides, 475	
	Clindamycin, 476	
	Chloramphenicol, 476	
	Vancomycin, 476	
	Polymyxin B and Colistimethate, 477	
	Bacitracins, 478	
	Sulfonamides, 478	
	Metronidazole, 480	
	Fluoroquinolones, 480	
	Nitrofurantoin, 481	
	Drugs for Treatment of Tuberculosis, 481	
	Antifungal Drugs, 484	
	Antiviral Drugs, 485	
<b>29.</b>	<b><i>Chemotherapeutic Drugs</i></b> .....	<b>490</b>
	Classification, 490	
	Alkylating Drugs, 490	
	Antimetabolites, 495	
	Plant Alkaloids, 498	
	Antibiotics, 499	
	Enzymes, 503	
	Synthetics, 503	
	Hormones, 504	
<b>30.</b>	<b><i>Antiepileptic Drugs</i></b> .....	<b>506</b>
	Principles of Dosing, 506	
	Plasma Concentrations, 506	
	Drug Interactions, 509	
	Mechanism of Seizure Activity, 509	
	Mechanism of Drug Action, 509	
	Major Antiepileptic Drugs, 510	
	New Antiepileptic Medications, 514	
<b>31.</b>	<b><i>Drugs Used for Treatment of Parkinson's Disease</i></b> .....	<b>515</b>
	Levodopa, 515	
	Peripheral Decarboxylase Inhibitors, 517	
	Synthetic Dopamine Agonists, 518	
	Anticholinergic Drugs, 518	
	Amantadine, 518	
	Selegiline, 519	
	Nonpharmacologic Treatment, 519	
<b>32.</b>	<b><i>Drug Treatment of Lipid Disorders</i></b> .....	<b>520</b>
	Drugs for Treatment of Increased Plasma Low-Density Lipoprotein Cholesterol Concentrations, 520	
	Drugs for Treatment of Increased Plasma Triglyceride Concentrations, 523	
<b>33.</b>	<b><i>Central Nervous System Stimulants and Muscle Relaxants</i></b> .....	<b>525</b>
	Central Nervous System Stimulants, 525	
	Centrally Acting Muscle Relaxants, 528	
<b>34.</b>	<b><i>Vitamins</i></b> .....	<b>532</b>
	Water-Soluble Vitamins, 532	
	Fat-Soluble Vitamins, 537	

<b>35.</b>	<i>Minerals and Electrolytes</i> . . . . .	<b>541</b>
	Calcium, 541	
	Potassium, 547	
	Hypokalemic Drug Effects, 547	
	Phosphate, 548	
	Magnesium, 549	
	Iron, 550	
	Copper, 552	
	Zinc, 552	
	Chromium, 552	
	Selenium, 552	
	Manganese, 552	
	Molybdenum, 553	
<b>36.</b>	<i>Blood Components and Substitutes</i> . . . . .	<b>554</b>
	Blood Components, 554	
	Topical Hemostatics, 560	
	Blood Substitutes, 561	
<b>37.</b>	<i>Hyperalimentation Solutions</i> . . . . .	<b>565</b>
	Enteral Nutrition, 565	
	Parenteral Nutrition, 566	
<b>38.</b>	<i>Antiseptics and Disinfectants</i> . . . . .	<b>570</b>
	Alcohols, 570	
	Quaternary Ammonium Compounds, 570	
	Chlorhexidine, 570	
	Iodine, 570	
	Hexachlorophene, 571	
	Formaldehyde, 571	
	Glutaraldehyde, 571	
	Pasteurization, 572	
	Cresol, 572	
	Silver Nitrate, 572	
	Mercury, 572	
	Ethylene Oxide, 572	

## Section II. Physiology

<b>39.</b>	<i>Cell Structure and Function</i> . . . . .	<b>575</b>
	Cell Anatomy, 575	
	Transfer of Molecules across Cell Membranes, 578	
	Transfer of Molecules through Cell Membranes, 578	
	Electrical Potentials across Cell Membranes, 581	
	Intracellular Communication, 583	
<b>40.</b>	<i>Body Fluids</i> . . . . .	<b>586</b>
	Blood Volume, 586	
	Measurement of Compartmental Fluid Volumes, 587	
	Constituents of Body Fluid Compartments, 587	
	Osmosis, 588	
	Changes in Volumes of Body Fluid Compartments, 589	
<b>41.</b>	<i>Central Nervous System</i> . . . . .	<b>591</b>
	Cerebral Hemispheres, 591	
	Brainstem, 594	

