## Essays on Network Regulation

Theoretical and Empirical Evidence from the  
Electricity Supply Industry

**Nomos**

# Content

1.	Introduction	9
2.	Access Charges, Vertical Integration and Property Rights Structure – Experiences from the German Electricity Markets	11
2.1	Introduction	11
2.2	The German Electricity Market	12
2.3	The Theory	14
2.4	The Data Set and Descriptive Information	18
2.5	The Empirical Approach	21
2.6	Estimation Results	24
2.7	Conclusions	29
2.8	Appendix	30
3.	Negotiated Third Party Access – An Industrial Organisation Perspective	35
3.1	Introduction	35
3.2	Natural Monopolies and Third Party Access	36
3.3	Negotiated Third Party Access in Germany	40
3.4	German Negotiated Third Party Access and Competition Theory	42
3.5	The Data Set and Descriptive Information	44
3.6	The Empirical Approach	46
3.7	Multivariate Estimation Results	48
3.8	Conclusions	50
3.9	Appendix	52
4.	Efficiency, Quality and Economies of Scale in Network Industries – An Analysis of European Electricity Distribution Utilities	54
4.1	Introduction	54
4.2	Efficiency and Quality of Service	56
4.3	Methodology	60
4.4	Modelling Approach and Estimation Strategy	64
4.5	Data and Descriptive Information	67
4.6	Results	71
4.7	Conclusion	77
4.8	Appendix	78
5.	Conclusions	79
