3 PERSONAL INFLUENCE, DIFFUSION AND SHORT-TERM EFFECTS OF MASS COMMUNICATION ON INDIVIDUALS

3.1 Stimulus–response models and their modifications 58
3.2 Katz and Lazarsfeld’s two-step flow model of mass media and personal influence 62
3.3 Comstock’s psychological model of television effects on individual behaviour 67
3.4 Rogers and Shoemaker’s model of innovation diffusion 73
3.5 News diffusion 78
3.5.1 The ‘normal’ diffusion curve 78
3.5.2 The J-curve model 79
3.6 News comprehension, processing and recall 85
3.6.1 A transmission model of news learning 86
3.6.2 Processing the news – a reception model 89
3.7 The mycelium model of public opinion and interpersonal communication 95

4 EFFECTS OF MASS COMMUNICATION ON CULTURE AND SOCIETY

4.1 Cultural indicators and the cultivation process 100
4.2 Agenda-setting 104
4.2.1 The basic model 105
4.2.2 Rogers and Dearing’s model of differential agenda setting 107
4.3 A dependency model of mass communication effects 111
4.3.1 The dependency state 111
4.3.2 The dependency effect process 113
4.4 The spiral of silence 116
4.4.1 The basic model 117
4.4.2 Process model for individual opinion 118
4.5 Information gaps as effects 122
4.6 Centrifugal versus centripetal effects of media in society 129

5 AUDIENCE-CENTRED MODELS

5.1 The uses and gratifications approach 133
### Contents

5.1.1 The basic formula 133  
5.1.2 Rosengren’s general model 134  
5.1.3 The expectancy-value approach to media gratifications 136  
5.1.4 Cultural versus informational gratification models 138  
5.2 Renckstorf’s social action model 143  
5.3 Audience reception and decoding 145  
5.3.1 A model of encoding and decoding 146  
5.3.2 A discourse model 148  
5.4 Audience reach, choice and appreciation 151  
5.4.1 A model of differential audience reach 151  
5.4.2 Television programme choice 153  
5.4.3 Audience choice under conditions of channel abundance 156  
5.4.4 Television programme appreciation 157  

6 MEDIA ORGANIZATION, SELECTION AND PRODUCTION  
6.1 The media in a field of social forces 160  
6.2 Gieber and Johnson’s model of source–reporter relationships 162  
6.3 Media gatekeeping 166  
6.4 McNelly’s model of news flow 169  
6.5 Bass’s ‘Double Action’ model of internal news flow 171  
6.6 Galtung and Ruge’s model of selective gatekeeping 173  
6.7 Selection and production sequence in two different media 177  
6.7.1 Newsmaking 177  
6.7.2 The news production process 178  
6.7.3 The decision chain in the music industry 180  

7 PLANNED COMMUNICATION  
7.1 The communication campaign 184  
7.2 Dimensions of campaign objectives and effects 188  
7.3 Communication effects hierarchy 190  
7.4 Four models of public relations 193  
7.5 Marketing communication 197
8 NEW MEDIA AND THE INFORMATION SOCIETY

8.1 The information society: promise and problems 201
8.2 Changing balance of information traffic 205
8.3 Convergence of communication modes and models of media regulation 210
8.4 Communication policy and social problems: cross-system differences 213

9 INTERNATIONAL COMMUNICATION

9.1 Introduction 215
9.2 International flow of information 217
9.3 International news flow 219
9.4 Transnational television flows 223
