Foreword ix
Preface xi
Editor xv
Contributors xvii

Background

Chapter 1  History and Overview of Neural Engineering........................................ 1-1
Daniel DiLorenzo and Robert E. Gross

Neural Modulation

Chapter 2  Cellular Mechanisms of Action of Therapeutic Brain Stimulation............... 2-1
Zelma Kiss and Trent Anderson

Chapter 3  Neuromodulation: Current Trends in Interfering with Epileptic Seizures......... 3-1
Ana Luisa Velasco, Francisco Velasco, Marcos Velasco, Bernardo Boleaga,
Mauricio Kuri, Fiacro Jiménez, and José María Núñez

Chapter 4  Responsive Neurostimulation for Epilepsy — Neurosurgical Experience:
Patient Selection and Implantation Technique ............................................. 4-1
Kostas N. Fountas and Joseph R. Smith

Chapter 5  Responsive Neurostimulation for Epilepsy: RNS™ Technology and Clinical Studies .... 5-1
Thomas K. Tcheng and Martha Morrell

Chapter 6  Deep Brain Stimulation for Pain Management ........................................ 6-1
Donald E. Richardson

Chapter 7  Spinal Cord Stimulation for Pain Management ....................................... 7-1
Allen W. Burton and Phillip C. Phan

Chapter 8  Motor Cortex Stimulation for Pain Management ..................................... 8-1
Shivanand P. Lad, Kevin Chao, and Jaimie M. Henderson

Chapter 9  Deep Brain Stimulation for Obsessive Compulsive Disorder ....................... 9-1
Wael F. Asaad and Emad N. Eskandar
Neural Augmentation

Sensory Prostheses

Chapter 10 Cochlear Prostheses: An Introduction .............................................. 10-1
Donald K. Eddington

Chapter 11 Visual Prostheses ............................................................................ 11-1
Robert J. Greenberg

Motor Prostheses—Electrode Technologies and Command Signal Extraction

Chapter 12 General Clinical Issues Relevant to Brain–Computer Interfaces .............. 12-1
Eric C. Leuthardt, Jeffrey G. Ojemann, Gerwin Schalk, and Daniel W. Moran

Chapter 13 Implantable Brain–Computer Interfaces: Neurosurgical Experience and Perspective .............................................................. 13-1
Roy A.E. Bakay

Chapter 14 Comparing Electrodes for Use as Cortical Control Signals: Tiny Tines, Tiny Wires, or Tiny Cones on Wires: Which Is Best? ........................................ 14-1
Philip R. Kennedy

Chapter 15 Neuromotor Prosthetics: Design and Future Directions ....................... 15-1
Mijail D. Serruya, Sung-Phil Kim, and John P. Donoghue

Motor Prostheses—Effector Subsystem Technologies

Chapter 16 Transcutaneous FES for Ambulation: The Parastep System ................. 16-1
Daniel Graupe

Chapter 17 Development of a Multifunctional 22-Channel Functional Electrical Stimulator for Paraplegia .............................................................. 17-1
Ross Davis, T. Johnston, B. Smith, Randal R. Betz, Thierry Houdayer, and Andrew Barriskill

Chapter 18 An Implantable Bionic Network of Injectable Neural Prosthetic Devices: The Future Platform for Functional Electrical Stimulation and Sensing to Restore Movement and Sensation .................................................. 18-1
Joseph Schulman, J. Phil Mobley, James Wolfe, Ross Davis, and Isabel Arcos

Chapter 19 Tapping into the Spinal Cord for Restoring Function after Spinal Cord Injury ...... 19-1
Lisa Guevremont and Vivian K. Mushahwar
Fundamental Science and Promising Technologies

Chapter 20  Theory and Physiology of Electrical Stimulation of the Central Nervous System...... 20-1
Warren M. Grill

Chapter 21  Transient Optical Nerve Stimulation: Concepts and Methodology of
Pulsed Infrared Laser Stimulation of the Peripheral Nerve In Vivo ..................... 21-1
Jonathon D. Wells, Anita Mahadevan-Jansen, C. Chris Kao, Peter E. Konrad, and
E. Duco Jansen

Chapter 22  Transcranial Magnetic Stimulation of Deep Brain Regions.................. 22-1
Yiftach Roth and Abraham Zangen

Chapter 23  Application of Neural Plasticity for Vision Restoration after Brain Damage........ 23-1
Imelda Pasley, Sandra Jobke, Julia Gudlin, and Bernhard A. Sabel

Index ............................................................................................................................. I-1
