Children with Specific Language Impairment

Laurence B. Leonard
Contents

Preface vii

PART I
Foundations 1

Chapter 1
Introduction 3

Chapter 2
Characterizing the Language Deficit: Basic Concepts 27

PART II
Describing the Data: Linguistic and Nonlinguistic Findings 41

Chapter 3
The Language Characteristics of SLI: A Detailed Look at English 43

Chapter 4
SLI Across Languages 89

Chapter 5
Evidence from Nonlinguistic Cognitive Tasks 119

Chapter 6
Auditory Processing and Speech Perception 133

PART III
Nature and Nurture 147

Chapter 7
The Genetics and Neurobiology of SLI 149

Chapter 8
The Linguistic and Communicative Environment 163

PART IV
Clinical Issues 177

Chapter 9
Problems of Differential Diagnosis 179
Chapter 10
The Nature and Efficacy of Treatment 193

PART V
Theoretical Issues 211

Chapter 11
SLI as a Deficit in Linguistic Knowledge 213

Chapter 12
SLI as a Limitation in General Processing Capacity 237

Chapter 13
SLI as a Processing Deficit in Specific Mechanisms 269

PART VI
Conclusions 279

Chapter 14
Why Study SLI Revisited 281
