Ultra High Performance Concrete (UHPC)

Proceedings of the

International Symposium on
Ultra High Performance Concrete

Kassel, Germany
September 13-15, 2004

Edited by:
M. Schmidt, E. Fehling, C. Geisenhanslüke
University of Kassel, Germany
Part 4: Binders and Fillers

High Performance Concretes with Energetically Modified Cement (EMC)
   L. Elfgren; J.-E. Jonasson; V. Ronin

Highly reactive β-Dicalcium silicate for ultra high performance concrete
   N. B. Singh

Lime-pozzolan binder as a very fine mineral admixture in concrete
   J. F. Martirena; R. L. Day; B. Middendorf; M. Gehrke; L. Martinez; J. M. Dopico

Optimizing mix proportions of Normal Weight Reactive Powder Concrete with Strengths of 200-350 MPa
   I. Talebinejad; S. A. Bassam; A. Iranmansesh; M. Shekarchizadeh

Seeing at the nanoscale: Hydration of pozzolanic and cementitious materials
   C. Vellmer; M. Gehrke; B. Middendorf

Part 5: Silica Fume and Additives

The use of synthetic colloidal silica dispersions for making HPC and UHPC systems, preliminary comparison results between colloidal silica dispersions and silica fumes (SF)
   A. Korpa; R. Trettin

Role of Silica fume Concrete in Concrete Technology
   K. Jayakumar

Compatibility of Components of High and Ultra High Performance Concrete
   I. Terzijski

Utilization of Chemical Admixtures in High Performance Concretes (HPC)
   R. Hela; J. Zach; P. Kubicek

Influence of surface-modified Carbon Nanotubes on Ultra-High Performance Concrete
   T. Kowald

Part 6: Fillers and Aggregates

Comparative Investigations on Ultra-High Performance Concrete with and without Coarse Aggregates
   J. Ma; M. Orgass; F. Dehn; D. Schmidt; N. V. Tue

Tests on ultra-high performance fibre reinforced concrete designing hot-water tanks and UHPFRC-shells
K.-H. Reineck; S. Greiner

Bond of Reinforcement in Ultra High Strength Concrete
K. Holschemacher; D. Weiße; S. Klotz

Structural response of composite "UHPFRC-concrete" members under bending
K. Habel; E. Denarié; E. Brühwiler

About shear force and punching shear resistance of structural elements of Ultra High Performance Concrete
K. Bunje; E. Fehling

Stress State Optimization in Steel-Concrete Composite Elements
J. Brauns; K. Rocens

Push-Out Tests on Headed Studs embedded in UHPC
J. Hegger; S. Rauscher; C. Goralski

Structural Behaviour of UHPC under Tensile Stress and Biaxial Loading
T. Leutbecher; E. Fehling

Static and fatigue bending tests of UHPC
E. S. Lappa; C. R. Braam; J. C. Walraven

Research into high-strength concrete at high rates of loading
S. Ortlepp; M. Curbach

Ultra High Strength Concrete under Concentrated Loading
K. Holschemacher; F. Dehn; S. Klotz; D. Weiße

Effects of Casting Direction on the Mechanical Properties of CARDIFRC®
T. Stiel; B. L. Karihaloo; E. Fehling

Deformation Characteristics in Various Calcium Aluminate Cement Admixtures Investigated With Three Different Methods
L. Kraft; L. Hermansson

Part 9: Design and Construction

Textile reinforced ultra high performance concrete
W. Brameshuber; T. Brockmann; B. Banholzer

Bending design of steel-fibre-strengthened UHPC
M. Teutsch; J. Grunert
Structural Behavior of Tension Members in UHPC

J. Jungwirth; A. Muttoni

The behavior of very high strength concrete structures with CFRP reinforcing bars

J. Aronoff; A. Katz; Y. Frostig

The Use of UHPC in Composites – Ideas and Realisations –

B. Freytag; J. Juhart; L. Sparowitz; E. Baumgartner

Part 10: Processing and Early Age Behavior

Effect of Mixing and Placement Methods on Fresh and Hardened Ultra High Performance Concrete (UHPC)

I. Schachinger; J. Schubert; O. Mazanec

Early-age autogenous shrinkage of UHPC incorporating very fine fly ash or metakaolin in replacement of silica fume

S. Staquet; B. Espion

Expansive behavior of expansive high strength concrete and its induced stress

I. Maruyama; H. Ito; R. Sato

Fertilizations from the Refractories industry

B. M. Piscaer

Part 11: Fibre Reinforcement

Effects of polymer- and fibre modifications on the ductility, fracture properties and micro-crack development of ultra-high performance concrete

L. Lohaus; S. Anders

Fibre Reinforced Ultra-High Strength Concretes

M. Orgass; Y. Klug

Mechanical Behavior of High Performance Steel Fiber Reinforced Cementitious Composites under Cyclic Loading Condition

G. Güvensoy; F. Bayramov; A. Ilki; C. Sengül; M. A. Tasdemir; A. N. Kocatürk; M. Yerlikaya

Flexural behaviour of Ultra High Performance Concrete reinforced with mixed short fibers and CFRP rebars

A. Si-Larbi; E. Ferrier; P. Hamelin
Ultra High Performance Composite Bridge across the River Fulda in Kassel – Accompanying investigations according to the required agreement by the authorities –

E. Fehling; K. Bunje; M. Schmidt; N. V. Tue

Ultra-High Performance Fibre Reinforced Concrete for shells

A. Lichtenfels

Membrane Concrete Grid Shells – UHPC Grid Shells

G. Zimmermann; T. Teichmann

Designing with ultra high strength concrete: basics, potential and perspectives
