EARLY NUTRITION AND ITS LATER CONSEQUENCES: NEW OPPORTUNITIES

Perinatal Programming of Adult Health – EC Supported Research

Edited by

Berthold Koletzko
Dept. of Pediatrics, Dr. von Hauner Children’s Hospital, Univ. of Munich, Germany

Peter Dodds
Dept. of Agricultural Science, Imperial College London, Wye Campus, UK

Hans Akerblom
Dept. of Pediatrics, Children’s Hospital, Univ. of Helsinki, Finland

and

Margaret Ashwell
Ashwell Associates, Visiting Research Fellow, Oxford Brookes University, UK

TABLE OF CONTENTS

PREFACE
Berthold Koletzko, Manuel Serrano Rios............................xiii
WHAT IS THE EU INFANT NUTRITION CLUSTER?..........................xv
EARLY NUTRITION AND ITS LATER CONSEQUENCES: NEW OPPORTUNITIES
Berthold Koletzko ...........................................................................1
THE DEVELOPMENTAL ORIGINS OF ADULT HEALTH AND WELL-BEING
Alan Lucas ..................................................................................13
LONG TERM EFFECTS OF BREASTFEEDING ON THE INFANT AND MOTHER
Lene Schack-Nielsen, Anni Larnkjær, Kim Fleischer Michaelsen.................................16
EXPERIMENTAL EVIDENCE FOR LONG-TERM PROGRAMMING EFFECTS OF EARLY DIET
M.E. Symonds, H.Budge, T. Stephenson and D.S. Gardner ...........24
CANDIDATE GENES FOR OBESITY – HOW MIGHT THEY INTERACT WITH ENVIRONMENT AND DIET?
I. Sadaf Farooqi........................................................................33
RATE OF GROWTH IN EARLY LIFE: A PREDICTOR OF LATER HEALTH?
Marie Françoise Rolland-Cachera..............................................35
PROTECTIVE EFFECT OF BREAST-FEEDING AGAINST OBESITY IN CHILDHOOD
Stephan Arenz and Rüdiger von Kries........................................40
DISCUSSION FORUM: FROM INNOVATION TO IMPLEMENTATION
Hildegard Przyrembel, Jean Michel Antoine, O. Hernell, D. Turck, E. Underwood and M.C. Secretin,...........................................49
CHALLENGES AND OPPORTUNITIES IN PAN-EUROPEAN COLLABORATION FOR RESEARCHERS FROM CENTRAL AND EASTERN EUROPE
BEST PRACTICE IN COMMUNICATING THE RESULTS OF EUROPEAN RESEARCH TO THE PUBLIC
Margaret Ashwell and Michel Claessens

LONGTERM EFFECTS OF PRE- AND POSTNATAL EXPOSURE TO LOW AND HIGH DIETARY PROTEIN LEVELS
Cornelia C. Metges

PROTEIN INTAKE IN THE FIRST YEAR OF LIFE: A RISK FACTOR FOR LATER OBESITY?
Berthold Koletzko, Daniel Brasseur, Ricardo Closa, Marcello Giovannini and Jerzy Socha

THE ROLE OF LONG-CHAIN POLY-UNSATURATED FATTY ACIDS (LCPUFA) IN GROWTH AND DEVELOPMENT
Mijna Hadders-Algra

EXPERIMENTAL MODELS FOR STUDYING PERINATAL LIPID METABOLISM
E. Herrera, I. López-Soldado, M. Limones, E. Amusquivar and M.P. Ramos

EFFECT OF N-3 POLYUNSATURATED FATTY ACID SUPPLEMENTATION IN PREGNANCY: THE NUHEAL TRIAL
Tamás Decsi, Cristina Campoy and Berthold Koletzko

YOUNG RESEARCHERS’ WORKSHOP
I. Broekaert, E. Larque

CONSUMER NEEDS REGARDING DIETETIC PRODUCTS FOR PREGNANT AND LACTATING WOMEN AND FOR BABY FOODS
Monique Raats, Kaisa Poutanen and Maria Almeida

FOCUS GROUP: BREAKFAST MEETING: SMES AND THEIR CO-OPERATION WITH ACADEMIA
Jean Michel Antoine and Mats Strömqvist

ETHICAL ISSUES IN PERINATAL NUTRITION RESEARCH
Irene Cetin, and Robin Gill

EARLY PROGRAMMING OF DIABETES RISK – AN INTRODUCTION
H.K. Åkerblom
NEW INSIGHTS IN THE POTENTIAL MECHANISM OF ACTION OF NUCLEOTIDES TO MODULATE IMMUNITY
M. Manzano, A. Gil, R. Rueda..................................................172

