Preface
Acknowledgments

1 Introduction

BROADCASTING BASICS

2 Types of Broadcasting
   Analog Radio
   Digital Radio
   Satellite Radio
   Analog Television
   Digital Television
   Satellite Television
   Cable Television
   Groups and Networks
   Internet Radio and Television

3 Sound and Vision
   Sound and Audio
   Light and Video
   Baseband

4 Radio Frequency Waves
   Electromagnetic Waves
   Frequencies, Bands, and Channels
   RF Over Wires and Cables
   Modulation
5 Analog Color Television
   NTSC 33
   PAL and SECAM 42
   HD Analog Video 43

6 Digital Audio and Video
   Digital Audio 45
   SD and HD Digital Video 52

7 Information Technology
   Binary 61
   Computers 63
   Storage 65
   Computer Networks 68
   Internet Streaming 70

STUDIOS AND PRODUCTION FACILITIES 75

8 Radio Studios
   Types of Studios 77
   Studio Operations 78
   System Considerations 81
   Audio Mixing Consoles 84
   Microphones 87
   Loudspeakers and Headphones 89
   CD Players 91
   Hard Disk Recorders and Audio Workstations 92
   Radio Program Automation 95
   Digital Record/Playback Devices 96
   Analog Devices 98
   Telephone Hybrids 100
   Remote Sources 101
   Audio Delay Units 101
   Emergency Alert System 102
   Audio Processing Equipment 103
   Signal Distribution 109
   Ancillary Systems 111
   Radio Master Control 112
   Other Considerations and Capabilities 113
9 Television Studios

Station and Network Operations 117
Types of Studios 119
Studio Lighting 121
Studio Control Rooms 122
System Considerations 123
Studio System 125
Video Switchers and Effects Units 127
Picture and Waveform Monitoring 130
Television Cameras 132
Film in Television 137
Videotape Recorders 140
Analog VTRs 144
Digital VTRs 145
HD Digital VTRs 149
Optical, Solid-State, and Hard Disk Recorders 151
Video Editing 152
SMPTE Timecode 153
Video Servers 154
Nonlinear Editing 156
Character Generators and Computer Graphics 158
Electronic Newsroom 159
Signal Distribution 159
Video Timing 162
Audio for Television 163
Ancillary Systems 166
Ingest and Conversion 167
Television Master Control 169
Television Automation 174
ATSC Encoding 176
Multicasting Operations 177
Closed Captioning Equipment 177
PSIP Generator 178
Data Broadcasting Equipment 178
Bitstream Distribution and Splicing 178
Internet Streaming 180

10 Remote Broadcasting

Radio News Gathering 181
Radio Remote Production 183
Television News Gathering 183
Television Remote Production 186

11 Links 191
Contribution Links for Radio 191
Contribution Links for Television 193
Network Distribution Links for Radio and Television 195
Studio-Transmitter Links for Radio and Television 196
Analog and Digital Systems 199

TRANSMISSION STANDARDS AND SYSTEMS 201

12 Analog Radio 203
AM Transmission 204
Emissions Masks 205
FM Transmission 206
Stereo Coding 208
Subcarriers 211
Radio Data System 212

13 IBOC Digital Radio 213
Phased IBOC Introduction 214
Carriers and Channels for IBOC 215
Modulation and Forward Error Correction 215
Audio Compression 216
AM IBOC 216
FM IBOC 218
Digital Radio Data Broadcasting 220

14 NTSC Analog Television 223
Carriers and Channels for Analog TV 223
Video Signal 224
Audio Signal 226
Vertical Blanking Interval Ancillary Information 227
Closed Captioning and Content Advisory Ratings 227
Analog TV Data Broadcasting 228
CONTENTS

15 ATSC Digital Television 231
   Carriers and Channels for DTV 232
   8-VSB Modulation 233
   ATSC Compressed Bitstream 235
   ATSC Video Formats 236
   MPEG-2 Compression 238
   AC-3 Audio 245
   Multiplexing 249
   Quality and Bit Rates 250
   Multicasting 252
   Closed Captions 253
   Program and System Information Protocol (PSIP) 254
   DTV Data Broadcasting 256

16 Transmitter Site Facilities 261
   Incoming Feeds 262
   Processing Equipment 263
   Exciters 264
   Power Amplifiers 266
   Transmission Lines and Other Equipment 269
   AM Antenna Systems 271
   FM and TV Antennas 275
   Towers 278
   Translators and Repeaters 279
   Transmitter Remote Control 280

17 Radio Wave Propagation and the FCC Rules 283
   FCC Rules 283
   AM Propagation 284
   FM Propagation 286
   IBOC Considerations 289
   TV VHF and UHF Propagation 290
   ATSC DTV Considerations 290

18 Conclusion 293
   Further Information 293

Index 295
