Introduction xviii

Part I. Theoretical Fundaments of Monetary Policy

1. What is money?

1.1. Introduction 3
1.2. A microeconomic approach to the definition of money 4
1.3. Defining money by its functions 11
1.4. Defining money by its statistical properties 14
1.5. The importance of a 'correct' definition of money 15

Appendix 1.1. Definitions of money in the euro area, the United States, Japan, and the UK 15
Appendix 1.2. The concept of (net) financial assets (flow of funds analysis) 17

2. The demand for money 20

2.1. Introduction 20
2.2. The quantity theory of money and the Cambridge approach 21
2.3. The interest rate as a determinant of the money demand 23
2.4. The money demand function of Cagan 32
2.5. Wealth as a determinant of the demand for money 32
2.6. Empirical demand functions for money 34

Appendix 2.1. Cointegration 38

3. The money supply process: starting point of the transmission process 40

3.1. Introduction 40
3.2. Creation and control of the monetary base by the central bank 41
3.3. Consolidated balance sheet of the banking system and the supply of the money stock 46
Contents

3.4. The mechanistic multiplier process 48
3.5. A price-theoretic model of the money supply 53
Appendix 3.1. A 'Poole analysis' for shocks 65

4. Monetary policy transmission 71
4.1. Introduction 71
4.2. Limited knowledge about the transmission process 73
4.3. The quantity theory channel 74
4.4. Interest rate channels 80
4.5. Expectations channels (the 'Phillips curve') 95
4.6. Summary 115
Appendix 4.1. The original Poole model 116
Appendix 4.2. The concept of the 'price gap' 121

Part II. Domestic Aspects of Monetary Policy

5. The ultimate goal and the final targets of monetary policy 127
5.1. Introduction 127
5.2. The long-term view: only price stability matters 131
5.3. Inflation and output growth in the short run 148
5.4. Operational issues of a 'stability-oriented monetary policy' 153
5.5. Summary 160
Appendix 5.1. Different variants of the nominal GDP targeting 161
Appendix 5.2. Calculating the welfare losses of sub-optimal money holdings 162

6. The institutional framework for monetary policy I: 'rules versus discretion' 164
6.1. Overview 164
6.2. Rules versus discretion in monetary policy 165
6.3. The main arguments for limiting the discretion of central bankers 165
6.4. Rules that are imposed on central banks from outside 169
6.5. Summary of the traditional debate 174
6.6. 'Time inconsistency': a new argument in support of rules? 174
Appendix 6.1. The debate between the Banking School and the Currency School 202

7. The institutional framework of monetary policy II: the design of the central bank legislation 205
7.1. Overview 205
7.2. Independence of monetary policy 207
Contents

7.3. Accountability of central banks 220
7.4. Liability of incompetent central bankers 228
Appendix 7.1. The functions of central banks and the technology of the payments systems 234

8. Strategies ('simple rules') for a stability-oriented monetary policy 240
8.1. The function of simple rules 240
8.2. ‘Simple rules’, intermediate targets, and indicators of monetary policy 245
8.3. Monetary targeting 248
8.4. Inflation targeting 257
8.5. The Taylor rule: a rule for an operating target 268
8.6. A nominal GDP rule 274
Appendix 8.1. The yield structure as an indicator of the stance of monetary policy 282

9. The conduct of monetary policy by the world’s major central banks 293
9.1. A comparison of the performance of central banks 293
9.2. The monetary policy framework of the Deutsche Bundesbank 295
9.3. The monetary policy framework of the European Central Bank 300
9.4. The monetary policy framework of the Federal Reserve System 307
9.5. The monetary policy framework of the Bank of Japan 311

10. The instruments of monetary policy 321
10.1. Basic requirements 321
10.2. Monetary base targeting v. interest rate targeting 323
10.3. Significance of individual monetary policy instruments 336
10.4. Money market management by the European Central Bank 348
10.5. Money market management by the Federal Reserve System 358
10.6. Money market management by the Bank of England 361
10.7. Money market management by the Bank of Japan 364
10.8. The New Political Economy and monetary policy instruments 365

11. Seigniorage and inflation tax 369
11.1. Introduction 369
11.2. Monetary seigniorage and fiscal seigniorage 370
11.3. Macroeconomic stability and seigniorage financing 372
11.4. Optimal seigniorage 382
