

Nikolaus Thumm

Intellectual Property Rights

National Systems
and Harmonisation in Europe

With 34 Figures and 5 Tables

Physica-Verlag

A Springer-Verlag Company

Table of Contents

Preface	V
1 Introduction.....	1
2 Intellectual Property Rights, Innovation and Technological Knowledge.....	5
2.1 Justifying Intellectual Property Rights	5
2.2 The Political Understanding.....	9
2.2.1 Innovation.....	9
2.2.2 Intellectual Property Rights	10
2.3 The Innovation Process	11
2.3.1 History	11
2.3.2 The Linear Model	12
2.3.3 Interactive Model of Knowledge and Innovation Systems	14
2.4 Technological Knowledge and Its Determinants.....	15
2.4.1 Knowledge.....	15
2.4.2 Information	17
2.4.3 Technological Knowledge	18
2.5 An Excursion into Epistemology and Its Implications for Intellectual Property	19
2.5.1 Karl Popper's Understanding of the Growth of Scientific Knowledge.....	19
2.5.1.1 Science	20
2.5.1.2 The Problem Solving Procedure	22
2.5.1.3 Popper and Evolutionary Epistemology.....	23
2.5.1.4 Criticism.....	23
2.5.2 The Growth of Scientific Knowledge Following Kuhn's "The Structure of Scientific Revolutions"	24
2.5.2.1 Normal Science.....	25
2.5.2.2 The Change of Paradigms	25
2.5.2.3 Technological Paradigms	26
2.5.2.4 Competition and the Creation of Knowledge.....	26
2.5.3 Summary.....	27
2.6 Conclusion.....	28
3 Microeconomic Theory of Intellectual Property Rights.....	31
3.1 The General Theory	31
3.2 Market Structure and Innovation.....	35
3.3 The Incentive to Innovate.....	36
3.4 IPR (Patents) as an Economic Indicator	39

3.5	Conclusion.....	42
4	Macroeconomic Theory of Intellectual Property Rights.....	44
4.1	Static Welfare Analysis of International Intellectual Property Rights....	45
4.2	Criticism of the Static Welfare Approach	47
4.3	Dynamic Welfare Analysis of International Intellectual Property Rights	47
4.4	Summary of Arguments	54
4.5	Empirical Evidence on International Intellectual Property Rights	56
4.6	Foreign Direct Investment and Intellectual Property Rights	56
4.7	Trade and Intellectual Property Rights.....	57
4.8	Conclusion.....	58
5	Harmonisation versus Differentiation.....	61
5.1	Global Aspects	63
5.1.1	Trade Related Aspects of Intellectual Property Rights (TRIPS)...	63
5.1.2	The North-South Conflict Within the TRIPS Negotiations	64
5.2	European Aspects.....	66
5.2.1	Harmonisation Efforts in the European Union	67
5.2.2	The Directive on the Legal Protection of Biotechnological Inventions	69
5.3	The Harmonisation Process in Central and Eastern European Countries	70
6	Patent Protection for Biotechnological Inventions.....	73
6.1	Introduction.....	73
6.1.1	Invention.....	74
6.1.2	Novelty	74
6.1.3	Inventive Step	75
6.1.4	Industrial Applicability	75
6.2	Current Issues in Protection of Biotechnological Intellectual Property..	75
6.2.1	The Directive on Legal Protection of Biotechnological Inventions	75
6.2.2	Basic Principles of the New Legislation	75
6.2.3	Are Patents Still an Adequate Protection Tool?	76
6.2.4	“Patenting Life”	77
6.2.5	Ethical Concerns.....	78
6.2.6	Biodiversity and Global Justice	79
6.3	Management of Patenting in European Biotechnology	79
6.3.1	Methodology of the Survey	80
6.3.1.1	Data Construction	80
6.3.1.2	The Sample Constitution.....	81
6.3.2	The European Biotechnology Industry and Patenting.....	85

6.3.3	Performance of Patenting in the Sample.....	88
6.3.3.1	The Firm Presentation.....	88
6.3.3.2	Use of Patenting.....	89
6.3.3.3	Patenting versus Secrecy.....	92
6.3.3.4	Infringement.....	93
6.3.3.5	Research Collaboration and Patenting.....	93
6.3.4	Route of Application.....	94
6.3.4.1	International Patent Protection.....	95
6.3.4.2	Assessment of the Different Routes.....	95
6.3.4.3	Priority Applications.....	96
6.3.4.4	Direct Files at the United States Patent and Trademark Office.....	97
6.3.4.5	Direct Files in Other Countries.....	98
6.3.4.6	Patent Family Development.....	99
6.3.5	Expenditures Related to Patenting.....	100
6.3.6	Strategic Reasons for Patenting.....	101
6.3.7	Harmonisation Issues.....	104
6.3.7.1	The Role of National Patent Offices.....	105
6.3.7.2	Parallel Importation.....	106
6.3.7.3	European Patent Court.....	106
6.3.7.4	Grace Period.....	107
6.3.7.5	Provisional Applications and Other Improvements.....	108
6.3.7.6	The New Directive on Legal Protection of Biotechnological Inventions.....	108
6.3.7.7	Article 11: The Farmers' Privilege.....	110
6.3.8	Patentability.....	111
6.3.8.1	The Exclusions by Art 53 b EPC.....	111
6.3.8.2	Animal Varieties.....	111
6.3.8.3	Plant Varieties.....	111
6.3.8.4	Nucleotide Sequences.....	112
6.3.8.5	Expressed Sequence Tags (ESTs).....	113
6.3.9	Remove all Ethical Issues from Patentability?.....	114
6.3.10	Major Findings of the Inquiry.....	115
6.3.10.1	By Country.....	115
6.3.10.2	By Corporation.....	118
6.3.10.3	Mayor Findings.....	119
6.4	Conclusion.....	121
7	Patent Protection in Central and Eastern European Countries.....	124
7.1	Intellectual Property Rights, Technology and Trade.....	124
7.1.1	Technology Gaps and Catching-Up.....	125
7.1.2	Technology and Trade.....	126
7.1.3	The Trade Performance in the CEEC.....	128
7.1.4	Implications for Central and Eastern European Countries.....	129

7.2	The Role of Intellectual Property Rights for Economic Growth and for Closing Technological Gaps	130
7.2.1	The General Growth Influence of Intellectual Property Rights	131
7.2.2	Peculiarities of Economies in Transition	132
7.3	The Performance in the Czech Republic, Hungary and Poland	134
7.3.1	Historical Background	134
7.3.2	Czech Republic	135
7.3.3	Hungary	136
7.3.4	Poland	136
7.3.5	The General Structure of Patent Applications in the Czech Republic, Hungary and Poland	136
7.3.6	The Different Ways to Reach Patent Protection	142
7.3.7	The Structure of Origin of Non-Resident Applications	143
7.3.8	The Use of Utility Models	144
7.4	Correlation of Trade and Patenting?.....	145
7.4.1	Patent Applications and the Import Structure	146
7.4.2	Patent Applications and the Export Structure	148
7.4.3	Conclusion	149
7.5	Summary	149
8	Summary and Conclusion	152
	Appendix	157
	List of Figures.....	175
	List of Tables.....	176
	Literature	177
