CONTENTS

Preface xxiii

PART ONE

BASICS OF THE GAME 1

Chapter 1

Why Trade Futures? 3

Introduction 3
Economic Function of the Speculator 4
Speculating or Gambling? 5
The Evolution of Futures Trading 6
Development of the Futures Contract 9
Attacks against Futures Trading 13
Why Do Speculators Speculate? 17
Speculate in What? 18
Futures versus Securities and Other Speculations 19
Should You Speculate? 24

Chapter 2

The Nature of the Futures Markets 27

Introduction 27
Nature of the Contract 28
Nature of Exchange Operations 29
Nature of the Open Interest 33

Speculators 34

Floor Traders 35

Hedgers 36

Nature of Cash and Futures Price Relations 37

Introduction 37
Hedging Carried Out to Eliminate the Risks Associated with Price Fluctuations 38
Hedging Carried Out to Reduce the Risks Associated with Price Fluctuations 39

Hedging Carried Out to Profit from Movements in the Basis 41
Hedging Carried Out to Maximize Expected Returns for a Given Risk (Variability of Return) or Minimize Risk for a Given Expected Return 49
Critical Comment  50

Chapter 3

The Mechanics of Futures Trading 70

Introduction 70
The Firm 70
Opening the Account 72
Contract Information 74
Daily Trading Limits 91
Taking a Position 92
Liquidating a Position 93
Types of Orders 94
Daily Operating Statement 97
Buying Power 98
The Monthly Statement 98
Regulatory Requirements 100
Tax Considerations 102

Capital Gains Treatment 102
Other Issues 104

Chapter 4

The Behavior of Futures Prices 105

Introduction 105
The Efficient-Market Hypothesis 107

Premises 108
Behavior of Traders 109

Empirical Studies 112

Introduction 112

Level One: Weak-Form Efficiency 114
Price Patterns 114
Filter Rules 117
Trend-Following Strategies 120
Spectral Analysis 121

viii Contents
PART TWO

PLAYING THE GAME—TRADING

Chapter 5

Approaches to Trade Selection: Fundamentals 139

Decision Making 139

Introduction 139

The Efficient Market—A Reprise 140

Specific Approaches 141

The Fundamental Approach 142

Model Building 145

Explaining versus Forecasting 147

Keys to Better Forecasting 148

Notes from a Trader 150

Basic Data 151

The Analytical Framework 151

Opportunity Cost of Capital 152

Increased Market Efficiency 152

Chapter 6

Approaches to Trade Selection: Technical Analysis 154

Introduction 154

Patterns on Price Charts 156

Bar Charts 157

Point-and-Figure Charts 159

Striking the Balance—Advantages and Disadvantages of Using Price Patterns in Trading 161

The Advantages 161
The Disadvantages 163
Trend-Following Methods 163

Moving Averages 164

Striking the Balance—Advantages and Disadvantages of Using
Trend-Following Methods 167

The Advantages 167
The Disadvantages 167

Character-of-Market Analysis 167

Oscillators 168

Striking the Balance—Advantages and Disadvantages of Using
the Oscillator 169

The Advantages 169
The Disadvantages 170

Traditional Volume and Open-Interest Methods 171

Striking the Balance—Advantages and Disadvantages of Using
Traditional Volume and Open-Interest Methods 174

The Advantages 174
The Disadvantages 174

Analysis of Open Interest to Determine Activities of Large
and Small Traders 174

Striking the Balance—Advantages and Disadvantages of Using Open
Interest to Reveal the Activities of Large and Small Traders 175

