WOMEN IN SCIENCE AND ENGINEERING: CHOICES FOR SUCCESS

Editor and Conference Organizer
CECILY CANNAN SELBY

Advisory and Program Committees
ALICE DEUTSCH, BARBARA GEROLIMATOS, DUDLEY HERSCHBACH, MARY MOLLER,
PAULA OLSIEWSKI, PAULA RAYMAN, FRANCES STERN, NANCY TOONEY,
MARCIA WORTHING, and LILIAN SHIAO-YEN WU

CONTENTS

Dedication ........................................ xi

Preface. By CECILY CANNAN SELBY ...................... xiii

Introduction to a 25th Anniversary Conference.
By RODNEY W. NICHOLS .......................... 1

Creeping Toward Inclusivity in Science: Executive Summary.
By PHYLLIS GOLDBERG .......................... 7

Personal Reflections. By GERTRUDE B. ELION ............... 16

Working Together to Expand Opportunity. By JAMES PRESTON ..... 19

*This volume is the result of a conference entitled Choices and Successes: Women in Science and Engineering, which was sponsored by the New York Academy of Sciences and held on March 12 through 13, 1998 in New York City.
Invited Background Papers

Choices and Successes: Honoring Women Pioneers. Interviews
by CAROL BERCZUK ........................................... 22

Women in Science and Engineering: Advances, Challenges, and Solutions. A survey of the literature
by GERHARD SONNERT ..................................... 34

Part I. Changes: What Difference Has the Last Twenty-Five Years Made?

Reaching for Success in Science: Women’s Uneven Journey.
By PAULA M. RAYMAN and JULIE PEARSON STEWART .............. 58

Changes in the Gardens of Science, Wrought by Women.
By DUDLEY HERSCHBACH .................................. 66

Part II. Choices: What Keeps Women in Science and Engineering?

Session A. The Work

Introduction and Summary. By SHEILA TOBIAS ...................... 75

Different Perceptions of “Good Science” and Their Effects on Careers. By GERALD HOLTON ...................... 78

Where Women Are in the Majority. By NAPHYSAH DUNCAN ........ 87

Gender, Knowledge, and Scientific Styles.
By MARY FRANK FOX ........................................ 89

Session B. The Workplace

Opening Remarks. By JOHN DOWLING ................................ 94

Different Laboratory/Work Climates: Impacts on Women in the Workplace. By SUE V. ROSSER ...................... 95

What Draws Women to and Keeps Women in Computing?
By ANITA BORG ............................................. 102

Women Scientists in Laboratory Culture: Perspectives from an Academic Scientist in Training. By DIANE HOFFMAN-KIM .... 106

Reflections on a Career in the Aerospace Industry.
By STEPHANIE D. WILSON ................................ 110
Session C. The Rewards

Oh, If They Could Only See Us Now! By HELEN C. DAVIES ..................... 113

The Role of Socialization in Shaping the Career-Related Choices of Undergraduate Women in Science, Mathematics, and Engineering Majors. By ELAINE SEYMOUR ............................................. 118

Review and Summary of Part II Sessions. By CECILY C. SELBY ............ 127

Models of Success and Satisfaction: An Interactive, Intergenerational Discussion. By BARBARA GEROLIMATOS and MARCIA L. WORTHING ............................................. 133

Changing the Way Our Culture Interacts with Science.
By SARA LEE SCHUPF ................................................................. 140

Session A. What Promotes Success in the Private Sector?

Women Scientists in Industry. By MARY MATTIS and JENNIFER ALLYN ................................................................. 143

Surprising Opportunities: Gender and the Structure of Work in Biotechnology Firms. By SUSAN C. EATON .............................. 175

Women in Biotechnology: Finding a Place. By VICKI L. SATO ............ 189

Women Drivers. By NANCY J. HUTSON ........................................ 191

Session B. What Policies of Government Agencies Are Worth Emulating?

Introduction. By DARYL E. CHUBIN ............................................... 197

Promoting Success in the Department of Energy. By BEVERLY KARPLUS HARTLINE .................................................. 200

Opening Doors for Women in Space: A Perspective from the National Aeronautics and Space Administration. By CAROLYN L. HUNTOON ................................................ 204
Session C. What Promotes the Development of Women Scientists in Academia?

Introductory Remarks. By CYNTHIA FRIEND ................................................. 207

Academic Policies and Practices

Success for Women in Academia: Choices, Experiences, and Challenges. By SHENDA M. BAKER ......................................................... 210

A View from the Trenches. By MARY S. ERSKINE ........................................ 219

Issues of Isolation and Community. By KARIN RABE ................................... 224

Women as Valued Members of the Scientific Community.
By JUDY FRANZ ......................................................... 226

Part IV. The Future: What Have We Learned and How Can It Help?

A Panel Discussion with CECILY C. SELBY, ELEANOR BAUM, DARYL E.
CHUBIN, and LILIAN SHIAO-YEN WU ................................................. 236

Conference Participants ................................................................. 246

Index of Contributors ................................................................. 263

Financial assistance was received from:

Major Funders

- AVON PRODUCTS, INC.
- THE CLARE BOOTHE LUCE PROGRAM OF THE HENRY LUCE FOUNDATION
- IBM RESEARCH
- NATIONAL SCIENCE FOUNDATION
- LOUNSBERY FOUNDATION

Patrons

- RADCLIFFE PUBLIC POLICY INSTITUTE
- RESEARCH CORPORATION

Supporters

- EXXON EDUCATIONAL FOUNDATION
- PFIZER INC OFFICE OF WOMEN’S HEALTH
- SARA LEE SCHUPF
