Advances in Conceptual Modeling – Theory and Practice

ER 2006 Workshops BP-UML, CoMoGIS COSS, ECDM, OIS, QoIS, SemWAT Tucson, AZ, USA, November 6-9, 2006 Proceedings

Springer
Table of Contents

ER 2006 Tutorials

Conceptual Modeling for Emerging Web Application Technologies ........................................... 1
   Dirk Draheim, Gerald Weber

State-of-the-Art in Modeling and Deployment of Electronic Contracts ....................................... 3
   Kamalakar Karlapalem, P. Radha Krishna

ER 2006 Workshops

Preface to BP-UML 2006 .................................................................................................................. 5
   Juan Trujillo, Il-Yeol Song

Adopting UML 2.0

Extending the UML 2 Activity Diagram with Business Process Goals and Performance Measures and the Mapping to BPEL ................................................................. 7
   Birgit Korherr, Beate List

UN/CEFACT'S Modeling Methodology (UMM): A UML Profile for B2B e-Commerce ....................... 19
   Birgit Hofreiter, Christian Huemer, Philipp Liegl, Rainer Schuster, Marco Zapletal

Capturing Security Requirements in Business Processes Through a UML 2.0 Activity Diagrams Profile ................................................................. 32
   Alfonso Rodríguez, Eduardo Fernández-Medina, Mario Piattini

Modeling and Transformations

Finite State History Modeling and Its Precise UML-Based Semantics ........................................... 43
   Dirk Draheim, Gerald Weber, Christof Lutteroth

A UML Profile for Modeling Schema Mappings .............................................................................. 53
   Stefan Kurz, Michael Guppenberger, Burkhard Freitag

Model to Text Transformation in Practice: Generating Code from Rich Associations Specifications ................................................................. 63
   Manoli Albert, Javier Muñoz, Vicente Pelechano, Óscar Pastor
Preface for CoMoGIS 2006 ......................................................... 73
Christelle Vangenot, Christophe Claramunt

Keynote

Large-Scale Earth Science Services: A Case for Databases ................. 75
Peter Baumann

Spatial and Spatio-temporal Data Representation

Time-Aggregated Graphs for Modeling Spatio-temporal Networks .............. 85
Betsy George, Shashi Shekhar

An ISO TC 211 Conformant Approach to Model Spatial Integrity
Constraints in the Conceptual Design of Geographical Databases .......... 100
Alberto Belussi, Mauro Negri, Giuseppe Pelagatti

Access Control in Geographic Databases .................................. 110
Liliana Kasumi Sasaoka, Claudia Bauzer Medeiros

Optimizing Representation and Access to Spatial Data

VTPR-Tree: An Efficient Indexing Method for Moving Objects with
Frequent Updates ............................................................. 120
Wei Liao, Guifen Tang, Ning Jing, Zhinong Zhong

New Query Processing Algorithms for Range and k-NN Search
in Spatial Network Databases ............................................ 130
Jae-Woo Chang, Yong-Ki Kim, Sang-Mi Kim, Young-Chang Kim

A ONCE-Updating Approach on Moving Objects .......................... 140
Hoang Do Thanh Tung, Keun Ho Ryu

Spatio-temporal Data on the Web

A Progressive Transmission Scheme for Vector Maps in Low-Bandwidth
Environments Based on Device Rendering .................................. 150
David Cavassana Costa, Anselmo Cardoso de Paiva,
Mario Meireles Teixeira, Cláudio de Souza Baptista,
Elvis Rodrigues da Silva

</table>
Evolving the Implementation of ISA Relationships in EER Schemas .............................................. 237
   Eladio Domínguez, Jorge Lloret, Ángel L. Rubio, María A. Zapata

Schema Change Operations for Versioning Complex Objects Hierarchy in OODBs .............................................. 247
   Sang-Won Lee

Representing Versions in XML Documents Using Versionstamp ......................................................... 257
   Luis Jesús Arévalo Rosado, Antonio Polo Márquez, Juan María Fernández González

OIS 2006 - 1st International Workshop on Ontologizing Industrial Standards

Preface for OIS 2006 ................................................................. 269
   Martin Hepp, Miltiadis Lytras, V. Richard Benjamins

Accepted Papers

XBRL Taxonomies and OWL Ontologies for Investment Funds ........................................... 271
   Rüben Lara, Iván Cantador, Pablo Castells

A Semantic Transformation Approach for ISO 15926 .................................................. 281
   Sari Hakkarainen, Lillian Hella, Darius Strasunskas, Stine Tuxen

Modeling Considerations for Product Ontology ......................................................... 291
   Hyunja Lee, Junho Shim, Suekyung Lee, Sang-goo Lee

Ontologizing EDI Semantics .......................................................... 301
   Doug Foxvog, Christoph Bussler

WSDL RDF Mapping: Developing Ontologies from Standardized XML Languages ........................................ 312
   Jacek Kopecký

QoIS 2006 - 2nd International Workshop on Quality of Information Systems

Preface for QoIS 2006 ................................................................. 323
   Samira Si-Saïd Cherfi, Geert Poels

Introduction to QoIS06

Information Quality, System Quality and Information System Effectiveness: Introduction to QoIS'06 ........................................ 325
   Geert Poels, Samira Si-Saïd Cherfi
Information System Quality

Quality-Driven Automatic Transformation of Object-Oriented Navigational Models ........................................ 329
  Cristina Cachero, Marcela Genero, Coral Calero,
  Santiago Meliá

HIQM: A Methodology for Information Quality Monitoring,
Measurement, and Improvement .................................. 339
  Cinzia Cappiello, Paolo Ficiaro, Barbara Pernici

Evaluating the Productivity and Reproducibility of a Measurement Procedure .............................................. 352
  Nelly Condori-Fernández, Óscar Pastor

Data Quality

Quality of Material Master Data and Its Effect on the Usefulness of Distributed ERP Systems ............................. 362
  Gerhard F. Knolmayer, Michael Röthlin

Towards Automatic Evaluation of Learning Object Metadata Quality .............................................................. 372
  Xavier Ochoa, Erik Duval

Expressing and Processing Timeliness Quality Aware Queries: The DQ2L Approach ..................................... 382
  Chao Dong, Sandra de F. Mendes Sampaio,
  Pedro R. Falcone Sampaio

SemWAT 2006 - 1st International Workshop on Semantic Web Applications: Theory and Practice

Preface for SemWAT 2006 .............................................. 393
  Hyoil Han, Ramez Elmasri

Semantic Web Applications (I)

Combining Declarative and Procedural Knowledge to Automate and Represent Ontology Mapping ....................... 395
  Li Xu, David W. Embley, Yihong Ding

Visual Ontology Alignment for Semantic Web Applications ................................................................. 405
  Jennifer Sampson, Monika Lanzenberger
