<i>List of Tables</i>	vii
<i>List of Figures</i>	ix
<i>Acknowledgements</i>	x
<i>Notes on Contributors</i>	xi
1 Introduction and Overview <i>Holger Görg, David Greenaway and Richard Kneller</i>	1
Part I Aggregate Productivity Growth	
2 Globalisation and Aggregate Productivity Growth <i>Michael Henry and Chris Milner</i>	9
3 Liberalisation and Aggregate Productivity Growth <i>David Greenaway and M. Emranul Haque</i>	28
Part II Cross Border Investment and Productivity	
4 Foreign Direct Investment and Productivity Growth: Theory <i>Ben Ferrett</i>	49
5 Empirical Evidence on Foreign Ownership and Productivity Growth <i>Sourafel Girma, Steve Thompson and Peter Wright</i>	79
6 Multinational Enterprises and Spillovers <i>Holger Görg and Alexander Hijzen</i>	92
Part III Exporting and Productivity	
7 Exporting and Productivity Growth: Theory <i>Rod Falvey and Zhihong Yu</i>	117
8 Empirical Evidence on Exporting and Productivity Growth in the UK <i>David Greenaway and Richard Kneller</i>	136

9	Multinationals, Exporting and Overseas Production	156
	<i>Sourafel Girma, Richard Kneller and Mauro Pisu</i>	
	<i>Index</i>	177

List of Tables

2.1	Results of OLS regressions cross section estimations – dependent variable: TFP growth (average 1980–90)	14
2.2	Results of OLS regressions cross section estimations – dependent variable: TFP growth (average 1980–90)	15
2.3	Instrumental variables (2SLS) regressions cross section estimations – dependent variable: TFP growth (average 1980–90)	17
2.4	Instrumental variables (2SLS) regressions cross section estimations – dependent variable: TFP growth (average 1980–90)	18
2.5	Panel estimates (1960–90) 5-year averages – dependent variable: TFP growth	21
2.6	Panel estimates (1960–90) annual – dependent variables: TFP growth	23
3.1	Components of liberalisation episodes: the Papageorgiou <i>et al.</i> study	37
3.2	Elements of recent trade liberalisations	39
5.1	Average employment, wages and labour productivity of domestic- and foreign-owned firms in UK manufacturing industry	82
5.2	The impact of ownership on labour productivity	84
5.3	The impact of ownership on total factor productivity	86
5.4	The impact of ownership changes on wage rates by type of acquisition	87
6.1	Summary statistics	101
6.2	Descriptive statistics by export behaviour, 1988–96	102
6.3	Summary statistics by nationality of ownership	103
6.4	Basic regression results by export activity	105
6.5	Regression results by export and domestic market orientation MNEs	106
6.6	Regression results with absorptive capacity and intangible assets	108
6.7	Regression results by nationality	109
7.1	Summary of model differences	128
8.1	Percentage difference between exporters and non-exporters and their statistical significance	138

8.2	Probability model of exporting	141
8.3	Transitions in and out of exporting	142
8.4	Characteristics of new exporters versus established exporters and non-exporters	142
8.5	Probit model of export market entry	143
8.6	Probit model of export market entry: agglomeration effects	145
8.7	Sample characteristics of exporters and non-exporters in a matched sample of firms	150
8.8	Effect of export market entry on firm performance for a matched and unmatched sample of firms	151
9.1a	World merchandise exports/GDP	166
9.1b	Foreign assets/world GDP	166
9.2	Summary statistics	171
9.3	The determinants of MNEs' exports (UK)	171

List of Figures

4.1	North–South FDI flows in general equilibrium à la Solow	52
4.2	Game tree for simplified Fosfuri/Motta/Rønde model	59
4.3	The MNE's equilibrium period-1 choices	61
4.4	Equilibrium industrial structures in the international duopoly game	64
4.5	Equilibrium industrial structures	68
7.1	Flow chart showing productivity uncertainty and firm entry/exit	125
7.2	Productivity heterogeneity and with-in industry reallocation	126
9.1	Probability density of productivity and firm choice	163
