<i>Preface</i>	xv
1 Implementing the precautionary principle: perspectives and prospects	1
<i>Elizabeth Fisher, Judith Jones and René von Schomberg</i>	
PART I GENERAL IMPLICATIONS OF THE PRECAUTIONARY PRINCIPLE FOR PUBLIC DECISION MAKING	
2 The precautionary principle and its normative challenges	19
<i>René von Schomberg</i>	
3 The role of science and precaution in environmental and public health policy	42
<i>Joel Tickner and David Kriebel</i>	
4 The precautionary principle and catastrophism on tenterhooks: lessons from a constitutional reform in France	63
<i>Olivier Godard</i>	
5 Precautionary policy assessment for sustainability	88
<i>Stephen Dovers</i>	
PART II THE CHALLENGES INVOLVED IN IMPLEMENTING THE PRECAUTIONARY PRINCIPLE	
6 The precautionary principle and administrative constitutionalism: the development of frameworks for applying the precautionary principle	113
<i>Elizabeth Fisher and Ronnie Harding</i>	

7	The burden and standard of proof in environmental regulation: the precautionary principle in an Australian administrative context <i>Judith Jones and Simon Bronitt</i>	137
8	Tr(e)ading cautiously: precaution in WTO decision making <i>Jan McDonald</i>	160
9	The threshold test of the precautionary principle in Australian courts and tribunals: lessons for judicial review <i>Warwick Gullett</i>	182
10	Precautionary only in name? Tensions between precaution and risk assessment in the Australian GMO regulatory framework <i>Jacqueline Peel</i>	202
PART III PROSPECTIVE APPLICATIONS OF THE PRECAUTIONARY PRINCIPLE IN SPECIFIC FIELDS		
11	A long and winding road? Precaution from principle to practice in biodiversity conservation <i>Rosie Cooney</i>	223
12	Climate change and the precautionary principle <i>Jeroen van der Sluijs and Wim Turkenburg</i>	245
13	The tension between fiction and precaution in nanotechnology <i>Arie Rip</i>	270
14	A framework for the precautionary governance of food safety: integrating science and participation in the social appraisal of risk <i>Andy Stirling, Ortwin Renn and Patrick van Zwanenberg</i>	284
	<i>Index</i>	316

Figures

4.1	Two concepts for the PP: early account of potential hazards versus more severe precautionary measures	67
6.1	Framework for applying the precautionary principle	120
6.2	Determining degrees of precaution	122
12.1	Risk evaluation diagram for different levels of global temperature change	258
14.1	Beyond risk: a series of further intractable 'degrees of uncertainty' and examples	288
14.2	A general framework for the precautionary governance of food safety	292
14.3	The risk management escalator and stakeholder involvement (from simple via complex and uncertain to ambiguous phenomena)	308

Tables

2.1	Deliberation levels involving the progressive invocation, application and implementation of the precautionary principle with its normative dimensions	20
2.2	Overview of state of affairs in science and the possible corresponding responses by risk management	29
2.3	Characteristics of regulatory systems	35
5.1	Principles of SEA	94
5.2	Hierarchical conceptualization of the precautionary principle relative to other approaches to decision and policy making in the face of uncertainty	105
6.1	Comparing the frameworks	129
7.1	Comparison between the core concepts of precaution and the elements of criminal burden of proof in criminal proceedings	140
12.1	Ice components of land ice and their sea level rise equivalents	251
14.1	Risk characteristics and their implications for risk management	301

Boxes

2.1	Policy definition of the precautionary principle	37
2.2	Explanation of the terminology of the definition of the precautionary principle	37
4.1	The bias of a positive feedback of earliness on perceived severity of risks	69
4.2	The core of the Charter of the Environment incorporated into the French Constitution	74
14.1	Examples of 'screening criteria' that might be applied in food regulation	295
14.2	An example of the 'presumption of prevention' in food regulation	296
14.3	Examples of 'precautionary appraisal' in food regulation	299
14.4	An example of a 'discursive process' in food regulation	300
