Answers to Selected Problems  ANS–I
Index  I–I
Contents

CHAPTER 1 Introduction 1
1A Classification of Analytical Methods 1
1B Types of Instrumental Methods 2
1C Instruments for Analysis 3
1D Selecting an Analytical Method 11
1E Calibration of Instrumental Methods 15
1F Questions and Problems 18

Section I
Measurement Basics 21

CHAPTER 2 Electrical Components and Circuits 22
2A Direct Current Circuits and Measurements 22
2B Alternating Current Circuits 28
2C Semiconductors and Semiconductor Devices 38
2D Power Supplies and Regulators 44
2E Readout Devices 46
2F Questions and Problems 49

CHAPTER 3 Operational Amplifiers in Chemical Instrumentation 53
3A Properties of Operational Amplifiers 53
3B Operational Amplifier Circuits 56
3C Amplification and Measurement of Transducer Signals 58
3D Application of Operational Amplifiers to Voltage and Current Control 63
3E Application of Operational Amplifiers to Mathematical Operations 64
3F Application of Operational Amplifiers to Switching 68
3G Questions and Problems 69

CHAPTER 4 Digital Electronics and Microcomputers 73
4A Analog and Digital Signals 74
4B Counting and Arithmetic with Binary Numbers 74
4C Basic Digital Circuit Components 76
4D Microprocessors and Microcomputers 83
CHAPTER 21  Surface Characterization by Spectroscopy and Microscopy  535
21A  Introduction to the Study of Surfaces  535
21B  Spectroscopic Surface Methods  536
21C  Scanning Electron Microscopy  549
21D  Scanning Probe Microscopes  553
21E  Questions and Problems  561

Section IV

Electroanalytical Chemistry  563

CHAPTER 22  An Introduction to Electroanalytical Chemistry  564
22A  Electrochemical Cells  565
22B  Potentials in Electroanalytical Cells  569
22C  Electrode Potentials  571
22D  Calculation of Cell Potentials from Electrode Potentials  580
22E  Currents in Electrochemical Cells  582
22F  Types of Electroanalytical Methods  587
22G  Questions and Problems  589

CHAPTER 23  Potentiometry  591
23A  Reference Electrodes  591
23B  Metallic Indicator Electrodes  594
23C  Membrane Indicator Electrodes  596
23D  Ion-Selective Field-Effect Transistors (ISFETs)  606
23E  Molecular-Selective Electrode Systems  607
23F  Instruments for Measuring Cell Potentials  610
23G  Direct Potentiometric Measurements  612
23H  Potentiometric Titrations  618
23I  Questions and Problems  618

CHAPTER 24  Coulometry  622
24A  Current-Voltage Relationships During an Electrolysis  622
24B  An Introduction to Coulometric Methods of Analysis  627
24C  Potentiostatic Coulometry  628
24D  Coulometric Titrations (Amperostatic Coulometry)  632
24E  Questions and Problems  636

CHAPTER 25  Voltammetry  639
25A  Excitation Signals in Voltammetry  640
25B  Voltammetric Instrumentation  640
25C  Hydrodynamic Voltammetry  644
25D  Cyclic Voltammetry  654
25E  Polarography  656
25F  Stripping Methods  666
25G  Voltammetry with Ultramicroelectrodes  669
25H  Questions and Problems  670

Section V

Separation Methods  673

CHAPTER 26  An Introduction to Chromatographic Separations  674
26A  A General Description of Chromatography  675
26B  Migration Rates of Solutes  678
26C  Zone Broadening and Column Efficiency  680
26D  Optimization of Column Performance  687
26E  Summary of Important Relationships for Chromatography  693
26F  Applications of Chromatography  695
26G  Questions and Problems  697

CHAPTER 27  Gas Chromatography  707
27A  Principles of Gas-Liquid Chromatography  702
27B  Instruments for Gas-Liquid Chromatography  703
27C  Gas Chromatographic Columns and Stationary Phases  711
27D  Applications of Gas-Liquid Chromatography (GLC)  716
27E  Gas-Solid Chromatography  721
27F  Questions and Problems  722

CHAPTER 28  High-Performance Liquid Chromatography  725
28A  Scope of HPLC  726
28B  Column Efficiency in Liquid Chromatography  726
28C  Instruments for Liquid Chromatography  728
28D  Partition Chromatography  739
28E  Adsorption Chromatography  748
Contents

28F Ion-Exchange Chromatography ................. 750
28G Size-Exclusion Chromatography ................. 756
28H Thin-Layer Chromatography ...................... 761
28I Questions and Problems .......................... 766

CHAPTER 29 Supercritical Fluid Chromatography and Extraction 768
29A Properties of Supercritical Fluids ............... 768
29B Supercritical Fluid Chromatography ............. 769
29C Supercritical Fluid Extraction .................... 774
29D Questions and Problems ......................... 777

CHAPTER 30 Capillary Electrophoresis and Capillary Electrochromatography 778
30A An Overview of Electrophoresis .................. 779
30B Capillary Electrophoresis .......................... 780
30C Applications of Capillary Electrophoresis ....... 786
30D Capillary Electrochromatography ................. 792
30E Questions and Problems .......................... 795

Section VI

Miscellaneous Method 797

CHAPTER 31 Thermal Methods 798
31A Thermogravimetric Methods (TG) ............... 798
31B Differential Thermal Analysis (DTA) ............ 801
31C Differential Scanning Calorimetry (DSC) ........ 805
31D Questions and Problems ......................... 808

CHAPTER 32 Radiochemical Methods 810
32A Radioactive Isotopes ............................. 810
32B Instrumentation .................................... 817
32C Neutron Activation Methods ..................... 819
32D Isotope Dilution Methods ......................... 823
32E Questions and Problems ......................... 826

CHAPTER 33 Automated Methods of Analysis 829
33A An Overview of Automatic Instruments and Instrumentation ..................... 829
33B Flow-Injection Analysis ........................... 831
33C Discrete Automatic Systems ...................... 841
33D Analyses Based upon Multilayer Films ......... 845
33E Questions and Problems ......................... 849

Appendices

APPENDIX 1 Evaluation of Analytical Data A–1
APPENDIX 2 Activity Coefficients A–25
APPENDIX 3 Some Standard and Formal Electrode Potentials A–28
APPENDIX 4 Compounds for Preparing Standard Solutions of Some Common Elements A–32
APPENDIX 5 Common Acronyms Encountered in Chemical Instrumentation A–34

Answers to Selected Problems ANS–I
