PART I. ISSUES AND THEORIES

1. Toward a Development of Psychopathology: Models, Definitions, and Prediction	3
<i>Michael Lewis</i>	
Models of Developmental Psychopathology	3
What Is Maladaptive	15
Prediction and the Notion of Sudden Change	17
References	19
2. Dialectical Processes in Developmental Psychopathology	23
<i>Arnold J. Sameroff</i>	
Three Major Issues	24
Individual Development	30
The Environment	33
Regulatory Systems in Development	35
References	38
3. Assessment of Psychopathology	41
<i>Thomas M. Achenbach</i>	
Conceptual Framework	41
The DSM Paradigm	43
The Empirically Based Paradigm	46
Implications for the Developmental Understanding of Behavioral and Emotional Problems	51
References	55

4. Developmental Epidemiology: A Framework for Developmental Psychopathology	57
<i>Elizabeth Jane Costello and Adrian C. Angold</i>	
Developmental Epidemiology	58
The Current State of Developmental Epidemiology	62
The Future of Developmental Epidemiology	67
Conclusions	68
References	70
5. Relationships, Development, and Psychopathology	75
<i>L. Alan Sroufe, Sunita Duggal, Nancy Weinfield, and Elizabeth Carlson</i>	
Relationship Problems as Criteria for Disorder	76
Relationships as Contexts for Psychopathology	78
Relationship Disturbances and Pathways to Disorder	83
Early Relationships in Developmental Perspective	87
References	88
6. Prevention Science	93
<i>John D. Coie, Shari Miller-Jackson, and Catherine Bagwell</i>	
History and Rationale for Prevention Science	94
The Components of Prevention Science	96
The Stages of Prevention Trial Implementation	102
References	108

PART II. CONTEXT AND MENTAL HEALTH

7. Family Context in Developmental Psychopathology	115
<i>Barbara H. Fiese, Jay Wilder, and Nicole L. Bickham</i>	
Historical Depictions of the Family in Developmental Psychopathology	115
Family Systems Principles	118
Family Practices and Representations	120
Diagnostic Concerns	127
Conclusions	129
References	129
8. Schooling and Mental Health	135
<i>Robert W. Roeser and Jacquelynne S. Eccles</i>	
Studying Schooling, Development, and Mental Health	135
The Relation of Academic Functioning and Mental Health: Individual-Level Processes	

School Ecology and Mental Health 144
 Conclusions 150
 References 151

9. Adaptation and Maladaptation in the Peer System: Developmental Processes and Outcomes 157

Karen D. Rudolph and Stephen R. Asher

Introduction 157
 Overarching Models of Peer Relationship Difficulties and Psychopathology ... 158
 Developmental Processes Underlying Peer Adaptation and Maladaptation 160
 Peer Relationships and Psychopathology 166
 Integrative Summary 169
 Conclusions 170
 References 171

10. Minorities in the United States: Sociocultural Context for Mental Health and Developmental Psychopathology 177

Cynthia García Coll and Maria Garrido

A Theoretical Framework 180
 Risk and Protective Factors 183
 Issues around Assessment and Diagnosis 185
 Treatment and Therapeutic Issues 188
 Conclusions 191
 References 193

11. Culture and Psychopathology 197

Sara Harkness and Charles M. Super

Early Formulations of Culture and Psychopathology: Benedict and Mead 198
 Freudian Theory in “Culture and Personality” School 199
 Cultural Models of the Self 201
 Cross-Cultural Epidemiology 202
 Culture-Bound Syndromes 205
 The “New Morbidity” and Cultural Epidemiology 206
 Culture and Developmental Psychopathology 209
 References 211

PART III. BIOLOGY AND MENTAL ILLNESS

12. Developmental Behavioral Genetics 217

Thomas G. O’Connor and Robert Plomin

Introduction to Behavioral Genetics Research 218
 Recent Findings in Behavioral Genetics Studies of Psychopathology 219

What Is Developmental about Developmental Behavioral Genetics?	223
Updating Models of Genetic and Environmental Influences on Psychopathology	226
Molecular Genetics Research on Psychopathology	229
Conclusions	230
References	231
13. A Biobehavioral Perspective on Developmental Psychopathology: Excessive Aggression and Serotonergic Dysfunction in Monkeys	237
<i>Stephen J. Suomi</i>	
Development of Excessive Physical Aggression in Children	238
Biological Correlates of Physical Aggression in Children	240
Animal Models of Psychopathology	241
Species-Normative Development and Socialization of Aggression in Rhesus Monkeys	242
Individual Differences in Rhesus Monkey Aggressiveness	245
Correlates, Predictors, and Consequences of Excessive Aggressivity	247
Effects of Early Peer Rearing on the Development of Excessive Aggression	249
Specific Gene–Environment Interactions	251
Implications for Biobehavioral Perspective on Human Developmental Psychopathology	252
References	253
14. Temperament and Goodness of Fit: Implications for Developmental Psychopathology	257
<i>Ronald Seifer</i>	
Domain of Temperament	258
Assessment of Temperament	260
Temperament and Psychopathology	262
Goodness-of-Fit Models	268
Goodness of Fit and Psychopathology	272
References	273
15. Chronic Medical Conditions: Impact on Development	277
<i>Gregory K. Fritz and Elizabeth L. McQuaid</i>	
Definitions	278
Epidemiology	278
Physical Illness and Development Stages	282
Theoretical Models	285
Conclusions	287
References	287

