Contents

Foreword  
P. Wakker  
vii

Preface  
M. Grabisch, T. Murofushi and M. Sugeno  
ix

PART 1: THEORY

Fuzzy Measures and Fuzzy Integrals  
T. Murofushi and M. Sugeno  
3

Non-additive Measure and Integral, Basic Concepts and Their Role for Applications  
D. Denneberg  
42

The Interaction and Möbius Representations of Fuzzy Measures on Finite Spaces, k-Additive Measures: A Survey  
M. Grabisch  
70

Hierarchical Decomposition of the Choquet Integral  
K. Fujimoto and T. Murofushi  
94

Towards Generalized Belief Functions  
I. Kramosil  
104

Integration in Possibility Theory  
G. De Cooman  
124

On the Autocontinuity of Set Functions  
Z. Wang and K. Xu  
161

Pseudo-convolution and Its Applications  
E. Pap  
171

Integrals with Respect to a General Fuzzy Measure  
P. Benvenuti and R. Mesiar  
205
Measures on Triangular Norm-based Tribes: Properties and Integral Representations
D. Butnariu and E.P. Klement

On Choquet and Sugeno Integrals as Aggregation Functions
J.-L. Marichal

Comparison between Three Fuzzy Integrals
H. Imaoka

PART 2: APPLICATIONS

Choquet Expected Utility Model: A New Approach to Individual Behavior under Uncertainty and to Social Welfare
A. Chateauneuf and M. Cohen

Qualitative Decision Theory with Sugeno Integrals
D. Dubois, H. Prade and R. Sabbadin

The Choquet Integral in Multiattribute Decision Making
T. Murofushi and M. Sugeno

Application of the Choquet Integral in Multicriteria Decision Making
M. Grabisch and M. Roubens

A Hierarchical Subjective Evaluation Model Using Non-monotonic Fuzzy Measures and the Choquet Integral
S.H. Kwon and M. Sugeno

The Choquet Integral in a Rough Software Cost Decision System
J.F. Peters III, L. Han and S. Ramanna

Fuzzy Integral for Classification and Feature Extraction
M. Grabisch

Fuzzy Integrals in Image Processing and Recognition
J.M. Keller, P.D. Gader and A.K. Hocaoglu

An Algorithm for Calculating Natural Extensions with Respect to Lower Probabilities
Z. Wang, G.J. Klir, J. Swan-Stone and K. Xu
