</table>
The Influence of Structure and Impurity Precipitation on the Electrical Properties of the Grain Boundaries in Silicon: Copper Precipitation in the \( \Sigma = 25 \) Boundary
By M. Aucouturier, A. Broniatowski, A. Chari, and J.L. Maurice
(With 5 Figures) ........................................ 64

EBIC Contrast and Precipitation in \( \Sigma = 13 \) and \( \Sigma = 25 \) Annealed Silicon Bicrystals
By A. Ihilal and G. Nouet (With 5 Figures) .................. 77

Electron Beam Induced Current Contrast and Transmission Electron Microscopy Analysis of Special Grain Boundaries in Silicon
By J.-L. Maurice and C. Colliex (With 6 Figures) ............ 83

SEM-EBIC Investigations of the Electrical Activity of Grain Boundaries in Germanium
By N. Tabet, C. Monty, and Y. Marfaing (With 6 Figures) ........ 89

Part III Segregation, Activation and Passivation I

Atomic-Level Imaging and Microanalysis of Grain Boundaries in Polycrystalline Semiconductors
By L.L. Kazmerski (With 12 Figures) .......................... 96

Investigation of the Cobalt Segregation at Grain Boundaries in Silicon
By T. Tütken, W. Schröter, and H.J. Möller (With 5 Figures) .......... 108

On the Influence of the Cottrell Atmosphere on the Recombination Losses at Grain Boundaries in Polycrystalline Silicon
By S. Pizzini, F. Borsani, A. Sandrinelli, D. Narducci, M. Anderle, and R. Canteri (With 7 Figures) ..................... 115

Hydrogen Passivation of Grain Boundaries in Silicon Sheet Material
By M. Pirzer and R. Schindler (With 8 Figures) ................ 122

Atomic Hydrogen Passivation Studies of Microcrystalline Phases in Ion-Implant Damaged Surface Layers of Silicon
By H.-C. Chien, K. Srikanth, S. Ashok, and M.-C. Chen (With 6 Figures) 127

Hydrogen Injection and Migration in Silicon
By A.E. Jaworowski (With 5 Figures) ............................ 133

Analysis of the Polycrystalline Semiconducting Film Electrical Resistance Variation Due to Isothermal Desorption and Temperature Stimulated Desorption of Oxygen
By B. Fortin, F. Raoult, G. Rosse, Y. Colin, and M. El Khadir
(With 5 Figures) .................................................. 139
Part IV  Segregation, Activation and Passivation II

Activation and Passivation of Grain Boundary Recombination Activity in Polycrystalline Silicon
By S. Martinuzzi (With 9 Figures) ........................................... 148

Thermal Activation and Hydrogen Passivation of Grain Boundaries
By A. Bardhadi, H. Amzil, J.C. Muller, and P. Siffer (With 6 Figures)  158

Analysis of Metal-Doped Polycrystalline Silicon with Secondary Ion Mass Spectrometry
By H. Führer and P. Wagner (With 3 Figures) .................................. 164

Oxygen Detection in Polycrystalline Silicon
By B. Pivac (With 3 Figures) ..................................................... 170

Generation of Radiation Defects in the Vicinity of Twin Boundaries in EFG SiliconRibbons
By J. Katcki and D. Ast (With 3 Figures) ........................................ 175

Physical Properties of Polycrystalline S-Web Si Ribbons
By W. Krühler, J. Grabmaier, and R. Schindler (With 5 Figures) ......... 180

Grain Boundary Structure in S-WEB Silicon Ribbon
By P. Vanko, H.P. Strunk, and J.G. Grabmaier (With 5 Figures) ........... 186

Characterization of MBE-Grown Polysilicon
By M. Kuisl, U. König, F. Schäffler, and R. Lossos (With 7 Figures) .... 192

Part V  Technology

Mechanisms of Epitaxial Growth of Polar Semiconductors on (001) Silicon
By P. Pirouz (With 7 Figures) .................................................... 200

Preparation and Characterization of Nickel Silicide
By H.-E. Sasse and U. König (With 6 Figures) ................................ 213

Characterization of the Interface of Silicon pn-Junctions, Fabricated by the Silicon Direct Bonding (SDB) Method
By R. Lindner and R. Hofmann-Tiikkanen (With 6 Figures) ............... 219

