## Contents

Acknowledgments xvii  

Part I  Background 1  

1  Introduction 3  
   A Language for Talking About Gameplay 3  
   Words of Warning 4  
   A Quick Tour 4  
   A Language for All 5  

2  An Activity-Based Framework for Describing Games 7  
   Parts of the Framework 8  
      Holistic Components 9  
      Boundary Components 14  
      Temporal Components 19  
      Structural Components 23  
   Using the Framework 27  
      Example Analysis: Pac-Man 27  
   Summary 31  
   Conclusion 31  
   References 31  

3  Game Design Patterns 33  
   Characteristics of Game Design Patterns 34  
      Semiformal Descriptions 35  
      Interrelated Descriptions 35  
   Hierarchies of Patterns 37  
   Intentional or Emergent Presence 37
4 Using Design Patterns

Analysis: Identifying Game Design Patterns
  Structural Analysis
  Play Testing

Design: Applying Game Design Patterns
  Idea Generation
  Development of Game Concepts
  Problem Solving
  Communication

Conclusion

Part II The Pattern Collection

Development of Our Pattern Collection
  Theoretical Foundation
  Transforming Game Mechanics into Game Design Patterns
  Harvesting Patterns by Analyzing Games
  Interviews
  Creating the Pattern Collection

Comments on the Pattern Collection
5 Game Design Patterns for Game Elements

Game Worlds
- Game World
- Reconfigurable Game World
- Levels
- Inaccessible Areas
- Consistent Reality Logic
- Alternative Reality
- Moveable Tiles

Objects
- Enemies
- Boss Monsters
- Deadly Traps
- Obstacles
- Avatars
- Units
- Tools
- Controllers
- Alarms
- Pick-Ups
- Power-Ups
- Clues
- Extra-Game Information
- Additional Patterns

Abstract Objects
- Score
- High Score Lists
- Lives
- Additional Patterns
Contents

Locations 100
  Strategic Locations 100
  Outstanding Features 102
Chargers 104
Additional Patterns 105

6 Game Design Patterns for Resource and Resource Management 107
  Types of Resources 107
    Resources 107
    Additional Patterns 110
  Resource Control 111
    Producer-Consumer 111
    Ownership 112
    Resource Management 115
    Additional Patterns 117
  Progress 118
    Investments 118
    Diminishing Returns 121
    Additional Patterns 122

7 Game Design Patterns for Information, Communication, and Presentation 123
  Information Quality 123
    Imperfect Information 124
    Perfect Information 128
    Uncertainty of Information 130
    Additional Patterns 133
  Information Distribution 133
    Symmetric Information 133
    Asymmetric Information 135
    Public Information 137
8 Actions and Events Patterns

Actions

- Combat
- Movement
- Maneuvering
- Aim & Shoot
- Construction

Action Control

- Privileged Abilities
- Asymmetric Abilities
- Limited Set of Actions
- Downtime
- Experimenting
- Transfer of Control
- Interruptible Actions
- Focus Loci
- New Abilities
- Improved Abilities
- Ability Losses
- Decreased Abilities
- Extended Actions
9 Game Design Patterns for Narrative Structures, Predictability, and Immersion Patterns

Evaluation

Delayed Effects
Hovering Closures
Illusion of Influence
Perceived Chance to Succeed

Additional Patterns

Immersion

Immersion
Anticipation
Additional Patterns

Creative Control

Freedom of Choice
Creative Control
Storytelling
Additional Patterns

Narrative Structures

Narrative Structures
Tension
Characters 222
Character Development 224
Planned Character Development 226
Identification 228
Higher-Level Closures as Gameplay Progresses 229
Surprises 231
Cut Scenes 233
Easter Eggs 234
Additional Pattern 236

10 Game Design Patterns for Social Interaction 237

- Competition 237
- Conflict 239
- Player Killing 241
- Betrayal 243
- Additional Patterns 245

- Collaboration 245
- Cooperation 245
- Additional Patterns 247

- Group Activities 247
- Team Play 247
- Alliances 250
- Roleplaying 252
- Constructive Play 255
- Player Decided Results 256
- Additional Patterns 258

- Stimulated Social Interaction 259
- Social Interaction 259
- Trading 262
- Bidding 267
11 Game Design Patterns for Goals

Goals of Ownership and Overcoming Opposition

Gain Ownership 278
Overcome 280
Stealth 283
Eliminate 284
Rescue 286
Capture 287
Evade 289
Conceal 290
Race 292

Goals of Arrangement

Collection 295
Additional Patterns 296

Goals of Persistence

Guard 297
Survive 298
Traverse 300
Additional Patterns 302

Goals of Information and Knowledge

Gain Information 302
Gain Competence 304
Exploration 306
Additional Pattern 308
## 12 Game Design Patterns for Goal Structures

- Goal Characteristics 310
- Predefined Goals 310
- Dynamic Goal Characteristics 312
- Optional Goals 314
- Interferable Goals 315
- Player Defined Goals 317
- Additional Patterns 319

### Relations Between Goals
- Preventing Goals 320
- Hierarchy of Goals 321
- Tournaments 324
- Incompatible Goals 327
- Selectable Sets of Goals 328
- Supporting Goals 330
- Additional Patterns 333

### Relations Between Goals and Players
- Symmetric Goals 333
- Asymmetric Goals 334
- Committed Goals 336
- Additional Pattern 338

## 13 Game Design Patterns for Game Sessions

- Game and Play Sessions 339
- Real-Time Games 339
- Asynchronous Games 341
- Synchronous Games 343
- Single-Player Games 344
- Multiplayer Games 345
- Turn-Based Games 347
- Closure Points 349
- Additional Patterns 350
Player Activity
Player Elimination
Analysis Paralysis
The Show Must Go On
Agents
Additional Patterns

14 Game Design Patterns for Game Mastery and Balancing

Game Mastery
Game Mastery
Empowerment
Timing
Rhythm-Based Actions
Dexterity-Based Actions
Memorizing
Puzzle Solving
Luck
Additional Patterns

Planning
Tradeoffs
Randomness
Risk/Reward
Predictable Consequences
Limited Planning Ability
Strategic Knowledge
Stimulated Planning
Additional Patterns

Balancing
Balancing Effects
Symmetry
Team Balance