The Advantages 175
The Disadvantages 176

Contrary Opinion 176

Striking the Balance—Advantages and Disadvantages of Using
Contrary Opinion 179

The Advantages 179
The Disadvantages 180

Structural Theories 180

Seasonal Price Movements 181

Striking the Balance—Advantages and Disadvantages
of Using Seasonals 182

The Advantages 182
The Disadvantages 182

Time Cycles 183

Striking the Balance—Advantages and Disadvantages of Using
Time Cycles 184

The Advantages 184
The Disadvantages 184
Chapter 7

Spreads 191

Introduction 191

Spreads 191

Significance of Price Differences 193

Spread Positions 196

Intracommodity Spreads 196

Intercommodity Spreads 199

Intermarket Spreads 200

Combinations 201

Low-Risk Spreads 201

Tax Spreads 203

Problems 203

Mistakes 205

Notes from a Trader 209

Chapter 8

Options 211

Development of Options on Futures 211

Futures vs. Options 215

Futures 215

Options 215

The Development of the Option Pricing Model 217

Calls 219

Puts 227

Strategies 230

Bull Strategies 231

Bear Strategies 232

Combinations of Futures and Options—The Tinkertoy Approach 232

Futures 233
Chapter 9

The Game Plan 246

Introduction 246
The Broad Plan 248
Key Elements of the Plan 250

Capital 250

Trade Selection and Evaluation 251
  Choosing a Trade-Selection Method 251
  Evaluating a Trade-Selection Method 254

Number of Markets to Follow 256

Time Horizon 257

Adding to Positions 258

Stops 259

The Plan in Action 261

Form of the Plan 261

A Specific Plan 266

Commodity Pools and Managed Funds 269

Structure of a Commodity Pool 271

The Growth of Managed Futures Funds 271

Public Funds, Private Funds, and Investment Advisory Services 272

Selecting a Fund 273

Mistakes 274

Notes from a Trader 276

Chapter 10

Money Management 277

Introduction 277

Expectation of the Game Played 278

Probability 278

Payoff 279
PART THREE

LOSIERS AND WINNERS

Chapter 11

Introduction 307
Distribution of Profits and Losses 308
The Blair Stewart Study 308
The Hieronymus Study 310
The Houthakker Study 311
The Rockwell Study 312
The Ross Study 322
The Hartzmark and Leuthold Studies 322
The Gilbert and Brunetti Study 323
Additional Evidence 325
Skills of the Trader 325
Forecasting Skills 325
Behavioral Skills 327
Notes from a Trader 331
PART FOUR
THE BROKER IN THE GAME 333

Chapter 12

Building, Maintaining, and Servicing a Futures Clientele 335

Introduction 335

Building a Futures Clientele 335

Sales Personality 335
Industry Knowledge 337
Prospect Knowledge 339
Skill in Selling 341

Maintaining a Futures Clientele 346

Servicing a Futures Clientele 347

Appendix: Preparation for the National Commodity Futures Examinations 351

Chapter 13

Compliance: I’ll See You in Court 355

Introduction 355

Sources of Problems and Their Prevention 356

Soliciting the Account 356

The Registered Commodity Representative 356
Representations 356

Opening the Account 357

Suitability 357
Risk Letters 359
Special Types of Accounts 361
Deposit of Funds 361

Handling the Account 362

Trade Suggestions 362
Documentation of Orders 363
Discretion 364
Record Keeping 364
Churning 365
Margins 366

Dealing with Irreconcilable Differences 368

The Complaint 368
Legal Action 369
The Formal Demand 369
PART FIVE

CHOOSING THE GAME—MARKETS 373

Chapter 14

General Sources of Information 375

Periodicals 375
Historical and Real-Time Price Data 376
Trading and Research Software 377
Books 377
Government and Regulatory Agencies 377
  U.S. Grains 378
  U.S. Oilseeds 378
  U.S. Cotton 378
  U.S. Livestock 379
  World Acreage and Production Reports by Country 379
Exchanges 381
The Internet 386
Notes from a Trader 387

Chapter 15

The Interest Rate Futures Market 388

Introduction 388
The Interest Rate Complex 389
Prices and Delivery Months 390
Supply 391
Demand 391
Determinants of Interest Rates 391
Hedge Uses 394
  The Long Hedge 394
  The Short Hedge 395
Chapter 16
The Foreign Currency Futures Markets 400
Introduction 400
Available Contracts 404
Determinants of Exchange Rates 404
  Purchasing Power Parity—the Law of One Price 405
  Balance of Payments 406
  Monetary Policy 409
  Fiscal Policy 409
  Central Bank Intervention 411
Hedge Uses 412
Speculative Uses 413
Notes from a Trader 417

