Introduction: Emergent Technologies in Social Research: Pushing Against the Boundaries of Research Praxis  
Sharlene Nagy Hesse-Biber

### Part I Emergent Technologies in a Broad Social Research Context

1. Possible Dreams: Research Technologies and the Transformation of the Human Sciences  
   Edward J. Hackett  
   25

2. To Tell the Truth: The Internet and Emergent Epistemological Challenges in Social Research  
   David J. Gunkel  
   47

3. Methodological Challenges Posed by Emergent Nanotechnologies and Cultural Values  
   Barbara Herr Harthorn  
   65

4. “Under my Skin”: The Ethics of Ambient Computing for Personal Health Monitoring  
   Göran Collste  
   89

5. Ubiquitous Connectivity: User-Generated Data and the Role of the Researcher  
   Mariann Hardey  
   111

### Part II The Rise of Internet Technologies and Social Research Practice

6. Clickable Data: Hypermedia and Social Research  
   Bella Dicks and Bruce Mason  
   133

7. Emergent Digital Ethnographic Methods for Social Research  
   Dhiraj Murthy  
   158

8. New Fieldsites, New Methods: New Ethnographic Opportunities  
   Laura Robinson and Jeremy Schulz  
   180
9. Online Focus Groups 199
   David L. Morgan and Bojana Lobe

   Karim Gherab-Martin

Part III Emergent Data Collection Methods: New Forms of Data Production

11. Studying Mailing Lists: Text, Temporality, Interaction, and Materiality at the Intersection of E-Mail and the Web 257
   Anne Beaulieu and Mette Terp Højbye

12. Online Data Collection and Data Analysis Using Emergent Technologies 275
   Michael Dal

13. Collaborative Research Tools: Using Wikis and Team Learning Systems to Collectively Create New Knowledge 300
   Robert Fitzgerald and John Findlay

14. Using Emerging Technologies in Focus Group Interviews 320
   Kathryn Moyle

15. Toward Experimental Methods in Collaborative Computing Research 342
   Gregorio Convertino and John M. Carroll

16. Emergent Technologies for Assessing Social Feelings and Experiences 369
   Albertine Visser and Ingrid Mulder

17. Data Mining and Research: Applied Mathematics Reborn 394
   Bert Little

18. Knowledge Mining and Managing: Emergent Tools and Technologies in Web-Based Intelligent Learning Environments 412
   Nittaya Kerdprasop

Part IV Audiovisual, Mobile, and Geospatial Technologies’ Impact on the Social Research Process

19. The Use of Audiovisuals in Surveys 437
   Tom W. Smith and John Sokolowski

20. The Use of Mixed Methods Thinking in Documentary Development 453
   John W. Creswell and Bernard Rogers McCoy

21. Digital Storytelling as an Emergent Method for Social Research and Practice 469
   Aline Gubrium and K. C. Nat Turner

22. Mobile Phones as Sensors for Social Research 492
   Nathan Eagle

23. Bringing the Research Lab into Everyday Life: Exploiting Sensitive Environments to Acquire Data for Social Research 522
   Geert de Haan, Sunil Choenni, Ingrid Mulder, Sandra Kalidien, and Peter van Waart
24. Using Technology and the Experience Sampling Method to Understand Real Life 542

25. Geospatial Analysis Technology and Social Science Research 563
   Steven J. Steinberg and Sheila Lakshmi Steinberg

   Ross S. Purves

Part V The Impact of New Technologies for Studying Social Life in Naturalistic Settings

27. Living Laboratories: Social Research Applications and Evaluation 625
   Chris Fowler, Lindsay O’Neill, and Joy van Helvert

28. The Digital Home: A New Locus of Social Science Research 647
   Anne Holohan, Jeanette Chin, Vic Callaghan, and Peter Mühlau

Index 667