THRIVING OF MALNOURISHED BREASTFED INFANTS AFTER ADDITIONAL FORMULA MILK FEEDING
N. Fidler Mis, I. Hren, J. Brecelj, A. Širca Čampa, M. Sedmak, C. Kržišnik, B. Koletzko..........................................................174

ROLE OF MAMMARY GLAND LIPOPROTEIN LIPOASE IN THE AVAILABILITY OF POLYUNSATURATED FATTY ACIDS FOR MILK SYNTHESIS
E. Amusquivar, I. López-Soldado, H. Ortega, E. Herrera....176

IS THE CRYING BEHAVIOUR IN INFANTS UP TO THE AGE OF 3 MONTHS INFLUENCED BY THE TYPE OF EARLY NUTRITION?
Sonia Schiess, Doris Oberle, Ilse Broekaert, Anna Reith, Sabine Verwied-Jorky. Berthold Koletzko.................................177

DIETARY GANGLIOSIDES: BENEFICIAL EFFECTS FOR THE NEONATE AND POTENTIAL MECHANISM OF ACTION
E. Vázquez, A. Gil, R. Rueda.....................................................179

LEPTIN IN BREAST-FED AND FORMULA-FED INFANTS
Francesco Savino, Maria Francesca Fissore, Erica Clara Grassino, Giuliana Eva Nanni, Roberto Oggero, Gian Carlo Mussa..................................................181

DIETARY FATTY ACIDS DURING PREGNANCY DETERMINES MATERNAL FATTY ACID PROFILE DURING LATE PREGNANCY AND THEIR AVAILABILITY TO THE FETUS EVEN DURING FASTING CONDITIONS
I. López-Soldado, H. Ortega, E. Amusquivar and E. Herrera................................................................................183

EFFECT OF OIL-SUPPLEMENTED DIETS ON LIVER EXPRESSION OF PPAR ALPHA-RELATED GENES IN PREGNANT RATS
C. Bocos, M. Gonzalez, I. Lopez-Soldado, and E. Herrera......185
EFFECT OF A NEW INFANT FORMULA ENRICHED
WITH PREBIOTICS, PROBIOTICS, NUCLEOTIDES AND LC-
PUFA ON RECOVERY AFTER INFECTION
M. Rivero, A. Roca, R. Chifré, M. Conde, M. Rodriguez, A.
Santamaria, Gemma Colomé..................................................186

DOES HABITUAL PROTEIN INTAKE IN EARLY
CHILDHOOD INFLUENCE AGE AND BODY MASS INDEX
AT ADIPOSITY REBOUND?
Anke L. B. Günther, Anette E. Byuken, Sebastian Hahn,
Mathilde Kersting, Anja Kroke..............................................188

DIETARY COMPLIANCE IN DIABETES PREVENTION
PROJECT IN FINLAND
Sonja Bärlund, Ulla Uusitalo, Päivi Kleemola, Mikael Knip,
Hans K. Åkerblom, Suvi M. Virtanen ....................................189

CHANGES OF PLASMA FATTY ACID PROFILE AND
ANTIOXIDANT VITAMINS DURING NORMAL
PREGNANCY
E. Herrera, H. Ortega, G. Alvino, N. Giovannini,
E. Amusquivar, I. Cetin.........................................................190

OPTIMAL DESIGN FOR THE RECRUITMENT OF
PARTICIPANTS AS A FACTOR FOR THE EFFECTIVE
IMPLEMENTATION OF A CLINICAL TRIAL
B. Aschemeier BHC, C. Bittner, K. Lüpke, O. Kordonouri, T.
Danne.................................................................191

THE EFFECT OF PONDERAL INDEX ON PLASMA
CONCENTRATION OF INSULIN-LIKE GROWTH FACTOR-1
(IGF-1) IN NEONATAL PIGS
J. C. Litten, K. S. Perkins, J. Laws, A. M. Corson and L.
Clarke.................................................................193

EFFECTS OF PRENATAL EXPOSURE TO LOW AND
HIGH DIETARY PROTEIN LEVELS ON MATERNAL AND
FETAL AMINO ACID METABOLISM IN RATS
Maren Daenzer, Jeanette Günther, Klaus J. Petzke, Cornelia C.
Metges, Susanne Klaus.....................................................195
