Signaling and Gene Expression in the Immune System
Mobilization of ICAM-1/GFP during T-cell recognition of B cells. The smaller T cell is overlaid with a transparent color scale of the GFP fluorescence. Green indicates low, resting calcium; red high calcium. The larger peptide-loaded CH27 B-cell lymphoma cell is overlaid with a transparent color scale of the ratio of the fluorescence emissions at 340 nm and 380 nm of the calcium-sensitive dye fura-2. This ratio is correlated with the intracellular calcium concentration. Blue indicates low, resting calcium; red high calcium. The three panels show a time course for the interaction of a T cell with a B cell.

Symposium Participants v
Foreword xxi

Lymphocyte Development

Lymphoid Development from Stem Cells and the Common Lymphocyte Progenitors
K. Akashi, M. Kondo, S. Cheshier, J. Shizuru, K. Gandy, J. Domen, R. Mebius, D. Traver, and I.L. Weissman 1

PU.1, a Shared Transcriptional Regulator of Lymphoid and Myeloid Cell Fates
H. Singh, R.P. DeKoter, and J.C. Walsh 13

Differentiation, Dedifferentiation, and Redifferentiation of B-lineage Lymphocytes: Roles of the Surrogate Light Chain and the Pax5 Gene
A. Rolink, S. Nutt, M. Busslinger, E. ten Boekel, T. Seidl, J. Andersson, and F. Melchers 21

Notch and the CD4 Versus CD8 Lineage Decision
P. Valdez and E. Robey 27

Consequences of Notch-mediated Inhibition of the Transcription Factor E47

Role of Helix-Loop-Helix Proteins in Lymphocyte Development
C. Murre 39

Controlling Lymphopoiesis with a Combinatorial E-protein Code
R.J. Barndt and Y. Zhuang 45

The Molecular Basis of B-cell Lineage Commitment
S.L. Nutt, A.G. Rolink, and M. Busslinger 51

Role of B-lymphocyte-induced Maturation Protein-1 in Terminal Differentiation of B Cells and Other Cell Lineages

The Lymphochip: A Specialized cDNA Microarray for the Genomic-scale Analysis of Gene Expression in Normal and Malignant Lymphocytes

Transcription Factors and the Control of Lymphocyte Development

Ikaros Chromatin Remodeling Complexes in the Control of the Differentiation of the Hemo-lymphoid System

Mechanisms of Transcriptional Regulation in Lymphocyte Progenitors: Insight from an Analysis of the Terminal Transferase Promoter

Mechanisms of μ Enhancer Regulation in B Lymphocytes
B.S. Nikolajczyk, W. Dang, and R. Sen 99

Differential Regulation of Immunoglobulin Gene Transcription via Nuclear Matrix-associated Regions

B-cell-specific Coactivator OCA-B: Biochemical Aspects, Role in B-Cell Development and Beyond
Y. Luo and R.G. Roeder 119

Control of Lymphocyte Differentiation by the LEF-1/TCF Family of Transcription Factors
T. Roya, R. Okamura, and R. Grosschedl 133

Activation and Repression of Wingless/Wnt Target Genes by the TCF/LEF-1 Family of Transcription Factors
H.C. Korswagen and H.C. Clevers 141

The INF-B Enhancer: A Paradigm for Understanding Activation and Repression of Inducible Gene Expression
N. Munshi, J. Yie, M. Merika, K. Senger, S. Lemvardus, T. Agalioti, and D. Thanos 149

Recombination and Allelic Exclusion

V(D)J Recombination: Links to Transposition and Double-strand Break Repair
M. Gellert, J.E. Hesse, K. Hiom, M. Melekh, M. Modesti, T.T. Paull, D.A. Ramsden, and D.C. van Gent 161

xxiii

Regulation of Chromatin Accessibility for V(D)J Recombination C. Hernandez-Munain, M. Taylor McMurry, and M.S. Krangel 183

What Prevents Intermolecular V(D)J Recombination? L.E. Huye, J.-O. Han, and D.B. Roth 191

T-cell Activation and Receptor Signaling

Structural, Biochemical, and Biophysical Studies of HLA-A2/Altered Peptide Ligands Binding to Viral-peptide-specific Human T-cell Receptors B.M. Baker, Y.-H. Ding, D.N. Garboczi, W.E. Biddison, and D.C. Wiley 235

Three Signals and a Master Switch in the Regulation of T-cell Immunity A. Lanzavecchia 253

The Adapter Proteins LAT and SLP-76 Are Required for T-cell Activation T.S. Finco, D. Tabianski, J. Lin, and A. Weiss 265

The Impact of Pre-T-cell Receptor Signals on Gene Expression in Developing T Cells H. von Boehmer, I. Alfantis, O. Atogwe, C. Saint-Ruf, and F. Grassi 283

CTLA-4 — The Costimulatory Molecule That Doesn’t: Regulation of T-cell Responses by Inhibition C.A. Chambers and J.P. Allison 303

B-cell Activation and Receptor Signaling

The Maintenance and the Activation Signal of the B-cell Antigen Receptor M. Reth and J. Wienands 323

Inhibitory Receptors and Their Modes of Action D.C. Fong and J.C.Cambier 329

Cell Death and Survival in the Immune System

Genetic Analysis of Apoptotic and Survival Signals T.W. Mak and W.-C. Yeh 335

CONTENTS

RIPs: An Emerging Family of Kinases Involved in Pro-inflammatory and Apoptotic Signaling V.M. Dixit 359

Role of the Nuclear Hormone Receptor RORγ in Transcriptional Regulation, Thymocyte Survival, and Lymphoid Organogenesis D.R. Littman, Z. Sun, D. Unutmaz, M.J. Sunshine, H.T. Petrie, and Y.-R. Zou 373

Cytokine Signaling and Responses

IL-4 Signaling Is Regulated through the Recruitment of Phosphatases, Kinases, and SOCS Proteins to the Receptor Complex J. Losman, X.P. Chen, H. Jiang, P.-Y. Pan, M. Kashivada, C. Giallourakis, S. Cowan, K. Foltyní, and P. Rothman 405

Signaling via the IL-2 and IL-7 Receptors from the Membrane to the Nucleus W.J. Leonard, K. Imada, H. Nakajima, A. Puel, E. Soldaini, and S. John 417

Attenuation of Tumor Necrosis Factor α Gene Transcription in Macrophages by an Autocrine Factor M. Baer, S. Nedospasov, and P.F. Johnson 437

Mechanism of Chromatin Recognition and Transcriptional Regulation by LEF-1 and the Wnt/Wg-responsive LEF-1;β-Catenin Complex A. Tutter, G.S. McAlpine, and K.A. Jones 445

NF-κB/NF-AT/TRAF

Role of NF-κB in T-lymphocyte Development R.E. Voll and S. Ghosh 485

The IκB Kinase: A Master Regulator of NF-κB, Innate Immunity, and Epidermal Differentiation M. Delhase and M. Karin 491

Signaling through Calcium, Calcineurin, and NF-AT in Lymphocyte Activation and Development K. Stankunas, I.A. Graef, J.R. Neilson, S.-H. Park, and G.R. Crabtree 505

Signal Integration by Transcription-factor Assemblies: Interactions of NFAT1 and AP-1 on the IL-2 Promoter L. Chen, A. Rao, and S.C. Harrison 527

Structure and Mechanism in NF-κB/IκB Signaling T. Husford, S. Malek, and G. Ghosh 533

Structural Studies of Human TRAF2 H. Wu, Y.C. Park, H. Ye, and L. Tong 541
