New York, Boston, Dordrecht, London, Moscow
CONTENTS

SECTION I
INTRODUCTION AND SPECIAL SESSIONS

Introduction .................................................................................................................. 3
Ehrlich-Koldovsky Young Investigator Award ......................................................... 7
Macy-György Award ................................................................................................. 9

Macy-György Award Lecture
Human Milk Proteins: Key Components for the Biological Activity
of Human Milk ........................................................................................................... 11
Bo Lönnerdal

Keynote Address
Polyunsaturated Fatty Acids in Human Milk: An Essential Role in Infant
Development ............................................................................................................. 27
Sheila M. Innis

Workshop Address
Epidemiology of Breastfeeding: Advances and Multidisciplinary Applications .......... 45
Rafael Pérez-Escamilla and M. Lourdes Guerrero

SECTION II
SCIENCE AND POLICY: OPTIMAL DURATION OF EXCLUSIVE BREASTFEEDING

The Optimal Duration of Exclusive Breastfeeding: A Systematic Review ............... 63
Michael S. Kramer and Ritsuko Kakuma

Expert Consultation on the Optimal Duration of Exclusive Breastfeeding:
The Process, Recommendations, and Challenges for the Future ......................... 79
Jean-Pierre Habicht
SECTION III
BREASTFEEDING FROM THE MOTHER’S PERSPECTIVE

Impact of Breastfeeding on Maternal Nutritional Status ........................................... 91
Kathryn G. Dewey

Lactation and Maternal Bone Health ........................................................................ 101
Heidi J. Kalkwarf

The Impact of Energy Restriction and Exercise in Lactating Women ...................... 115
Cheryl A. Lovelady

Protecting, Promoting, and Supporting Breastfeeding among Women in the
Labor Force .............................................................................................................. 121
Marina Ferreira Rea and Ardythe L. Morrow

SECTION IV
INNATE AND ACQUIRED IMMUNE SYSTEMS OF HUMAN MILK

Histo-blood Group Antigen and Human Milk Oligosaccharides:
Genetic Polymorphism and Risk of Infectious Diseases ............................................. 135
Jacques Le Pendu

Human Milk Protective Mechanisms ....................................................................... 145
Thomas G. Cleary

The Dynamic Effects of Breastfeeding on Intestinal Development and Host
Defense ..................................................................................................................... 155
W. Allan Walker

Understanding the Origin of Asthma and Its Relationship to Breastfeeding ............ 171
Marsha Wills-Karp, Dominique Brandt, and Ardythe L. Morrow

SECTION V
RISK OF VIRAL TRANSMISSION BY BREASTFEEDING

Human Immunodeficiency Virus Transmission during Breastfeeding:
Knowledge, Gaps, and Challenges for the Future ..................................................... 195
Ellen G. Piwoz, Jay Ross, and Jean Humphrey

Mother-to-Infant Hepatitis C Virus Transmission and Breastfeeding ................. 211
Eric E. Mast
SECTION VI
CELLULAR AND MOLECULAR BIOLOGY OF MAMMARY GLAND DEVELOPMENT AND LACTATION

Morphogenesis of Mammary Gland Development .......................................................... 219
Russell C. Hovey and Josephine F. Trott

Genetic Manipulation of Mammary Gland Development and Lactation .................... 229
Darryl L. Hadsell

Glucose Transport in Lactation ..................................................................................... 253
Peter M. Haney

Regulation of Milk Lipid Formation and Secretion in the Mouse Mammary Gland ...... 263
James L. McManaman, Carol A. Palmer, Steven Anderson, Kaylee Schwertfeger, and Margaret C. Neville

SECTION VII
EXTENDED ABSTRACTS

FACTORS ASSOCIATED WITH BREASTFEEDING INITIATION AND DURATION

Social Capital and Breastfeeding Initiation among Puerto Rican Women ...................... 283
Alex K. Anderson, David A. Himmelgreen, Yu-Kuei Peng, Sofia Segura-Pérez, and Rafael Pérez-Escamilla

Ruowei Li, Fred Fridinger, and Laurence Grummer-Strawn

A Comparison of Patterns of Breastfeeding and Complementary Feeding in Peru and Ghana .................................................................................................................. 293
G.S. Marquis, M.E. Penny, E.K. Colecraft, and M.F. Lozada

