Foreword  v

Preface  vii

Acknowledgments  ix

1 Introduction  1
  1.1 General  1
  1.2 Audience of this book  2
  1.3 How to use this book  3
  1.4 Hyper-G: How does it differ from WWW and Gopher?  4
  1.5 Hyper-G: More than an information presentation system  5
  1.6 Should you continue reading this book?  7
  1.7 Further reading  8

2 Information systems and the Internet  9
  2.1 The Internet  9
  2.2 Basic Internet services  12
  2.3 Archie  13
  2.4 WAIS  14
  2.5 The Internet Gopher  15
  2.6 The World Wide Web  16
  2.7 Hyper-G  18
  2.8 Further reading  18

3 Hypermedia systems  19
  3.1 What is hypertext and hypermedia?  19
  3.2 The origins of hypermedia  20
  3.3 Types of hypermedia system  23
  3.4 When to use hypermedia  24
  3.5 Navigating hyperspace  25
  3.6 Further reading  28

4 Applications of hypermedia systems  30
  4.1 Information presentation  30
  4.2 Beyond information presentation  36
  4.3 Further reading  43

5 Introducing Hyper-G  44
  5.1 Hyper-G as Web server  44
  5.2 Hyper-G clients  48
  5.3 Further reading  53
## CONTENTS

6  **Gopher: The first revolution**  
6.1 Background  
6.2 Early CWISs and Gopher  
6.3 Problems with CWISs  
6.4 Gopher's design goals  
6.5 Searching in gopherspace  
6.6 Veronica  
6.7 Putting Gopher into perspective  
6.8 Evolution to Gopher+  
6.9 User interface metaphors  
6.10 Problems with current information systems  
6.11 Conclusions  
6.12 Further reading  

7  **World Wide Web: A first plateau**  
7.1 World Wide Web history  
7.2 The main concepts behind WWW  
7.3 WWW servers  
7.4 CGI scripts: A way to improve WWW  
7.5 Further reading  

8  **The need for second-generation hypermedia systems**  
8.1 Getting lost in hyperspace  
8.2 Authoring in the large  
8.3 Architectural considerations  
8.4 Further reading  

9  **The design of Hyper-G**  
9.1 The history of the Hyper-G project  
9.2 Structured hypermedia  
9.3 Searching  
9.4 Links separated from documents  
9.5 Multi-user, multi-author system  
9.6 Client–server architecture  
9.7 Further reading  

10  **The Hyper-G server**  
10.1 Object IDs, objects and documents  
10.2 The server architecture  
10.3 Protocol conversion layer  
10.4 Session layer (hgs)erver)  
10.5 Database layer  
10.6 Maintaining referential integrity  
10.7 Performance issues  
10.8 Further reading
11 Inside Hyper-G
11.1 The Hyper-G data model 134
11.2 Access permissions 146
11.3 Accounting, billing and licensing 149
11.4 Replication 151
11.5 Further reading 151

12 Hyper-G and gateways to external databases
12.1 Importance of gateways 152
12.2 SQL gateway to databases in Hyper-G 154
12.3 Gateway to videotex systems 163
12.4 Further reading 163

13 Hyper-G as a standalone server
13.1 The standalone server: An introduction 165
13.2 Applications of local databases 166
13.3 Accessing a local database 168
13.4 How the standalone server differs from the Hyper-G server 169
13.5 Creation of a local database 170
13.6 Limitations 171
13.7 Future plans 172
13.8 CD-ROM production: Hints and pitfalls 172
13.9 Further reading 173

14 Hyper-G server installation, maintenance and administration
14.1 System requirements 174
14.2 Server installation 175
14.3 Finishing the installation and starting the server 178
14.4 Server configuration 178
14.5 Environment variables 181
14.6 WWW gateway environment variables 183
14.7 Server maintenance 184
14.8 Server administration 185
14.9 Troubleshooting 190
14.10 Further reading 192

15 Using Harmony
15.1 Browsing collections, clusters and documents 193
15.2 Harmony's document viewers and hyperlink navigation 200
15.3 The Harmony Local Map 216
15.4 Searching in Harmony 221
15.5 Harmony's History Browser 224
15.6 Harmony for WWW and Gopher sites 224
15.7 Harmony system functions 227
15.8 Harmony options and preferences 227
15.9 System status and communication with other users 231
15.10 The Harmony Information Landscape 231
15.11 Further reading 234

</table>
23 Authoring with Harmony
  23.1 Object and document creation 345
  23.2 Document editing 352
  23.3 Modifying attributes 357
  23.4 Interactive link editing 358
  23.5 Structure editing 369
  23.6 Deleting objects 373
  23.7 Annotations 374
  23.8 Further reading 376

24 Authoring with Amadeus 377
  24.1 Collection and document handling 377
  24.2 Editing text documents with the HTF word template 385
  24.3 Creating links 388
  24.4 Deleting links 389
  24.5 Managing Hyper-G attributes 390

25 Database manipulation tools 392
  25.1 Automated hypermedia authoring 392
  25.2 Offline Hyper-G database tools 401
  25.3 hifimport and hifexport 411
  25.4 Further reading 422

26 Hyper-G and the PC-Library 423
  26.1 General 423
  26.2 The PC-Library as part of a general electronic library 426
  26.3 Integration with other programs 426
  26.4 The PC-Library and Hyper-G 427
  26.5 PC-Library Version 2 427
  26.6 Further reading 429

27 Hyper-G and HM-Card 431
  27.1 What is HM-Card? 431
  27.2 HM-Card: An introduction 431
  27.3 HM-Card: Terminology and functionality 432
  27.4 Creating multimedia applications 435
  27.5 Organizing a courseware library with the help of Hyper-G 439
  27.6 Further reading 443

28 Hyper-G and electronic publishing 446
  28.1 Types of literature 446
  28.2 Document formats for electronic publishing 449
  28.3 Submissions and electronic refereeing 455
  28.4 Preparing material for electronic publishing 455
  28.5 Journals and books published with Hyper-G 457
  28.6 Further reading 459
