Handbook of the History of General Topology
Volume 1

Edited by

C.E. Aull
Department of Mathematics,
Virginia Polytechnic Institute and State University,
Blacksburg, Virginia, U.S.A.

and

R. Lowen
Department of Mathematics and Computer Science,
University of Antwerp, RUCA,
Antwerp, Belgium

KLUWER ACADEMIC PUBLISHERS
DORDRECHT / BOSTON / LONDON
Contents

Introduction .......................................................... vii
Felix Hausdorff (1868 – 1942) ........................................ 1
   Gerhard Preuß
Frederic Riesz’ Contributions to the Foundations of General Topology .......................... 21
   W. J. Thron
The Contributions of L. Vietoris and H. Tietze to the Foundations
of General Topology .................................................. 31
   Heinrich Reitberger
Some Aspects of the Work and Influence of R. L. Moore .............................. 41
   Ben Fitzpatrick Jr.
   Janusz J. Charatonik
Witold Hurewicz – Life and Work ....................................... 79
   Karol Borsuk,
   translated by Krystyna Kuperberg and Anna Kuperberg
The Early Work of F. B. Jones .......................................... 85
   Mary Ellen Rudin
The Beginning of Topology in the United States and the Moore School ............. 97
   F. Burton Jones
Some Topologists of the 1940s ........................................... 105
   A. H. Stone
Miroslav Katětov (1918 – 1995) ....................................... 111
   Petr Simon
Origins of Dimension Theory .......................................... 113
   Miroslav Katětov and Petr Simon
General Topology, in Particular Dimension Theory, in The Netherlands:
the Decisive Influence of Brouwer’s Intuitionism ........................................ 135
   Teun Koetsier and Jan van Mill
The Flowering of General Topology in Japan ................................... 181
   J. Nagata
