Software Engineering Education in the Modern Age

Software Education and Training Sessions at the International Conference on Software Engineering, ICSE 2005 St. Louis, MO, USA, May 15-21, 2005 Revised Lectures

Springer
Table of Contents

On Software Engineering Education

Reflections on Software Engineering Education .......................... 1
   Hans van Vliet

Reflections on Software Engineering 2004, the ACM/IEEE-CS
Guidelines for Undergraduate Programs in Software Engineering .... 11
   Joanne M. Atlee, Richard J. LeBlanc Jr., Timothy C. Lethbridge,
   Ann Sobel, J. Barrie Thompson

State of the Art and Practice: Creativity and Rigor

Deciding What to Design: Closing a Gap in Software Engineering
Education ......................................................... 28
   Mary Shaw, Jim Herbsleb, Ipek Ozkaya, Dave Root

A Pedagogical View on Software Modeling and Graph-Structured
Diagrams .......................................................... 59
   Tetsuo Tamai

Do Students Recognize Ambiguity in Software Specifications?
A Multi-national, Multi-institutional Report ............................ 71
   Tammy VanDeGrift, Beth Simon, Dean Sanders, Ken Blaha

The Groupthink Specification Exercise ................................. 89
   Michael D. Ernst

Challenges for Industries and Academia

The Making of a Software Engineer .................................... 108
   Clemens Szyperski

The Challenges of Software Engineering Education ........................ 115
   Carlo Ghezzi, Dino Mandrioli

Future Directions

A Strategy for Content Reusability with Product Lines Derived
from Experience in Online Education ................................. 128
   Victor Pankratius, Wolfram Stucky
Informatics: A Novel, Contextualized Approach to Software Engineering Education .................................................. 147
   André van der Hoek, David G. Kay, Debra J. Richardson

Software Engineering Education in the Era of Outsourcing, Distributed Development, and Open Source Software: Challenges and Opportunities .......................................................... 166
   Matthew J. Hawthorne, Dewayne E. Perry

On the Education of Future Software Engineers ............................................ 186
   Andrea Bolognesi, Paolo Ciancarini, Rocco Moretti

Author Index ........................................................................................................ 207
