# Table of Contents

## Multimedia over Wireless (1)

Enhanced Multimedia and Real-Time Stream Throughput in Wireless Ad-Hoc LAN Using Distributed Virtual Channel Based MAC .......................... 1  
*Md. Mustafizur Rahman, Choong Seon Hong*

Adaptive Streaming of Combined Audio/Video Content over Wireless Networks ................................................................. 13  
*Jeffrey Kang, Marek Burza, Peter van der Stok*

Management of IEEE 802.11e Wireless LAN for Realtime QoS-Guaranteed Teleconference Service with Differentiated H.264 Video Transmission .................................................. 25  
*Soo-Yong Koo, Byung-Kil Kim, Young-Tak Kim*

## Mobile Ad-Hoc Networks

Link Available Bandwidth Monitoring for QoS Routing with AODV in Ad Hoc Networks ................................................................. 37  
*Stephane Lohier, Yacine Ghamri Doudane, Guy Pujolle*

An Efficient and Robust Service Discovery Protocol for Dynamic MANETs ................................................................. 49  
*Mohammad Nazeeruddin, Gerard P. Parr, Bryan W. Scotney*

Modeling Energy Consumption in Error-Prone IEEE 802.11-Based Wireless Ad-Hoc Networks ................................................................. 61  
*Tsung-Han Lee, Alan Marshall, Bosheng Zhou*

## Video Streaming

MaVIS: Media-aware Video Streaming Mechanism ................................................................. 74  
*Sunhun Lee, Kwangsue Chung*

On the Power of Cooperation in Multimedia Caching ................................................................. 85  
*Itai Dabran, Danny Raz*

Delay Constrained Spatio-temporal Video Rate Control for Time-Varying Rate Channels ................................................................. 98  
*Myeong-jin Lee, Dong-jun Lee*
## Short Papers

A Scalable Framework for Content Replication in Multicast-Based Content Distribution Networks ................................................. 110  
*Yannis Matalas, Nikolaos D. Dragios, George T. Karetsos*

*Tom Pfeifer, Paul Savage, Jonathan Brazil, Barry Downes*

A Service-Oriented Framework to Promote Interoperability Among DRM Systems ................................................................. 124  
*Fernando Marques Figueira Filho, João Porto de Albuquerque, Paulo Lício de Geus*

A Distributed Hierarchical Structure for Object Networks Supporting Human Activity Recognition ........................................... 128  
*Venet Osmani, Sasitharan Balasubramaniam, Tao Gu*

A Bandwidth-Broker Based Inter-domain SLA Negotiation ......................... 134  
*Haci A. Mantar, Ibrahim T. Okumus, Junseok Hwang, Steve Chapin*

Efficiency of Loss Differentiation Algorithms in 802.11 Wireless Networks ......................................................... 141  
*Stephane Lohier, Yacine Ghamri Doudane*

## Seamless Mobility

Towards Autonomic Handover Decision Management in 4G Networks .... 145  
*Joon-Myung Kang, Hong-Taek Ju, James Won-Ki Hong*

Evaluation of an Intelligent Utility-Based Strategy for Dynamic Wireless Network Selection .................................................. 158  
*Olga Ormond, Gabriel Miro-Muntean, John Murphy*

Overlays on Wireless Mesh Networks: Implementation and Cross-Layer Searching ...................................................... 171  
*Gang Ding, John Vicente, Sanjay Rungta, Dilip Krishnaswamy, Winson Chan, Kai Miao*