Metal and Polycrystalline Silicon Reactions
By K.N. Tu and T.C. Chou (With 5 Figures) .................................. 225

Interfacial Reactions of TiN$_x$/Si Contacts
By N. Fujimura and T. Ito (With 4 Figures) ................................... 234

Linear and Parabolic Growth Kinetics in Binary Couples
By E.C. Zingu (With 4 Figures) ................................................. 239
Part VI  Thin Films I

Polycrystalline Compound Semiconductor Thin Films in Solar Cells
By H.W. Schock (With 14 Figures) ................................. 246

Electronic Properties of Photoetched CdSe Films
By R. Jäger-Waldau, R. Tenne, N. Stücheli, H. Flaisher, M. Braun,
M. Lux-Steiner, E. Bucher, W. Kerfin, R. Braun, and W. Koschel
(With 6 Figures) .................................................. 257

Thin Film Transistors and Light Sensors with Polycrystalline CdSe-
Semiconductors
By J. Spachmann, E. Lüder, T. Kallfaß, and W. Otterbach
(With 8 Figures) .................................................. 262

Part VII  Crystallization

Crystallization Processes and Structures of Semiconductor Films
By L.N. Aleksandrov (With 9 Figures) ......................... 270

Crystallized Silicon Films for Active Devices
By B. Loisel, L. Haji, P. Joubert, and M. Guendouz (With 5 Figures) 283

Laser Recrystallization of Polysilicon for Improved Device Quality
By R. Buchner, K. Haberger, and B. Hu (With 6 Figures) ........ 289

Growth of Sb-Doped Epitaxial Si Layers Through Recrystallization of
Poly-Si on a (100) Si Substrate
By S.F. Gong, H.T.G. Hentzell, G. Radnoczi, and A. Charai
(With 4 Figures) .................................................. 295

Part VIII  Transport Properties

Current Control by Electrically Active Grain Boundaries
By F. Greuter and G. Blatter (With 7 Figures) ............... 302

Numerical Modelling of the Intergranular Potential Barrier Height and
Carrier Concentration in Polysilicon
By H. Lhermite, Y. Colin, and O. Bonnaud (With 3 Figures) .... 315

Hall Mobility and Carrier Concentration of e-Gun Evaporated Poly-Si
Films
By B. Ocker, W. Schmolla, J. Diefenbach, and G. Blang
(With 10 Figures) ................................................ 320

Measurement and Calculation of the Carrier Concentration in
Polycrystalline Germanium Thin Films
By H.J. Möller and V. Schlichting (With 4 Figures) ............ 326
Grain Boundary States in Float-Zone Silicon Bicrystals  
By G. Petermann and P. Haasen (With 5 Figures) 332

Pressure Studies of Metastable Electron Traps in Grain Boundaries of p-HgMnTe and p-HgCdMnTe  
By P. Wiśniewski, T. Suski, G. Grabecki, P. Sobkowicz, and T. Dietl (With 8 Figures) 338

Band Tailing in Polycrystalline and Disordered Silicon  
By J.H. Werner (With 4 Figures) 345

---

Part IX **Thin Films II**

Microstructure and Interfaces of Polysilicon in Integrated Circuits  
By H. Cerva and H. Oppolzer (With 14 Figures) 354

Effect of the Grain Boundaries in Small Grain Polysilicon Thin Film Transistors  
By A. Sakri, A. Le Glaunec, Y. Colin, and O. Bonnaud (With 6 Figures) 366

Kink Effect in the Double-Gate Accumulation-Mode N-Channel Polysilicon Thin-Film Transistors  
By M. Fuse, Y. Sakata, T. Inoue, K. Yamauchi, and Y. Yatsuda (With 4 Figures) 370

Applications of Poly-Si in Selective-Area and Three-Dimensional Devices  
By U. König, M. Kuisl, J.-F. Luy, and H. Kibbel (With 6 Figures) 376

Thin-Film Transistors from Evaporated Low Temperature Processed Poly-Si Films  
By W. Schmolla, J. Diefenbach, G. Blang, and B. Ocker (With 5 Figures) 382

Pressure Effect on In Situ Boron-Doped LPCVD Silicon Films  
By L. Haji, L. Hamedi, A. Rupert, B. Loisel, and P. Joubert (With 4 Figures) 387
