Part I  
INCOME AND ASSET VALUE MEASUREMENT SYSTEMS

1 Accounting and reporting on a cash flow basis  
1.1 Introduction  
1.2 Shareholders  
1.3 What skills does an accountant require in respect of external reports?  
1.4 Managers  
1.5 What skills does an accountant require in respect of internal reports?  
1.6 Procedural steps when reporting to internal users  
1.7 Agency costs  
1.8 Illustration of periodic financial statements prepared under the cash flow concept to disclose realised operating cash flows  
1.9 Illustration of preparation of balance sheet under the cash flow concept  
1.10 Treatment of fixed assets in the cash flow model  
1.11 What are the characteristics of these data that make them reliable?  
1.12 Reports to external users  
Summary  
Review questions  
Exercises  
References

2 Accounting and reporting on an accrual accounting basis  
2.1 Introduction  
2.2 Historical cost convention  
2.3 Accrual basis of accounting  
2.4 Mechanics of accrual accounting – adjusting cash receipts and payments  
2.5 Subjective judgements required in accrual accounting – adjusting cash receipts in accordance with IAS 18  
2.6 Subjective judgements required in accrual accounting – adjusting cash payments in accordance with the matching principle  
2.7 Mechanics of accrual accounting – the balance sheet  
2.8 Reformatting the statement of financial position into a balance sheet  
2.9 Accounting for the sacrifice of fixed assets
2.10 Reconciliation of cash flow and accrual accounting data
Review questions 34
Exercises 35