Early Determinants of Non-exclusive Breastfeeding among Guatemalan Infants .......... 299
Daniel W. Sellen, Amanda L. Thompson, Daniel J. Hruschka, Aryeh D. Stein, and Reynaldo Martorell

Association of Degree and Timing of Exposure to Breastfeeding Peer Counseling Services with Breastfeeding Duration ................................................................. 303
Donna Chapman, Grace Damio, Sara Young, and Rafael Pérez-Escamilla

Effect of Education and Lactation Support on Maternal Decision to Provide Human Milk for Very-Low-Birth-Weight Infants ..................................................... 307
Paula M. Sisk, Cheryl A. Lovelady, and Robert G. Dillard
Interaction of Stress and Lactation Differs between Mothers of Premature
Singletons and Multiples ................................................................. 313
C. Lau, N. Hurst, P. Burns, and R.J. Schanler

Making My Baby Healthy: Changing the Decision from Formula to Human
Milk Feedings for Very-Low-Birth-Weight Infants .............................. 317
Donna J. Miracle, Paula P. Meier, and Patricia A. Bennett

Comfort and Effectiveness of the Symphony Breast Pump for Mothers of
Preterm Infants: Comparison of Three Suction Patterns ...................... 321
P. Meier, N. Hurst, N. Rodriguez, B. Ackerman, K. Howard, M. Allen,
and J. Engstrom

Identification of Factors Affecting Breast Pump Efficacy .................... 325
L.R. Mitoulas, D.T. Ramsay, J.C. Kent, M. Larsson, and P.E. Hartmann

Protection of Breastfeeding, Marketing of Human Milk Substitutes and Ethics ...... 329
M.F. Rea, F.F. Marcolino, A.J. Colameo, and L.A. Trevellin

NUTRITION IN LACTATING WOMEN

Micronutrient Status of Brazilian Lactating Adolescents .................. 333
V.B. Azeredo, F.F. Bezerra, R. Figueiredo, C.M. Donangelo,
and N.M.F. Trugo

Nutritional Status of Exclusively Breastfeeding Adolescents from Northwest
and Central Mexico ........................................................................ 337
G. Caire, E. Casanueva, L.M. De Regil, A. Bolaños,
and A.M. Calderón de la Barca

Bone Mineral Density and Bone Turnover in Adolescent Mothers after Lactation ...... 341
E. Casanueva, M.E. Flores-Quijano, E. Frike, R. Samano,
and S. De Santiago

Breastfeeding and Food Taboos in Nursing Mothers from Mexico .................. 345
Maria Irene Santos-Torres and Edgar M. Vásquez-Garibay

Impact of Calcium Supplementation in the Preceding Pregnancy on the
Human Milk Calcium Concentration of Gambian Women ..................... 347
L.M.A. Jarjou, A. Prentice, and J. Bennett

Influence of Recent Dietary Intake on Plasma and Human Milk Levels of
Carotenoids and Retinol in Brazilian Nursing Women .......................... 351
Flavia Meneses, Alexandre G. Torres, and Nadia M.F. Trugo

Factors Influencing Concentrations of Iron, Zinc, and Copper in Human Milk ........ 355
Magnus Domellöf, Olle Hernell, Kathryn G. Dewey, Roberta J. Cohen,
and Bo Lönnerdal
BREASTFEEDING IN RELATION TO CHILD DEVELOPMENT, NUTRITION, AND CHRONIC DISEASE OUTCOMES

Positive Effect of Human Milk on Neurobehavioral and Cognitive Development of Premature Infants ................................................................. 359
Arthur I. Eidelman and Ruth Feldman

Breastfeeding and Cognitive Development in Children ........................................... 365

Breastfeeding Protects against the Anorectic Response to Infection in Infants:
Possible Role of DHA .................................................................................. 371

Effect of Human Hind Milk on Preterm Infant Growth ........................................... 375
Mariela Bernabe-García, Ignacia Cisneros-Silva, Eduardo Rangel-Baltazar,
Maria Luisa Cuevas-Urióstegui, and Samuel Flores-Huerta

Impact of Unfortified Human Milk Feeding on Weight Gain and Mineral
Status of Very-Low-Birth-Weight Infants after Discharge from a Kangaroo
Mother Care Unit ....................................................................................... 379
G. Kirsten, J. van Zyl, C. Kirsten, and E. Thompson