PART IV. DISORDERS OF EARLY CHILDHOOD

16. Attachment Disorders of Infancy	293
<i>Charles H. Zeanah, Neil W. Boris, and Alicia F. Lieberman</i>	
Clinical Tradition of Disordered Attachment	293
Definition and Classification of Attachment Disorders	294
Etiology	301
Epidemiology	301
Differential Diagnosis	302
Course and Prognosis of Disorders of Attachment	303
Conclusions	303
References	304
17. Sleep and Sleep Disturbances: Regulatory Processes in Infancy	309
<i>Beth L. Goodlin-Jones, Melissa M. Burnham, and Thomas F. Anders</i>	
Description and Definition of Sleep–Wake Consolidation	310
Sleep Problems	311
Prevalence and Persistence of Sleep Problems	312
The Transactional Sleep–Wake Model	313
Summary and Conclusions	320
References	321
18. Excessive Crying	327
<i>Ronald G. Barr</i>	
Introduction	327
A Taxonomic Note	329
Early Excessive Crying: Colic (Persistent Crying)	331
Later Excessive Crying	336
Interpretive Contexts and Underlying Processes	340
Summary and Conclusions	344
References	345
19. Developmental Psychopathology of Failure to Thrive	351
<i>Dennis D. Drotar and Jane Robinson</i>	
Developmental Influences on Failure to Thrive	352
The Role of Developmental Processes in Failure to Thrive	354
Developmental Problems Associated with an Early History of Failure to Thrive	355
Risk and Protective Influences Concerning Psychological Outcomes of	
Children with Early Histories of Failure to Thrive	357
Risk and Protective Factors and Moderators of the Effects of Intervention	358

Methodological and Logistical Constraints on Understanding the Developmental Psychopathology of Failure to Thrive	359
Future Directions	360
References	361

**20. The Early Caregiving Environment: Expanding Views on Nonparental
Care and Cumulative Life Experiences** 365

Sharon Landesman Ramey and Gene P. Sackett

Early Themes in the Study of Nonparental Care	366
Experimental Studies of the Effects of Early Experience	367
“Institutionalization” as a Metaphor for Inadequate Social Experience	369
Individual Differences in Response to Environments	372
Toward a Developmental Taxonomy of Care-Providing Environments	375
Conclusions	376
References	377

PART V. DISRUPTIVE BEHAVIORAL DISORDERS

21. Attention-Deficit/Hyperactivity Disorder: A Developmental View 383

Susan B. Campbell

Diagnostic Criteria	384
Prevalence	385
Comorbidity	386
Etiological Formulations	387
Multiple Pathways and Developmental Course	391
Summary and Conclusions	395
References	396

22. The Natural History and Developmental Functions of Aggression 403

Robert B. Cairns and Beverley D. Cairns

Taking Stock	405
Is Aggression a Unitary Concept?	406
The Functions of Aggressive Patterns	410
A Developmental Account of Aggressive Phenomena	412
Creating Aggression	414
Social Networks and Aggression	417
Predicting Aggressive Behavior from Childhood to Maturity	418
Does Aggression Increase or Decrease over Time?	420
Configurations of Antecedents, Consequences, and Pathways	422
Implications for Prevention	423
Summary	425
References	426

X 23. Are Attention-Deficit/Hyperactivity Disorder and Oppositional Defiant Disorder Developmental Precursors to Conduct Disorder?	431
<i>Benjamin B. Lahey, Keith McBurnett, and Rolf Loeber</i>	
Developmental Relation of Attention-Deficit/Hyperactivity Disorder to Conduct Disorder	432
Developmental Relation of Oppositional Defiant Disorder to Conduct Disorder	434
Hypotheses Regarding Developmental Precursors to Conduct Disorder	439
Characteristics of Conduct Disorder That Emerge in Children with Attention-Deficit/Hyperactivity Disorder	439
Summary and Discussion	442
References	443
X 24. Conduct Disorder	447
<i>Kenneth A. Dodge</i>	
Proximal Processes	448
Distal Risk Factors	449
How Risk Factors Operate Together	452
Reciprocal Influences in Development	456
Mediation of Risk Factors by Proximal Processes	457
Summarized Model of Antisocial Developmental	458
Implications for Intervention	458
References	459

PART VI. EMOTIONAL DISORDERS

25. Development and Depression	467
<i>Judy Garber</i>	
Epidemiology	467
Phenomenology	469
Course and Prognosis	470
Etiology	472
Treatment	480
Conclusions and Future Directions	483
References	484
26. A Developmental Psychopathology Perspective on the Cognitive Components of Child and Adolescent Depression	491
<i>Nadine J. Kaslow, Lauren B. Adamson, and Marietta H. Collins</i>	
Orienting Themes from Developmental Psychopathology	492
Cognitive Concepts and Research on Child and Adolescent Depression	494
Discussion	505
References	506

