Contents

Preface ix

I  HISTORY AND METHODS 1

1  Functional Neuroimaging: A Historical and Physiological Perspective 3
   Marcus E. Raichle

2  Functional Neuroimaging: Basic Principles of Functional MRI 21
   Allen W. Song, Scott A. Huettel, and Gregory McCarthy

3  Functional Neuroimaging: Experimental Design and Analysis 53
   Jody C. Culham

II  COGNITIVE DOMAINS 83

4  Functional Neuroimaging of Attention 85
   Barry Giesbrecht, Alan Kingstone, Todd C. Handy, Joseph B.
   Hopfinger, and George R. Mangun

5  Functional Neuroimaging of Skill Learning 113
   Russell A. Poldrack and Daniel T. Willingham

6  Functional Neuroimaging of Semantic Memory 149
   Sharon L. Thompson-Schill, Irene P. Kan, and Robyn T. Oliver

7  Functional Neuroimaging of Language 191
   Richard J. S. Wise and Cathy J. Price

8  Functional Neuroimaging of Episodic Memory 229
   Ian G. Dobbins and Lila Davachi

9  Functional Neuroimaging of Working Memory 269
   Clayton E. Curtis and Mark D’Esposito
10 Functional Neuroimaging of Executive Functions 307
   Todd S. Braver and Hannes Ruge

III DEVELOPMENTAL, SOCIAL, AND CLINICAL APPLICATIONS 349

11 Functional Neuroimaging of Early Cognitive Development 351
   Gaia Scerif, Eleni Kotsoni, and B. J. Casey

12 Functional Neuroimaging of Cognitive Aging 379
   Sander M. Daselaar, Jeffrey Browndyke, and Roberto Cabeza

13 Functional Neuroimaging of Emotion and Social Cognition 421
   Elizabeth A. Phelps and Kevin S. LaBar

14 Functional Neuroimaging of Neuropsychologically Impaired Patients 455
   Cathy J. Price, Uta Noppeney, and Karl J. Friston