Is Duration of Breastfeeding Influencing the Risk of Obesity in Adult Males? ........ 383
L. Schack-Nielsen, K.F. Michaelsen, E.L. Mortensen, T.I.A. Sørensen, and J.M. Reinisch

Breastfeeding, Body Mass Index, and Asthma and Atopy in Children .................... 387

Arterial Compliance in 10-year-old Children in Relation to Breastfeeding ................ 391
L. Schack-Nielsen, C. Mølgaard, D. Larsen, C. Martyn, and K.F. Michaelsen

Duration of Exclusive Breastfeeding and Risk of Anemia in a Cohort of Mexican
Infants .................................................................................................. 395
Jareen K. Meinzen-Derr, M. Lourdes Guerrero, Mekibib Altaye,
Guillermo M. Ruiz-Palacios, and Ardythe L. Morrow

Longitudinal Studies of Molybdenum Balances in Breastfed Infants ......................... 399
E. Sievers, U. Schleyerbach, and J. Schaub

BIOACTIVE FACTORS IN HUMAN MILK

Zinc Concentration in Human Milk: Longitudinal Studies in Consecutive Lactation
Periods .................................................................................................. 403
E. Sievers and J. Schaub
Concentrations of Epidermal Growth Factor and Transforming Growth Factor-
Alpha in Preterm Milk ................................................................. 407
Bohuslav Dvorak, Camellia C. Fituch, Catherine S. Williams, Nancy M. Hurst,
and Richard J. Schanler

Higher Molecular Mass Forms of TGFα in Human Milk .................................. 411
Carol L. Wagner and John E. Baatz

TGFα within Compartments of Human Milk ................................................ 417
Carol L. Wagner and John E. Baatz

Variations in Concentrations of Lactoferrin in Human Milk: A Nine Country Survey .. 423
E. Lien, J. Jackson, C. Kuhlman, K. Pramuk, B. Lönnerdal,
and D. Janszen

Fucosylated Oligosaccharides in Human Milk in Relation to Gestational Age and
Stage of Lactation ........................................................................ 427
Barbara Davidson, Jareen K. Meinzen-Derr, Carol L. Wagner,
David S. Newburg, and Ardythe L. Morrow

Variation in Prolactin Consumption by Fully Breastfed Infants .......................... 431
M.D. Cregan, L.R. Mitoulas, and P.E. Hartmann

Transfer of Metformin into Human Milk ..................................................... 435
T. Hale, J. Kristensen, L. Hackett, R. Kohan, and K. Ilett

Pseudoephedrine Effects on Milk Production in Women and Estimation of Infant
Exposure via Human Milk .................................................................... 437
T. Hale, K. Illett, P. Hartmann, K. Aljazaf, L. Mitoulas, J. Kristensen,
and L. Hackett

ANTI-INFECTIVE PROPERTIES OF HUMAN MILK

and Viral Transmission via Human Milk

The Anti-infective Activity of Human Milk is Potentially Greater than the Sum
of Its Microbicidal Components ............................................................... 439
C.E. Isaacs and J.H. Jia

Human Milk Oligosaccharide Blood Group Epitopes and Innate Immune Protection
against Campylobacter and Calicivirus Diarrhea in Breastfed Infants .............. 443
A.L. Morrow, G.M. Ruiz-Palacios, M. Altaye, X. Jiang, M.L. Guerrero,

Human Milk Contains Elements that Block Binding of Noroviruses to Histo-blood
Group Antigens in Saliva ..................................................................... 447
Xi Jiang, Pengwei Huang, Weiming Zhong, Ardythe L. Morrow,
Guillermo M. Ruiz-Palacios, and Larry K. Pickering
Weighing Diapers for Intake Assessment after Early Discharge .......................... 505
E. Sievers, S. Haase, and J. Schaub

Donor Milk for Preterm and Sick Children: Human Milk Banking in Germany .......... 509
S. Springer

Plasma Non-esterified Fatty Acid Composition is Different in Lactating and in
Nonpregnant Nonlactating Women ........................................................................ 511
Alexandre G. Torres, Jacqueline G. Ney, Mirna Ribeiro,
and Nádia M.F. Trugo

Glossary .................................................................................................................. 515

Author Index .......................................................................................................... 519

Subject Index ......................................................................................................... 521