27. Anxiety	511
<i>Michael W. Vasey and Thomas H. Ollendick</i>	
Definitional Issues	511
Diagnostic Categories	513
Epidemiological Issues	514
Etiological Factors	517
Summary	523
References	524
28. Mixed Anxiety/Depression in Childhood and Adolescence	531
<i>Bruce E. Compas and Gerri Oppedisano</i>	
Nature of Depression and Anxiety in Young People	532
Association of Depression and Anxiety: Empirical Evidence	536
Models of the Association between Depression and Anxiety	539
Moving toward a Developmental Model of Anxiety and Depression	543
Summary and Conclusions	545
References	545
29. Obsessions and Compulsions: The Developmental and Familial Context ...	549
<i>Alice S. Carter and Rachel A. Pollock</i>	
Obsessions	550
Compulsions and Ritualistic Behaviors	551
Cognitive Developmental Perspectives	552
Obsessive Compulsive Disorder	555
Epidemiological Studies of Normative and Pathological Obsessions and Compulsions	556
Associated Conditions	557
Developmental Model	558
Treatment of Child and Adolescent Obsessive–Compulsive Disorder	560
Recommendations and Implications	561
References	563

PART VII. CONTROL DISORDERS

30. Alcoholism: A Life Span Perspective on Etiology and Course	569
<i>Robert A. Zucker, Steven T. Chermack, and Geoffrey M. Curran</i>	
Introduction	569
Epidemiology	570
Definitional Issues and Problems of Phenotypic Heterogeneity	573
How Many Alcoholisms?	574
Developmentally Earlier Evidence for Trajectory Variation: Converging Lines of Work	576
Causal Structure across the Lifespan	577

The Correlation of Contexts and Individual Risk, and the Nesting of Risk Structure	582
Trajectories or Pathways?	000
References	584
31. Adolescent Drug Use Development: A Social Interactional and Contextual Perspective	589
<i>Hyman Hops, Judy A. Andrews, Susan C. Duncan, Terry E. Duncan, and Elizabeth Tildesley</i>	
Introduction	589
The Structure and Sequence of Adolescent Drug-Use Involvement	591
Ecological Influences on Adolescent Substance Use	594
Summary	598
References	602
32. The Development of Disordered Eating: Correlates and Predictors of Eating Problems in the Context of Adolescence	607
<i>Audrey R. Tyrka, Julia A. Graber, and Jeanne Brooks-Gunn</i>	
The Spectrum of Eating Disturbance in Adolescence	608
The Continuum Hypothesis	611
Dietary Restraint	611
Adolescent Challenges and Correlates of Eating Problems	612
Prospective Studies of Risk Factors for Eating Problems and Disorders	616
Heterogeneity among Individuals with Eating Problems and Disorders	617
Summary and Future Directions	619
References	621
33. Disorders of Elimination	625
<i>Janet E. Fischel and Robert M. Liebert</i>	
Physiological and Developmental Mechanisms	625
Nomenclature and Prevalence	626
Clinical Diagnosis	628
Concomitant Problems	629
Etiological Issues	629
Treatment	630
References	636
PART VIII. PERVASIVE DEVELOPMENTAL DISORDERS	
34. A Developmental Approach to Autism	641
<i>Lisa L. Travis and Marian D. Sigman</i>	
Introduction	641
Social and Emotional Development	643

Cognitive Development	647
Language Development	650
Theories of Autism	651
Conclusions	652
References	652
35. Psychopathology in Individuals with Mental Retardation	657
<i>Henry T. Sachs and Rowland P. Barrett</i>	
Introduction	657
Diagnosis of Mental Retardation	658
Cultural Influences	660
Family Stress	660
Developmental Challenges of Mental Retardation	661
Comorbid Psychopathology	664
Conclusions	667
References	668
36. Gender Identity Disorder	671
<i>Kenneth J. Zucker</i>	
Phenomenology	671
Diagnosis, Assessment, and Reasons for Refusal	673
Associated Features	678
Etiological Influences	680
Psychosexual Differentiation: Follow-Up	682
Summary	684
References	684

PART IX. TRAUMA DISORDERS

37. An Ecological–Transactional Model of Child Maltreatment	689
<i>Dante Cicchetti, Sheree L. Toth, and Angeline Maughan</i>	
Goals of This Chapter	690
Epidemiological and Definitional Issues	690
Etiology of Maltreatment	693
An Ecological–Transactional Model of Child Maltreatment	695
Child Maltreatment and Psychopathology	713
Conclusions	714
References	715

38. Traumatic Stress and Posttraumatic Stress Disorder among Children and Adolescents	723
<i>Laura M. Davidson, Sabra S. Inslicht, and Andrew Baum</i>	
Posttraumatic Stress Disorder and Traumatic Stressors	724
Sources of Traumatic Stress	727
Mediating Conditions	730
Conclusions	732
References	733
39. Dissociative Disorders	739
<i>Frank W. Putnam</i>	
Introduction	739
Developmental Antecedents of Pathological Dissociation	742
Hypnotizability, Suggestibility, and Fantasy Proneness	746
Dissociation and Psychopathology	748
References	750
