CONTENTS

Foreword viii
John R. Nesselroade

List of Contributors x

Introduction and Section Overview 1
Emilio Ferrer, Steven M. Boker, & Kevin J. Grimm

SECTION I
Extensions of Latent Change Score Models 7

1 Methodological Issues and Extensions to the Latent Difference Score Framework 9
Linying Ji & Sy-Miin Chow

2 Discrete- and Semi-Continuous Time Latent Change Score Models of Fluid Reasoning Development from Childhood to Adolescence 38
Emilio Ferrer

3 Individually Varying Time Metrics in Latent Change Score Models 61
Kevin J. Grimm & Ross Jacobucci
Contents

4 Latent Change Score Models with Curvilinear Constant Bases  80
  Fumiaki Hamagami & John J. McArdle

5 Regularized Estimation of Multivariate Latent Change Score Models  109
  Ross Jacobucci & Kevin J. Grimm

6 The Reticular Action Model: A Remarkably Lasting Achievement  126
  Steven M. Boker

SECTION II
Measurement and Testing Issues in Longitudinal Modeling  143

7 Small Sample Corrections to Model Fit Criteria for Latent Change Score Models  145
  Sarfaraz Serang

8 On Interindividual Differences in Intraindividual Changes  166
  Lijuan Wang & Miao Yang

9 Sample Size and Measurement Occasion Planning for Latent Change Score Models through Monte Carlo Simulation  189
  Zhiyong Zhang & Haiyan Liu

10 Investigating the Performance of cart- and Random Forest-Based Procedures for Dealing with Longitudinal Dropout in Small Sample Designs under mnar Missing Data  212
  Timothy Hayes

11 From Factors of Curves to Factors of Change  240
  Ryne Estabrook

SECTION III
Novel Applications of Multivariate Longitudinal Methodology  261

12 The Role of Interval Measurement in Developmental Studies  263
  Ryan P. Bowles
Contents vii

13 Growth Modeling using the Differential Form: Translations from Study of Fish Growth 277
   Nilam Ram & Xiao Yang

14 Modeling Change with Data Collected from Relatives 301
   Michael C. Neale

15 Making the Cut: How a Quantitative Psychologist Changed College Sports 315
   Todd A. Petr & Thomas S. Paskus

16 A Successful Consultation “Team” Model Applying Contemporary Advanced Statistics to Minority Research Centers 323
   Earl S. Hishinuma, Deborah A. Goebert, Naleen N. Andrade,
   Jane M. M. Onoye, Jeanelle J. Sugimoto-Matsuda, Junji Takeshita,
   & Stephanie T. Nishimura