Chapter 17
Grains and Oilseeds 418
Introduction 418
The Soybean Complex 418
  Soybeans 420
  Soybean Meal 421
  Soybean Oil 423
  Price Determinants 426
  Futures Contracts 430
  Hedging Uses 431
  Speculative Uses 432
  Sources of Information—The Soybean Complex 433
  Notes from a Trader 434
Grains—Domestic 435
  Wheat 435
    Introduction 435
    Supply 435
    Demand 438
Silver 516
   Introduction 516
   Supply 516
   Demand 516
   Price Determinants 519
   Futures Contracts 519
   Speculative Uses 520

Platinum 521
   Introduction 521
   Supply 522
   Demand 522
   Pricing 522
   Speculative Uses 525

Palladium 526
   Notes from a Trader—Precious Metals 527

Industrial Metals 528
   Copper 528
      Introduction 528
      Supply 529
      Demand 530
      Price Determinants 531
      Futures Contracts 532
   Aluminum 533
      Introduction 533
      Supply 534
      Demand 537
      Price Determinants 537
      Futures Contracts 538
      Speculative Uses 539
   Other Base Metals 540
      Lead 540
      Nickel 541
      Tin 541
      Zinc 542

Notes from a Trader—Commercial Metals 543

Chapter 20

The Energy Markets 544
   Introduction 544
   Supply 545
   Demand 550
Crude Oil 550  
Heating Oil 552  
Unleaded Gasoline 553  
Natural Gas 553  
Liquefied Propane Gas 553  
Other Refinery Products 554  
Kerosene and Jet Fuel 554  
Residual fuel oil 554  
Price Determinants 555  
Futures Contracts 556  
Speculative Uses 559  
Notes from a Trader 563  
Sources of Information 564  

Chapter 21  
The Food, Fiber, and Wood Products Markets 566  

Coffee 566  
Introduction 566  
Supply 567  
Demand 571  
Price Determinants 573  
Futures Contracts 575  
Speculative Uses 576  
Sources of Information 577  
Notes from a Trader—Coffee 577  

Sugar 578  
Introduction 578  
Supply 579  
Demand 583  
Price Determinants 584  
International Sugar Agreement 585  
Government Programs 586  
Futures Contracts 587  
Speculative Uses 588  
Sources of Information 589  
Notes from a Trader—Sugar 589  

Cocoa Beans 590  

Contents
Introduction 590
Supply 590
Demand 596
Price Determinants 596
Futures Contracts 598
Speculative Uses 599
Sources of Information 599
Notes from a Trader—Coffee 599

Cotton 600
Introduction 600
Supply 600
Demand 603
Price Determinants 604
Futures Contracts 607
Sources of Information 608
Notes from a Trader—Cotton 609

Orange Juice 609
Introduction 609
Supply 613
Demand 614
Price Determinants 614
Futures Contracts 615
Speculative Uses 616
Sources of Information 617
Notes from a Trader—Orange Juice 618

Lumber 618
Introduction 618
Supply 619
Demand 620
Price Determinants 622
Futures Contracts 623
Speculative Uses 626
Sources of Information 626
Notes from a Trader—Lumber 627

Other Markets 627
Butter 627
Cheddar Cheese 628
Chapter 22

Index-based Futures Contracts 632

Stock Index Futures 632
Introduction 632
Hedging Uses of Stock Index Futures 635
Determinants of Stock Index Futures Prices 639
Corporate Profits 639
Interest Rates (Bills and Bond Prices) 639
Economic Conditions 640
Expectations 640
Arbitrage 643
Speculative Uses 644
Notes from a Trader—Stock Index Futures 647

Bond-index Futures 649
Municipal Bond Index Futures 649
Introduction 649
Uses for the Muni Bond Contract 651

Commodity-Indexed Futures 651
The Commodity Research Bureau Index 652
Advantages of the CRB Index 654
The Goldman Sachs Commodity Index 654
Advantages of the GSCI 656
Notes from a Trader—Index-based Futures Contracts 657

Index 659
