PREFACE

CHAPTER DEPENDENCE CHART

1 MATHEMATICAL NOTATION AND REVIEW
   Vectors 2
   Matrices 3
   Quadratic Forms 8
   Matrix Calculus 10
   Convergence 11
   Laplace Transform 14
   z-Transform 16
   Exercises 18
   Notes 21

2 STATE EQUATION REPRESENTATION
   Examples 24
   Linearization 28
   State Equation Implementation 34
   Exercises 34
   Notes 38

3 STATE EQUATION SOLUTION
   Existence 41
   Uniqueness 45
   Complete Solution 47
   Additional Examples 50
   Exercises 53
   Notes 55
## Contents

### 4 TRANSITION MATRIX PROPERTIES
- Two Special Cases 58
- General Properties 61
- State Variable Changes 66
- Exercises 69
- Notes 73

### 5 TWO IMPORTANT CASES
- Time-Invariant Case 74
- Periodic Case 81
- Additional Examples 87
- Exercises 92
- Notes 96

### 6 INTERNAL STABILITY
- Uniform Stability 99
- Uniform Exponential Stability 101
- Uniform Asymptotic Stability 106
- Lyapunov Transformations 107
- Additional Examples 109
- Exercises 110
- Notes 113

### 7 LYAPUNOV STABILITY CRITERIA
- Introduction 114
- Uniform Stability 116
- Uniform Exponential Stability 117
- Instability 122
- Time-Invariant Case 123
- Exercises 125
- Notes 129

### 8 ADDITIONAL STABILITY CRITERIA
- Eigenvalue Conditions 131
- Perturbation Results 133
- Slowly-Varying Systems 135
- Exercises 138
- Notes 140

### 9 CONTROLLABILITY AND OBSERVABILITY
- Controllability 142
- Observability 148
- Additional Examples 150
- Exercises 152
- Notes 155
## 21 DISCRETE TIME: TWO IMPORTANT CASES

- Time-Invariant Case 406
- Periodic Case 412
- Exercises 418
- Notes 422

## 22 DISCRETE TIME: INTERNAL STABILITY

- Uniform Stability 423
- Uniform Exponential Stability 425
- Uniform Asymptotic Stability 431
- Additional Examples 432
- Exercises 433
- Notes 436

## 23 DISCRETE TIME: LYAPUNOV STABILITY CRITERIA

- Uniform Stability 438
- Uniform Exponential Stability 440
- Instability 443
- Time-Invariant Case 445
- Exercises 446
- Notes 449

## 24 DISCRETE TIME: ADDITIONAL STABILITY CRITERIA

- Eigenvalue Conditions 450
- Perturbation Results 452
- Slowly-Varying Systems 456
- Exercises 459
- Notes 460

## 25 DISCRETE TIME: REACHABILITY AND OBSERVABILITY

- Reachability 462
- Observability 467
- Additional Examples 470
- Exercises 472
- Notes 475

## 26 DISCRETE TIME: REALIZATION

- Realizability 478
- Transfer Function Realizability 481
- Minimal Realization 483
- Time-Invariant Case 493
- Realization from Markov Parameters 498
- Additional Examples 502
- Exercises 503
- Notes 506
