Basic Atomic and Molecular Spectroscopy

J. MICHAEL HOLLAS

University of Reading
Contents

1 What is Spectroscopy? 1
   1.1 What is a Spectrum? 1
   1.2 What is a Spectroscope, Spectrograph, Spectrometer or Spectrophotometer? 2
   1.3 What are Absorption and Emission Spectra? 5

2 The Electromagnetic Spectrum 8
   2.1 What Lies Beyond the Red Region? 8
   2.2 What Lies Beyond the Violet Region? 9
   2.3 Why Electromagnetic? 9
   2.4 Units of Wavelength, Frequency, Wavenumber and Energy 10
   2.5 The Effect of Radiation on Atoms and Molecules 14
   2.6 Subdivisions of Spectroscopy 15

3 Quantization and the Hydrogen Atom 17
   3.1 What is Quantization? 17
   3.2 Quantization of Energy in the Hydrogen Atom 18
   3.3 Results of Applying Quantum Mechanics to the Hydrogen Atom 26

4 Quantization in Polyelectronic Atoms 31
   4.1 Effects of More Than One Electron in an Atom 31
   4.2 The Helium Atom 35
   4.3 Other Polyelectronic Atoms 38
   4.4 Selection Rules in Spectra of Polyelectronic Atoms 48
5  **Electronic States of Diatomic and Polyatomic Molecules**  
   5.1 Homonuclear Diatomic Molecules  
   5.2 Heteronuclear Diatomic Molecules  
   5.3 Polyatomic Molecules  

6  **Molecular Vibrations**  
   6.1 Introduction  
   6.2 Vibration in a Diatomic Molecule  
   6.3 Vibration in Polyatomic Molecules  
   6.4 Vibration in Excited Electronic States  

7  **Molecular Rotation**  
   7.1 Introduction  
   7.2 Diatomic and Linear Polyatomic Molecules  
   7.3 Non-linear Polyatomic Molecules  

8  **How Spectra are Obtained**  
   8.1 Microwave, Infrared, Visible and Ultraviolet Spectroscopy  
   8.2 Raman Spectroscopy  
   8.3 Spectral Line Widths  
   8.4 Spectroscopy in Various Phases  

9  **Rotational Spectroscopy**  
   9.1 Introduction  
   9.2 Rotational Spectroscopy of Diatomic and Linear Polyatomic Molecules  
   9.3 Microwave, Millimetre Wave and Far-infrared Spectroscopy of Non-linear Polyatomic Molecules  
   9.4 Molecular Structure Determination  

10 **Vibrational Spectroscopy**  
   10.1 Introduction  
   10.2 Infrared Spectra of Diatomic Molecules  
   10.3 Raman Spectra of Diatomic Molecules  
   10.4 Infrared and Raman Spectra of Linear Polyatomic Molecules
11 Electronic Spectroscopy

11.1 Introduction

11.2 Electronic Spectra of Diatomic Molecules

11.3 Electronic Spectra of Polyatomic Molecules
