Part II: Technical Services

Chapter 8. Engineering
Introduction
Makeup of Engineering
Mechanics and Engineers
Engineering Department Functions
Engineering Order Preparation

Chapter 9. Production Planning and Control
Introduction
Forecasting
Production Planning
Production Control
Feedback for Planning
Organization of PP&C

Chapter 10. Technical Publications
Introduction
Functions of Technical Publications
Airline Libraries
Control of Publications
Document Distribution

Chapter 11. Technical Training
Introduction
Organization
Training for Aviation Maintenance
Maintenance Resources Management
Airframe Manufacturer's Training Courses
Other Airline Training Courses

Chapter 12. Computer Support
What Is a Computer?
Airline Uses of Computers
Computer Program Modules
Selecting a Computer System

Part III: Maintenance and Materiel Support

Chapter 13. Line Maintenance (on-Aircraft)
Makeup of Line Maintenance
Functions that Control Maintenance
Maintenance Control Center Responsibilities
Chapter 19. Reliability

Introduction 201
Types of Reliability 202
A Definition of Reliability 206
A Reliability Program 206
Elements of a Reliability Program 206
Other Functions of the Reliability Program 217
Administration and Management of the Reliability Program 217

Chapter 20. Maintenance Safety

Industrial Safety 221
Safety Regulations 221
Maintenance Safety Program 223
General Responsibilities for Safety 223
General Safety Rules 225
Accident and Injury Reporting 227

Part V: Appendixes

Appendix A. Systems Engineering 231

Introduction 231
Systematic versus Systems Approach 231
Systems Engineering 232
Definitions 233
System Interface Control 235
System Optimization 236
An Example of a System—The “Onion Layered” Structure 236
Summary 238

Appendix B. Human Factors in Maintenance 239

Background 239
Basic Definitions 240
Human Factors and Systems Engineering 240
Goals of the System versus Goals of the User 241
Designing for the Human Interface 242
Human Factors in Maintenance 242
Human Factors Responsibilities 243
Safety 244
Summary 244

Appendix C. The Art and Science of Troubleshooting 245

Introduction 245
Three Levels of Troubleshooting 246
Knowledge of Malfunctions 247
Knowledge is Power 250
Building Your Own Knowledge Base 252
Understanding the Sequence of Events 253
Eight Basic Concepts of Troubleshooting 254
Summary 257

Appendix D. Investigation of Reliability Alerts 259
Introduction 259
A Review of Reliability 259
Alert Investigation—A Cross-Functional Activity 260
Zeroing in on the Problem 261
About the Alert Analysis Flow Charts 262

Appendix E. Extended Range Operations (ETOPS) 273
Introduction 273
Background 273
Deviation from the 60-Minute Rule 275
ETOPS Maintenance versus Conventional Maintenance 277
ETOPS for non-ETOPS Airplanes 278
Summary 279

Appendix F. Glossary 281

Index 291
