CONTENTS

PREFACE TO THE THIRD EDITION ...................................... XV

PREFACE ........................................................................ XXI

Why the Internet? .............................................................. xxi
Is this Book for You? .......................................................... xxii
How to Read this Book ......................................................... xxiii
  Formatting and Typesetting Conventions .............................. xxiii
  Internet Addressing Conventions ....................................... xxiii
  References and Resources .................................................. xxiv
Acknowledgments ................................................................ xxiv

PART I: INTERNET ACCESS, TOOLS, AND NAVIGATION

1. INTRODUCTION ............................................................. 3

  What Is the Internet? ......................................................... 3
  What Can I Do on It? ......................................................... 3
  What's in the Internet Toolbox? .......................................... 4

2. GETTING ONLINE .......................................................... 7

  The Business of Internet ................................................... 7
    Who Provides Internet Access? ......................................... 7
    Are You Already Online? .................................................. 8
  Hardware and Software .................................................... 8
    Basic Hardware ............................................................. 9
    Basic Software ............................................................. 9
    The Internet and Unix ..................................................... 9
    The Internet and Personal Computers .............................. 9
  Basic Connection Options ................................................. 10
    Direct Connection ........................................................ 10
    Remote Dialup Connection .............................................. 11
    SLIP/PPP Connection .................................................... 12

### 3. YOUR FIRST LOGON | 19

- Username and Password | 19
- Your First “Session” | 20
- Exploring the Host Computer | 21
  - Where Am I? | 21
  - Navigating Directories | 22
  - Looking Inside Directories | 22
  - Reading Files | 24
  - The finger Command | 25
  - Logging Out | 25
- More Unix Commands | 26
  - Accessing Online Help | 26
  - Copying Files | 26
  - Moving or Renaming Files | 27
  - Transferring Files via Modem | 27
  - Deleting Files | 30
  - Stopping a Process | 30
- Just the FAQs | 30

### 4. ELECTRONIC MAIL | 33

- What is E-mail? | 33
- E-mail Software | 33
- Addressing and Sending E-mail | 34
  - Your E-mail Address | 35
  - Choosing a Username (and E-Mail Address) | 36
  - More about Domains | 37
  - Sending Messages to Commercial Online Services | 37
- Common E-mail Elements | 39
  - Message Header | 40
  - Message Body | 42
  - Signatures | 42
  - Managing E-mail | 43
  - Return Message Headers | 45
  - “Bounced” or Undeliverable Mail | 46
- Composing E-mail Messages | 47
  - Structural Rules | 47
  - Netiquette | 48
  - Propriety | 48
  - Common Conventions | 48
- Finding Someone’s E-mail Address | 50
- Macintosh E-mail Software | 51
### 8. TELNET

- What Can I Do with Telnet? 89
- Remote Login via Telnet 90
- Telnet Command Mode 91
- A Typical Telnet Session 92
- Telnet to a Specific Port 95
- Terminal Emulation 95
- What Is "tn3270"? 96
- Troubleshooting 96
- Macintosh Telnet Software 97
- Windows Telnet Software 97
- Just the FAQs 98

### 9. FTP

- File Transfer Protocol 99
  - Anonymous FTP 99
  - What Is a “Mirror Site”? 100
  - What Is an “FTP Address”? 100
  - Where Do I Find FTP Sites? 100
- Connecting to an FTP Site 101
  - Essential FTP Commands 101
  - Logging In 102
  - Displaying and Navigating Directories 103
  - Downloading Files 107
  - Where Is the File I Transferred? 108
  - Ending Your FTP Session 109
  - Uploading Files 109
  - Transferring Multiple Files 110
  - Non-Anonymous FTP 110
- Macintosh FTP Software 111
- Windows FTP Software 113
- Just the FAQs 115

### 10. USENET NEWS

- What is Usenet? 117
- What Usenet Is Not 118
- Newsgroup Naming Conventions 119
- Basic Software—The rn Newsreader 120
  - Starting Up rn 120
- Reading Articles 122
- Posting Your Own Articles 124
- Command Summary for rn 125
  - Software 125
  - Command-Line Options 125
  - Navigation Options 125
  - Message-reading Options 125
- Macintosh Usenet Software 126
- Windows Usenet Software 130
- Just the FAQs 132
### 13. WORLD WIDE WEB

- **What is Hypertext?**
- **Under the Hood**
  - Clients and Servers on the Web
  - Uniform Resource Locators (URLs)
- **Web Browsers**
- **Surfing the Web**
  - Line Browsers
  - Graphical Browsers
  - Browser Wars
  - Exploring the Web with Netscape
  - Colors, Backgrounds, and Imagmaps
  - Saving Text and Printing
- **Customizing Your Web Browser**
  - Viewing Text and Graphics
  - Bookmarks and Hotlists
- **Enhanced Web Features**
  - Tables and Frames
  - Online Forms
- **Multimedia on the Web**
  - Searching the Web
  - Needle in the Haystack × 10⁹
  - How to Use Search Engines Effectively
  - Primary Internet Search Sites
  - Where to Find Netscape Software
  - Just the FAQs

### PART II: SCIENCE RESOURCES ON THE INTERNET

#### INTRODUCTION
- Resource Listings Index
- Using the Science Resources Guide

#### SCIENCE RESOURCES
- Aeronautics & Aerospace
- Agricultural Sciences
- Artificial Intelligence
- Astronomy & Astrophysics
- Biology & Biotechnology
- Chemistry
- Computer Science
- Electronics & Electrical Engineering
- Energy
- Engineering
- Geology & Geophysics
- Imaging Technologies
