Universal Usability

Designing Computer Interfaces for Diverse User Populations

Edited by Jonathan Lazar

John Wiley & Sons, Ltd
## Contents

**Editor's Note**  
Ben Shneiderman  
*vii*

**Preface**  
Ben Shneiderman  
*ix*

1. **Introduction to Universal Usability**  
   Jonathan Lazar  
   1

2. **Designing Searching and Browsing Software for Elementary-Age Children**  
   Hilary Hutchinson, Allison Druin and Benjamin B. Bederson  
   13

3. **The Why and How of Senior-Focused Design**  
   Theresa A. O’Connell  
   43

4. **Online Redesign of a Web Site’s Information Architecture to Improve Accessibility for Users Who are Blind**  
   Vanessa Evers and Hans Hillen  
   93

5. **Listening to Choropleth Maps: Interactive Sonification of Geo-referenced Data for Users with Vision Impairment**  
   Haixia Zhao, Ben Shneiderman and Catherine Plaisant  
   141

6. **Improving the Screen Reading Experience for Blind Users on the Web**  
   Jonathan Lazar and Aaron Allen  
   175

7. **Web Fun Central: Online Learning Tools for Individuals with Down Syndrome**  
   Assadour Kirijian, Matthew Myers, and Sylvie Charland  
   195

8. **Using Virtual Peer Technology as an Intervention for Children with Autism**  
   Andrea Tartaro and Justine Cassell  
   231

9. **Evidence-Based Computer-Assisted Instruction for Autism Spectrum Disorders**  
   Christina Whalen, Lars Lidén, Brooke Ingersoll, and Sven Lidén  
   263
10. Making Software Accessible for Users with Dementia 299
Norman Alm, Richard Dye, Arlene Astell, Maggie Ellis, Gary Gowans, and Jim Campbell

11. Designing a Cognitive Aid for and with People Who Have Anterograde Amnesia 317
Mike Wu, Ron Baecker, and Brian Richards

12. Memories of a Life: A Design Case Study for Alzheimer’s Disease 357
Tira Cohene, Ron Baecker, Elsa Marziali, and Simona Mindy

Jinjuan Feng and Andrew Sears

14. Adding Gestural Text Entry to Input Devices for People with Motor Impairments 421
Jacob O. Wobbrock and Brad A. Myers

15. The Creating Community Connections Project: Social and Cultural Approaches for Engaging Low-Income Communities 457
Randal D. Pinkett

16. Implementing Community-Based Participatory Research to Reduce Health and Technology Disparities Among Low-Income African-American Women 491
Diane Maloney-Krichmar, Eleanor Walker, David Bushnell, and Sadanand Sirvastava

17. Evaluating the Usability and Accessibility of an Online Form for Census Data Collection 517
Elizabeth D. Murphy, Lawrence A. Malakhoff, and David A. Coon

David M. Nichols, Te Taka Keegan, David Bainbridge, Sally Jo Cunningham, Michael Dewsnip, and Ian H. Witten

Jennifer Preece
