Reorganizing the Factory

Competing Through Cellular Manufacturing

Nancy Hyer
and
Urban Wemmerlöv

Productivity Press
Contents

Preface xi
Acknowledgments xiii

SECTION 1: CELLULAR MANUFACTURING—THE BASICS

Chapter 1: Competing through Cellular Manufacturing 3
Cellular Manufacturing—A Platform for Improvement 4
The Hard and Soft Sides of Cell Implementation 7
Change Seeks Company 13
The Organization of this Book 13

Chapter 2: A Closer Look at Cells: What They Are and the Forms They Take 17
Formal Definitions of Cellular Manufacturing 17
Four Perspectives on Cells 22
Related Types of Production Units 26
Operational Characteristics of Cells 30
The Relationship of Cellular Manufacturing to Other Organizational Principles 37

Chapter 3: Why Cells Improve Performance 45
Point of Departure for Performance Improvements 45
The Sources of Cell Benefits 48
Potential Disadvantages of Cells 60
Determining the Suitability of Cells 63

SECTION 2: ADOPTING AND DESIGNING CELLS

Chapter 4: The Planning and Implementation of Cellular Manufacturing Systems 71
The Planning and Implementation Process at a Glance 71
A 13-Step Blueprint for Your Planning Process—The Details 74
## Chapter 5: Factory Planning

- An Overview of Factory Planning 95
- Confirming the Course 99
- Understanding the Current Situation 100
- Identifying Opportunities for Product Focus 112
- Identifying Opportunities for Cells 116
- Issues in Cell Design 131
- Designing a New Factory Layout 137
- Modifying the Infrastructure 143

## Chapter 6: Detailed Planning—One Cell at a Time

- Project Organization 147
- Which Cell First? 148
- Detailed Cell Planning—An Overview 151
- Planning Block 1—Cell Formation and Dimensioning 151
- Planning Block 2—Management Systems 156
- Planning Block 3—Employee, Layout, and Start-Up Issues 157
- Cell Dimensioning Revisited 167
- Dilemmas in Cell Design and Layout 172

## Chapter 7: Understanding Cell Performance Using Modeling

- Models and Cell Design 181
- What Is Manufacturing Lead Time? 182
- Elementary Queuing Theory 185
- Reducing Manufacturing Lead Time 189
- Special Problems in Designing and Operating Cells 193
- Queuing and Simulation Models—An Overview 208
- The Value of Models and Modeling 215

## Chapter 8: Determining the Economic Value of Cells

- Strategic versus Economic Justifications 222
- How to Cost-Justify Cells 224
- Estimating the Costs and Benefits of Cellular Manufacturing 226
- Discount Rates and Tax Considerations 232
- Tangible and Intangible Costs and Benefits 236
- Justifying Cells “After the Fact” 238
- Some Practical Issues in Justifications 240

## Section 3: Designing the Cell System Infrastructure

## Chapter 9: Performance Measurement for Cells

- What Is a Performance Measurement System? 249
- How to Generate Performance Measures 253
- How to Evaluate and Present Performance Measures 257
The Process Performance Measurement Matrix 266
Measuring the Performance of Cells at Turner Products 273

Chapter 10: Cost Accounting and Cellular Manufacturing 281
Standard Costing Systems and Process Improvement—Are They Compatible? 282
How to Modify Your Costing System for Cellular Manufacturing 291
A “New” Cost Accounting System for Cells 307

Chapter 11: Manufacturing Planning and Control Systems for Cells 311
An Overview of Changes to MPC Practices Driven by Cell Adoption 312
MRP/ERP Systems 313
MPC Modifications Driven by Cells—Product Structures and Planning Horizon 314
MPC Modifications Driven by Cells—Capacity Management 318
MPC Modifications Driven by Cells—The Shop Floor Control System 323
MPC Modifications Driven by Cells—Controlling Material Flow through Pull Systems 329
Planning and Controlling Supplier Orders 347
MPC Modifications Driven by Cells—Lot-Sizing and Transfer Batching 349
MPC Modifications Driven by Cells—Product Sequencing 352
Choosing an MPC System for a Cellular Work Organization 358
Facilitating Planning and Control by Reducing Complexity 365

Chapter 12: Job Design and Daily Work in Manufacturing Cells 369
What Work Is Like in Cells 369
Do Jobs Change Automatically When You Implement Cells? 373
What Is Job Design? 374
Cell Work Characteristics 375
A Decision Framework for Cell Job Design 381
Cells and Teams 389
Supervision in Cell Systems 393

Chapter 13: Selecting and Training Cell Employees 401
Why Selection and Training Are Different with Cells 401
Selecting Cell Employees 402
Selecting Cell Supervisors and Cell Leaders 419
Training Cell Operators, Leaders, and Supervisors 424

Chapter 14: Compensation Systems for Cell Employees 437
Goals and Characteristics of an Ideal Cell Compensation System 438
Understanding Pay and Pay Systems 442
Compensation Systems Providing Regular Pay 444
Compensation Systems Providing Bonus Pay 453
Cell Compensation in Practice: Combining Pay Systems 460
An Ideal Cell Compensation System 464
Issues in Adopting and Implementing Compensation Systems for Cell Employees 465
Non-Monetary Rewards and Recognition 468
SECTION 4: IMPLEMENTING AND IMPROVING CELLS

Chapter 15: Planning for Cell Implementation and Managing the Change 475
Planning for Cells in an Electronics Assembly Plant 475
Managing the Transition to Cells 480
The Role of Project Management in Cell Implementations 491

Chapter 16: Common Problems in the Design, Justification, Implementation, and Operation of Cells 513
Common Cell Design and Justification Problems 514
Common Problems in the Implementation of Cells 523
Common Problems During Cell Operation 529

Chapter 17: Improvement and Evolution of Cells 541
What Is Improvement? 541
Cells: An Ideal Setting for Continuous Process Improvement 548
Some Specific Strategies for Improving Cell Processes 551
Building a Culture of Continuous Improvement in Cells 557
Beyond Continuous Improvement—The Forces of Cell Evolution 560

SECTION 5: EXTENDING THE CONCEPT—CELLS IN THE OFFICE

Chapter 18: Reorganizing Office Work Using Cellular Principles 573
Office Operations—The Information Factory 574
What Are Office Cells? 579
Benefits of Office Cells 587
Potential Disadvantages of Office Cells 593
An Eight-Step Process for Designing Office Cells 594
14 Principles for Designing and Operating Office Cells 604
Making Office Cells Work: Infrastructure Issues and Other Key Challenges 610

SECTION 6: WHAT'S NEXT?

Chapter 19: Future Changes and Challenges 621
A Brief Review 621
Cells in 2020: A Platform for Competitive Manufacturing 622
Gray Areas: Where We Need to Know More 627
Final Words 628

Appendices

Appendix A: Using Standard Cost per Piece Data to Justify Cells 629
Appendix B: How to Make Effective Presentations to Management 633
Appendix C: Measurement Checklist 635
Appendix D: A Primer on Accounting Systems 637
Appendix E: Family Sequencing Procedures 647
