Contents

About the Editors xiii
Notes on Contributors xv
Foreword xxvii
Preface xxix

Chapter 1: Introduction and Overview 1
Anil Gupta and Ann Harding

Chapter 2: Population Ageing and Health — Empirical Needs for Effective Foresight 41
Michael C. Wolfson

Part I: Health Status

Chapter 3: Demographic Change, Health and Health-Risk Behaviour across Cohorts in Britain: Implications for Policy Modelling 59
Maria Evandrou and Jane Falkingham

Chapter 4: Measures of Dependency among Older People in Community and Residential Settings in Scotland — Their Development and Application in Resource Forecasting 81
Adam Redpath

Chapter 5: Health Status, Health Inequalities and the Ability of Older Australians to Stay in the Labour Force 105
Agnes Walker

Part II: Pharmacare and Health Expenditure Issues

Chapter 6: Evaluating Catastrophic Drug Expenditure Plans 133
Michael McCracken and Bert Waslander
Chapter 7: Projections of Commonwealth Health Expenditure in Australia's First Intergenerational Report
Deborah Schofield and George Rothman

Chapter 8: The Australian Pharmaceuticals Benefit Scheme and Older Australians: Changes in Government Outlays and Consumer Costs from the 2002–03 Federal Budget Measures
Laurie Brown, Annie Abello, Ben Phillips and Ann Harding

Chapter 9: Modelling Medicare and Pharmaceutical Benefits Scheme (PBS) Utilisation and Costs
Chris Raymond and Brett Parsons

Vishnu Kapur and Anil Gupta

Part III: Financing, Caring and Health Delivery

Chapter 11: Microsimulation Model of Medical Insurance Reform for Government Employees and Workers in China
Xiong Linping, Li Yiping, Ma Xiuqiang, Meng Hong and Lin Guohong

Chapter 12: The View from the Middle: Taking Care of the Young and the Old
Chantal Hicks, Geoff Rowe and Steve Gribble

Chapter 13: A Simulation Model Concerning Future Needs for Long-term Care of Elderly Persons in Sweden
Mårten Lagergren

Chapter 14: Providing Income Support Services to a Changing Aged Population in Australia: Centrelink’s Regional Microsimulation Model
Anthony King
Part IV: Health Human Resources Modelling

Chapter 15: Building Policy-Relevant Health Human Resource Models
Anil Gupta and Kisalaya Basu

Chapter 16: What is Behind HRSA'S Projected U.S. Supply, Demand, and Shortages of Registered Nurses
Marilyn B. Biviano, Steve Tise and Timothy M. Dall

Part V: Data Challenges

Chapter 17: Data Quality and Non-Response Effects when Using Logistical Regression in the Welsh Health Survey
Ruth Studley

Chapter 18: Confidentiality and Anonymised Survey Records: The UK Experience
Paul Williamson

Part VI: Overview of Existing Microsimulation and Health Human Resources Models

Chapter 19: The Search for Ideas among Existing Microsimulation Models
Mike McCracken and Anil Gupta

Dynamic Microsimulation Models

Model 1: MOSART (Dynamic Cross-Sectional Microsimulation Model)
Dennis F. Fredriksen and Nils M. Stølen

Model 2: DYNAMOD
Simon Kelly

Model 3: The SAGE Model: A Dynamic Microsimulation Population Model for Britain
Maria Evandrou, Jane Falkingham, Paul Johnson, Anne Scott and Asghar Zaidi

**Static Microsimulation and Macro/Micro Approaches**

| Model 8:        | GLADHISPANIA (A Spanish Tax-Benefits Microsimulation Model)                     | Xisco Oliver and Amedeo Spadaro | 473 |
| Model 9:        | STINMOD (Static Incomes Model)                                                  | Richard Percival, Annie Abello and Quoc N. Vu | 477 |
| Model 10:       | EUROMOD — The Tax-Benefit Microsimulation Model for the European Union          | Holly Sutherland              | 483 |
| Model 11:       | PSSRU Long-Term Care Finance Model and CARESIM: Two Linked UK Models of Long-Term Care for Older People | Raphael Wittenberg, Ruth Hancock, Adelina Comas-Herrera, Derek King, Juliette Malley, Linda Pickard, Ariadna Juarez-Garcia and Robin Darton | 489 |
| Model 12:       | Social Policy Simulation Database and Model (SPSD/M)                             | Chantal Hicks and Brian Murphy | 497 |
| Model 13:       | The OECD Tax-Benefit Model and Policy Database                                  | Herwig Immervoll              | 503 |
Contents

Model 14: Pharmasim Model
Anil Gupta 507

Model 15: LOTTE — The Norwegian Tax-Benefit Model System
Jørgen Aasness, John K. Dagsvik and Thor O. Thoresen 513

Health Human Resource Models

Model 16: IPDSM (Integrated Physician Demand and Supply Model)
Kisalaya Basu and Anil Gupta 521

Model 17: Registered Nurses Supply and Demand Models
(NSM & NDM)
Steve Tise and Marilyn B. Biviano 527

Model 18: MediSim (Static Microsimulation Model of the Australian Pharmaceutical Benefits Scheme)
Annie Abello and Laurie Brown 533

Spatial Microsimulation

Model 19: SVERIGE
Einar Holm, Urban Lindgren,
Erling Hågghström Lundevaller and Magnus Strömgren 543

Model 20: NSW Hospitals Model
Linc Thurecht 551

Model 21: Customer Service Projection Model (CuSP): A Regional Microsimulation Model of Centrelink Customers
Ben Phillips 557

Model 22: SpatialMSM — NATSEM’s Small Area Household Model for Australia
Shih-Foong Chin and Ann Harding 563

Index 567
