Introduction by the Editor
From New Industry to the New Economy

I Becoming a Global Corporation – BASF from 1865 to 1900
Wolfgang von Hippel

1. The Prehistory
   Friedrich Engelhorn – Pioneering Entrepreneurship
   A Massive Market – The Beautiful World of the New Dyestuffs
   One of the First Coal-Tar Dye Factories in Germany

2. The Early Years (1865–1873)
   Mannheim or Ludwigshafen? The Dramatic Establishment of the Corporation
   The Large-Scale Project to Begin Anew in Ludwigshafen
   From Imitation to Independent Research – Heinrich Caro
   The First Synthesis of a Natural Dyestuff: Alizarin
   On an Expansion Course: The Fusion with the Stuttgart Firms of Knosp and Siegle in 1873

   An Overview
   The Centers of Developments – Top Management and Organizational Problems
   The Heart of the Company – Research and Production
   Science as a Factor of Production – Laboratory Work
   The Stony Path to the Marketplace – Dyeing Works as Testing Stations
   “The Age of Dyestuffs” I: Aniline Dyes
   “The Age of Dyestuffs” II: Azo-dyes
   “The Age of Dyestuffs” III: Alizarin Dyes
