# Table of Contents

## W1 – Aspect-Oriented Modeling

9th International Workshop on Aspect-Oriented Modeling .......................... 1

> Jörg Kienzle, Dominik Stein, Walter Cazzola, Jeff Gray, Omar Aldawud, and Tzilla Elrad

Modeling Features in Aspect-Based Product Lines with Use Case Slices: An Exploratory Case Study ................................................................. 6

> Roberto E. Lopez-Herrejon and Don Batory

Join Point Patterns: A High-Level Join Point Selection Mechanism ........ 17

> Walter Cazzola and Sonia Pini

## W2 – Critical Systems Development

Critical Systems Development Using Modeling Languages – CSDUML

2006 Workshop Report .................................................................................. 27

> Geri Georg, Siv Hilde Houmb, Robert France, Steffen Zschaler, Dorina C. Petriu, and Jan Jürjens

Modeling an Electronic Throttle Controller Using the Timed Abstract State Machine Language and Toolset .................................................. 32

> Martin Ouimet, Guillaume Berteau, and Kristina Lundqvist

Model Checking of UML 2.0 Interactions .................................................. 42

> Alexander Knapp and Jochen Wuttke

## W3 – Reverse Engineering

3rd International Workshop on Metamodels, Schemas, Grammars and Ontologies .......................................................................................... 52

> Jean-Marie Favre, Dragan Gašević, Ralf Lämmel, and Andreas Winter

A Unified Ontology-Based Process Model for Software Maintenance and Comprehension .......................................................... 56

> Juergen Rilling, Yonggang Zhang, Wen Jun Meng, René Witte, Volker Haarslev, and Philippe Charland

Formalizing the Well-Formedness Rules of EJB3QL in UML + OCL ...... 66

> Miguel Garcia
W4 – Quality in Modeling

The 1st Workshop on Quality in Modeling ........................................... 76
Ludwik Kuzniarz, Jean Louis Sourouille, and Mirosław Staron

Consistency of Business Process Models and Object Life Cycles .......... 80
Ksenia Ryndina, Jochen M. Küster, and Harald Gall

A Qualitative Investigation of UML Modeling Conventions .......... 91
Bart Du Bois, Christian F.J. Lange, Serge Demeyer, and
Michel R.V. Chaudron

W5 – Advanced User Interfaces

Model Driven Development of Advanced User Interfaces (MDDAUI) –
MDDAUI’06 Workshop Report ...................................................... 101
Andreas Pleuß, Jan van den Bergh, Stefan Sauer,
Heinrich Hußmann, and Alexander Bödcher

A Model-Driven Approach to the Engineering of Multiple User
Interfaces .................................................................................. 106
Goetz Botterweck

Model-Driven Dynamic Generation of Context-Adaptive Web User
Interfaces .................................................................................. 116
Steffen Lohmann, J. Wolfgang Kaltz, and Jürgen Ziegler

W6 – Real-Time and Embedded Systems

Modelling and Analysis of Real Time and Embedded Systems – Using
UML ........................................................................................... 126
Susanne Graf, Sébastien Gérard, Øystein Haugen, Julian Ober, and
Bran Selic

Time Exceptions in Sequence Diagrams ............................................ 131
Oddleif Halvorsen, Ragnhild Kobro Runde, and Øystein Haugen

Applying Model Intelligence Frameworks for Deployment Problem in
Real-Time and Embedded Systems .............................................. 143
Andrey Nechypurenko, Egon Wuchner, Jules White, and
Douglas C. Schmidt

W7 – OCL

OCL for (Meta-)Models in Multiple Application Domains .................. 152
Dan Chiorean, Birgit Demuth, Martin Gogolla, and Jos Warmer

W11 – Multi-Paradigm Modeling

Summary of the Workshop on Multi-Paradigm Modeling: Concepts and Tools .................................................. 252
   Holger Giese, Tihamér Levendovszky, and Hans Vangheluwe

Think Global, Act Local: Implementing Model Management with Domain-Specific Integration Languages .......... 263
   Thomas Reiter, Kerstin Altmanninger, and Werner Retschitzegger

S1 – Doctoral Symposium

MoDELS 2006 Doctoral Symposium ........................................ 277
   Gabriela Arevalo and Robert Pettit

   Muhammad Alam

S2 – Educators Symposium

Educators’ Symposium at MoDELS 2006 .............................. 288
   Ludwik Kuzniarz

If You’re Not Modeling, You’re Just Programming: Modeling Throughout an Undergraduate Software Engineering Program .......... 291
   James Vallino

Teaching Software Modeling in a Simulated Project Environment ...... 301
   Robert Szmurlo and Michal Śmialek

Repository for Model Driven Development (ReMoDD) .................. 311
   Robert France, Jim Bieman, and Betty H.C. Cheng

S3 – A Formal Semantics for UML

2nd UML 2 Semantics Symposium: Formal Semantics for UML ........ 318
   Manfred Broy, Michelle L. Crane, Juergen Dingel, Alan Hartman, Bernhard Rumpe, and Bran Selic

A UML Simulator Based on a Generic Model Execution Engine .......... 324
   Andrei Kirshin, Dolev Dotan, and Alan Hartman

Queries and Constraints: A Comprehensive Semantic Model for UML2 .................................................. 327
   Ingolf H. Krüger and Massimiliano Menarini
