## CONTENTS

### International Temperature Scale

**Keynote Lecture**
The Development of the International Temperature Scale of 1990

*L. Crovini, Italy*  
1

Non-Uniqueness of Some Standard Platinum Resistance Thermometers over the Temperature Range from 13.8 K to 1235 K

*B. W. Mangum, E. R. Pfeiffer, G. F. Strouse, USA*  
17

Investigation of the Metrological Characteristics of Soviet-made High-Temperature Platinum Resistance Thermometers

*A. I. Pokhodun, N. P. Moiseeva, A. V. Kovalev, E. V. Khovanskaya, USSR*  
37

Realization of A Practical Temperature Scale between the Tin and Copper Points with an Infrared Thermometer

*T. Ricolfi, M. Battuello, Italy*  
54

Investigation of High Temperature Standard Platinum Resistance Thermometers

*M. J. de Groot, J. F. Dubbeldam, P. Bloembergen, The Netherlands*  
62

Development of a Sealed Glass Cell for Gallium Triple Point

*M. Arai, H. Sakurai, Japan*  
80

Temperature References with the Sodium Liquid-Vapour Transition

*P. Marcarino, V. Fernicola, R. Dematteis, C. Bassani, Italy*  
86

An Adiabatic Calorimeter for Calibration at the Triple Point of Argon

*Y. Hermier, G. Bonnier, France*  
95

### Calibration of Temperature Sensors

Computer Aided Calibration of Thermometers

*K. Riski, G. Bergström, A. Vainio, Finland*  
105

Cryogenic Thermometer Calibration Apparatus Using a GM Type Closed-Cycle Helium Refrigerator

*H. Sakurai, O. Tamura, Japan*  
112

Measurements of Carbon Dioxide and Xenon Triple Point Cells

*D. I. Head, UK, Y. Hermier, France, R. L. Rusby, UK, G. Bonnier, France, Mao Wei, China*  
118

Sealed Cells containing Superconducting Samples for the Realization of Thermometric Fixed Points

*L. Lipinski, H. Manuszkiewicz, A. Szmyrka-Grzebyk, Poland*  
126

### Thermocouples and its Material

About the Accuracy of Pt-Rh Thermocouples

*J. Ancsin, Z. Yaoguo, Canada, China*  
131

Single Crystal Refractory Metals for High Temperature Measurements

*I. P. Kuritnyk, USSR*  
134
The Thermoelectric Instability of Some Metal-Sheathed Mineral-Insulated Standard Thermocouples Related to Type, Sheath Alloy and Environment of Exposure

F. Andersen, N. A. Burley, Denmark, Australia

High Temperature Thermoelectric Materials and Hydrogen; Experiments in Finding its Effect on Thermal E. M. F. and Physical Investigations of the Interaction After-effects

F. M. Filonov, V. I. Tkatchev, USSR

Special Techniques of Temperature Measurements

Temperature Measurement by Resonance Acoustics Method

N. Levchuk, I. Lichnovsky, Ya. Lucyk, B. Stadnyk, USSR

Problems in Building NQR Thermometers for Industrial Application

V. N. Gukalo, V. I. Lakh, M. I. Osyka, USSR

Semiconductor Low Temperature Thermometers with Low Magnetoresistance

A. Szmyrka-Grzebyk, Poland, L.I. Zarubin, USSR, L.M. Besley, Australia

Optical Fibre Sensing Techniques for Wide Range Temperature Measurement

Dynamic Behavior of Temperature Sensors

In Situ Determination of Dynamics of Temperature Sensors

L. Michalski, K. Eckersdorf, Poland

Simulation of MBS Identification of Temperature Sensors

J. McGhee, I. A. Henderson, S. Mackie, Scotland

A Theoretical and Experimental Investigation of the Dynamic Behaviour of Beaded Thermocouples Surface Welded

R. Cipollone, G. D’Emilia, Italy

A Method of Alternating Noise-Cancelling for a Temperature Measurement

K. Mine, Y. Morimoto, M. Kitazaki, Japan

Radiation Temperature Measurement

Keynote Lecture
The Current Problems of Improving the Accuracy of Radiation Pyrometry and their Possible Solutions

D. Ya. Svet, USSR

Dual-Wavelength Radiation Thermometry for Aluminum Alloys

B. K. Tsai, D. P. DeWitt, G. J. Dail, USA

Extension of the Integral six-color Pyrometer to Lower Temperatures and to the Near Infrared Region

J. F. Babelot, FRG, M. Hoch, USA

The Influence of Non-isothermal Source Conditions on the Transfer of Radiance Temperatures in the Temperature-Wavelength Domain 300 K - 3000 K; 0.6 μm - 10μm

P. Bloembergen, The Netherlands, R. E. Bedford, C. K. Ma, Canada
Posters

A Portable Device for Determining the Thermalphysical Characteristics of the Soils
S. Alexieva, Bulgaria

Heat Transfer Properties of a Device for Creating a Temperature Gradient
M. Kilifarska-Petkova, Chr. Stoykov, J. Todorov, Bulgaria

Metrological Assurance of Conductometric Measurements in a Wide Range of Temperature, Pressure and Conductivity
A. N. Atanov, T. N. Ivanov, USSR

Problems of Optimization and Normalization of Dynamic Characteristics of Contact Temperature Gauges
A. D. Pinchevskiy, USSR

Temperature Measurements in French Nuclear Safety Experiments: Results from Phébus Severe Fuel Damage Program
J.Y. Blanc, B. Clement, R. Agaisse, G. Barthelemy, France

Reflectopyrometer with Optical Fiber
F. Buyle-Bodin, P. Herve, France

Emission from Semitransparent Materials in the Infrared
E. Gehin, P. Masclet, P. Herve, France

Characterization of a Tamson Visibility Bath for Kinematic Viscosity Measurements
G. Coggiola, S. Lorefice, M. Rasetti, Italy

T-Axis Calibration in Differential Thermal Analysis, Differential Scanning Calorimetry and Thermogravimetry
K. Kostyrko, M. Skoczylas, Poland

Development of a Suction Pyrometer
K. Nakamura, Japan

Measurement of Heat Flow in Nocturnal Radiation
M. Ueda, M. Takahashi, K. Terajima, Y. Yagi, M. Haraguchi, Japan

Noise Thermometry above 4 K with dc-SQUID
W. Nawrocki, Poland

A Taxonomy of Temperature Measuring Instruments
I. A. Henderson, J. McGhee, Scotland

Liquid Crystal Thermography Applied to Turbulent Convective Heat Transfer in Air Heat Exchangers Using Corrugated Geometries
J. Stasiek, M. W. Collins, U.K.
Special-Purpose Radiation Pyrometers for Non-Contact Temperature Measurement in Ion-Plasma Installations
V. M. Zasimenko, N. B. Galyuka, USSR

Precision Three-color True Temperature Pyrometers and Their Industrial Application

High-Resolution Measurement of the Temperature of Ice Slush
J. Hari, Finland