	Spinal Cord, 596	
	Pathways for Peripheral Sensory Impulses, 598	
	Pathways for Peripheral Motor Responses, 599	
	Anatomy of Nerve Fibers, 600	
	Neurotransmitters, 601	
	Electrical Events during Neuronal Excitation, 603	
	Cerebral Blood Flow, 604	
	Electroencephalogram, 605	
	Evoked Potentials, 606	
	Cerebrospinal Fluid, 607	
	Vision, 608	
	Hearing, 611	
	Equilibrium, 612	
	Chemical Senses, 612	
	Body Temperature, 612	
	Nausea and Vomiting, 617	
<b>42.</b>	<b><i>Autonomic Nervous System</i></b> . . . . .	<b>619</b>
	Anatomy of the Sympathetic Nervous System, 619	
	Anatomy of the Parasympathetic Nervous System, 619	
	Physiology of the Autonomic Nervous System, 620	
	Interactions of Neurotransmitters with Receptors, 625	
	Residual Autonomic Nervous System Tone, 626	
	Adrenal Medulla, 626	
<b>43.</b>	<b><i>Pain</i></b> . . . . .	<b>628</b>
	Types of Pain, 628	
	Pain Receptors, 628	
	Transmission of Pain Signals, 629	
	Reaction to Pain, 631	
	Preemptive Analgesia, 631	
	Description of Pain, 631	
	Embryologic Origin and Localization of Pain, 633	
<b>44.</b>	<b><i>Systemic Circulation</i></b> . . . . .	<b>634</b>
	Components of the Systemic Circulation, 634	
	Physical Characteristics of the Systemic Circulation, 634	
	Physical Characteristics of Blood, 639	
	Determinants of Tissue Blood Flow, 640	
	Control of Tissue Blood Flow, 640	
	Regulation of Systemic Blood Pressure, 642	
	Regulation of Cardiac Output and Venous Return, 645	
	Fetal Circulation, 647	
<b>45.</b>	<b><i>Capillaries and Lymph Vessels</i></b> . . . . .	<b>649</b>
	Capillaries, 649	
	Lymph Vessels, 652	
	Edema, 653	
<b>46.</b>	<b><i>Pulmonary Circulation</i></b> . . . . .	<b>654</b>
	Anatomy, 654	
	Intravascular Pressures, 654	
	Interstitial Fluid Space, 655	
	Pulmonary Blood Volume, 655	
	Pulmonary Blood Flow and Distribution, 656	
	Pulmonary Edema, 658	
	Events That Obstruct Pulmonary Blood Flow, 658	

<b>47.</b>	<b><i>Heart</i></b> . . . . .	<b>660</b>
	Cardiac Physiology, 660	
	Coronary Blood Flow, 663	
	Dynamics of Heart Sounds, 666	
	Conduction of Cardiac Impulses, 667	
	Circulatory Effects of Heart Disease, 669	
	Myocardial Infarction, 670	
	Angina Pectoris, 671	
	Cardiac Failure, 671	
<b>48.</b>	<b><i>The Electrocardiogram and Analysis of Cardiac Dysrhythmias</i></b> . . . . .	<b>672</b>
	Electrocardiogram, 672	
	Cardiac Dysrhythmias, 675	
<b>49.</b>	<b><i>Lungs</i></b> . . . . .	<b>682</b>
	Anatomy, 682	
	Mechanics of Breathing, 683	
	Surface Tension and Pulmonary Surfactant, 685	
	Compliance, 685	
	Lung Volumes and Capacities, 685	
	Minute Ventilation, 687	
	Control of Ventilation, 687	
	Effects of Sleep on Breathing, 690	
	Apneic Periods during Sleep, 690	
	Periodic Breathing, 690	
	Nonventilatory Functions of the Lungs, 691	
<b>50.</b>	<b><i>Pulmonary Gas Exchange and Blood Transport of Gases</i></b> . . . . .	<b>692</b>
	Pulmonary Gas Exchange, 692	
	Blood Transport of Oxygen and Carbon Dioxide, 694	
	Changes Associated with High Altitude, 699	
	Changes Associated with Excessive Barometric Pressure, 700	
<b>51.</b>	<b><i>Acid-Base Balance</i></b> . . . . .	<b>702</b>
	Mechanism for Regulation of Hydrogen Ion Concentration, 702	
	Acid-Base Disturbances, 705	
	Gastric Intramucosal pH, 707	
<b>52.</b>	<b><i>Endocrine System</i></b> . . . . .	<b>708</b>
	Mechanism of Hormone Action, 708	
	Pituitary Gland, 708	
	Thyroid Gland, 712	
	Parathyroid Glands, 714	
	Adrenal Cortex, 714	
	Reproductive Glands, 716	
	Pancreas, 718	
<b>53.</b>	<b><i>Kidneys</i></b> . . . . .	<b>722</b>
	Nephron, 722	
	Renal Blood Flow, 722	
	Glomerular Filtrate, 726	
	Renal Tubular Function, 726	
	Tubular Transport Maximum, 727	
	Regulation of Body Fluid Characteristics, 728	
	Atrial and Renal Natriuretic Factors, 730	
	Acute Renal Failure, 730	
	Chronic Renal Failure, 732	
	Transport of Urine to the Bladder, 734	

<b>54.</b>	<i>Liver and Gastrointestinal Tract</i> .....	736
	Liver, 736	
	Gastrointestinal Tract, 739	
<b>55.</b>	<i>Skeletal and Smooth Muscle</i> .....	748
	Skeletal Muscle, 748	
	Smooth Muscle, 750	
<b>56.</b>	<i>Erythrocytes and Leukocytes</i> .....	752
	Erythrocytes, 752	
	Blood Groups, 753	
	Leukocytes, 755	
	Inflammation, 757	
	Immunity, 758	
	Tissue Typing, 760	
<b>57.</b>	<i>Hemostasis and Blood Coagulation</i> .....	762
	Hemostatic Mechanism, 762	
	Thromboembolism, 764	
	Disseminated Intravascular Coagulation, 765	
<b>58.</b>	<i>Metabolism of Nutrients</i> .....	766
	Carbohydrate Metabolism, 766	
	Lipid Metabolism, 768	
	Protein Metabolism, 769	
	Obesity, 771	
	Drug Index .....	773
	Subject Index .....	777
