Practical Support for ISO 9001
Software Project Documentation
Using IEEE Software Engineering Standards

Preface xiii

1 Introduction and Overview 1
   Introduction 1
   What is ISO 9001? 3
   What ISO 9001 is Not 4
   What are Standards? 5

2 Summary of ISO 9001 7
   ISO 9001 Principles 7
   Why Should My Organization Implement ISO 9001? 8
   How Does the ISO 9001 Model Work? 8
   What If My Organization Implements ISO 9001? 9
   ISO 9001 Audits 9
   ISO 9001 Conformance, Registration, and Accreditation 10
   Basic Business Model for Software Engineering Organizations 10
   Conformance Pathways 11
   ISO 9001 Benefits 11

3 Relationship to Software Engineering Standards 15
   Standards Organizations 15
   ISO Technical Committee 176 on Quality Management and
   Quality Assurance 15
   International Electrotechnical Commission 16
   ISO/IEC Joint Technical Committee 001 16
   ISO/IEC JTC1 SC7 Software and Systems Engineering Standards
   Committee 16
   American National Standards Institute 17
   Institute of Electrical and Electronics Engineers 18
   IEEE S2ESC Software and Systems Engineering Standards
   Committee 19
   ISO/IEC JTC1 SC7 Software and Systems Engineering Standards
   Committee (S2ESC) 20
   Relationships Among ISO 9001, ISO 90003, IEEE 12207 and
   ISO/IEC 15504 20
Software Engineering Body of Knowledge (SWEBOK) 21
Capability Maturity Model Integrated (CMMI) 22

4 Implementation Guidance 25
   Improvement Frameworks Selection 25
   Plan, Do, Check, Act (PDCA) Cycle 25
   IDEAL (Initiating, Diagnosing, Establishing, Acting, and Learning) Model 25
   Set Context 26
   Business Improvement through ISO 9001 Implementation 27
   Customer and Investor Confidence through ISO 9001 Implementation 27
   Build Sponsorship 28
   Improvement Project Stakeholders 28
   Charter Infrastructure 28
   Establish Steering Committee and Process Group 29
   Software Engineering Training 29
   Characterize Current and Desired States 30
   Perform Gap Analysis 31
   Perform Self-Audit Using ISO 9001 Criteria 31
   Develop Recommendations 32
   Set Priorities 32
   Develop the Approach 33
   Goal-Driven Implementation 33
   Plan Actions 33
   Baseline Processes 34
   Create Solution 36
   Pilot/Test Solution 36
   Refine Solution 37
   Implement Solution 37
   Analyze and Validate 37
   ISO 9001 Registration Steps 37
   Propose Future Actions 38
   Implementation Pitfalls 38
   Being Overly Prescriptive 38
   Remaining Confined to a Specific Stage 39
   Documentation, Documentation 39
   Lack of Incentives 39
   No Measurements 39
   Conclusion 40

5 12207 Primary Life Cycle Processes and ISO 9001 43
   Software Life Cycle (SLC) Selection and Design 43
   Waterfall 44
   Modified Waterfall 44
   V-Shaped 44
   Incremental 44
Spiral
Synchronize and Stabilize
Rapid Prototype for New Projects
Code-and-Fix
IEEE 12207 Processes
Acquisition
ISO 9001 Goals
Software Acquisition Plan
Software Acquisition Plan Document Guidance
Concept of Operations
Concept of Operations (ConOps) Document Guidance
Decision Tree Analysis
Supply
ISO 9001 Goals
Request for Proposal
Request for Proposal (RFP) Guidance
Joint Customer Technical Reviews
Software Project Management Plan
Software Project Management Plan Document Guidance
Development
ISO 9001 Goals
System Requirements Analysis
System Requirements Specification
System Requirements Specification Document Guidance
Software Requirements Analysis
Software Requirements Specification
Software Requirements Specification Document Guidance
Software Design Document
Software Design Document Guidance
Interface Control Document
Interface Control Document Guidance
Operation
ISO 9001 Goals
User’s Manual
User’s Manual Document Guidance
Maintenance
ISO 9001 Goals
Transition Plan

6 12207 Supporting Life Cycle Processes and ISO 9001
Supporting Processes
ISO 9001 Goals
Documentation
ISO 9001 Goals
Quality Manual
Configuration Management Record
Contents

8 ISO 9001 for Small Projects

Appendix A. IEEE Standards Abstracts

Appendix B. Comparison of ISO 9001 to IEEE Standards

Appendix C. Work Products

Acquisition
Make/Buy Decision Matrix
Alternative Solution Screening Criteria Matrix
Cost–Benefit Ratio

Supply
Recommendations for Software Acquisition
Organizational Acquisition Strategy Checklist
Supplier Evaluation Criteria
Supplier Performance Standards

Development
Requirements Traceability
Software Development Standards Description
System Architectural Design Description
Software Architectural Design Description
Database Design Description
Software Architecture Design Success Factors and Pitfalls
UML Modeling
Unit Test Report
Unit Test Report Document Guidance
System Integration Test Report
System Integration Test Report Document Guidance

Operation
Product Packaging Information

Maintenance
Change Enhancement Requests
Baseline Change Request

Work Breakdown Structure for Postdeployment
Contents

Software Change Request Procedures 306
Quality Assurance 309
  Example Life Cycle 309
  Minimum Set of Software Reviews 316
  SQA Inspection Log 317
  Inspection Log Description 317
Verification 319
  Inspection Log Defect Summary 319
  Inspection Log Defect Summary Description 319
  Inspection Report 319
  Inspection Report Description 321
  Requirements Walk-through Form 322
  Software Project Plan Walk-through Checklist 322
  Preliminary Design Walk-through Checklist 322
  Detailed Design Walk-through Checklist 323
  Program Code Walk-through Checklist 323
  Test Plan Walk-through Checklist 324
  Walk-through Summary Report 324
  Classic Anomaly Class Categories 325
Validation 326
  Examples of System Testing 331
  Test Design Specification 332
  Test Case Specification 333
  Test Procedure Specification 334
  Test Item Transmittal Report 335
  Test Log 336
  Test Incident Report 337
  Test Summary Report 338
Joint Review 339
  Open Issues List 339
Audit 339
  Status Reviews 339
  Critical Dependencies Tracking 341
  List of Measures for Reliable Software 341
  Example Measures 341
  Measurement Information Model in ISO/IEC 15939 364
Problem Resolution 364
  Risk Taxonomy 364
  Risk Taxonomy Questionnaire 364
  Risk Action Request 364
  Risk Mitigation Plan 364
  Risk Matrix Sample 366
Management 366
  Work Breakdown Structure 366
  Work Flow Diagram 367
Contents

Stakeholder Involvement Matrix 372
Infrastructure 373
  Organizational Policy Examples 373
  Definition Form 375
  Asset Library Catalog 375
Improvement 377
  Organizational Improvement Checklist 377
  Organization Process Appraisal Checklist 377
  Lessons Learned 377
  Measures Definition for Organizational Processes 382
Training 384
  Training Log 384

Appendix D. ISO/IEC Guidance 387

Appendix E. ISO/IEC 90003 Mapping to ISO/IEC 12207 391

Appendix F. CD ROM Reference Summary 399
