Part I – Introduction

Chapter 1 Environmental Regulation of Oil and Gas in the Twentieth Century and Beyond: An Introduction and Overview	3
--	----------

Zhiguo Gao

I. Introduction.....	3
II. Petroleum Exploration and the Environment.....	4
III. Petroleum Environmental Regulation in Retrospect.....	8
1. Early international legal instruments	9
2. Environmental Provisions of Domestic Laws	10
IV. Petroleum Environmental Regulation under International Law	13
1. Key international treaties	13
2. Major regional agreements	18
3. The 'soft law' family	23
4. Some findings and observations.....	29
V. Petroleum Environmental Regulation under National Law	32
1. Statutory approach.....	32
2. The contractual approach	35
3. Integrated legislative approach.....	37
4. Some issues and practical considerations	38
VI. Petroleum Environmental Regulatory and Management Tools	40
1. EIA.....	40
2. Environmental management plan/programme	41

3.	Environmental report	41
4.	Environmental assurance programmes	42
5.	Decommissioning and abandonment fund/plan	42
6.	Environmental monitoring and audit	42
VII.	Effects of Petroleum Environmental Regulation	43
1.	Change in investment conditions	43
2.	Changes in corporate structure and management	43
3.	Changes in capital and operating costs	44
4.	Limitation on access to exploration acreage	44
5.	Delays or even rejection in project/contract approval	45
6.	Suspension of operations or cancellation of licence	45
7.	Fines and liability.	46
8.	Effect on product and pricing (mainly down stream)	46
9.	Environmental charges and taxes	46
10.	Environmental litigations and liabilities	47
VIII.	New Approaches and Themes in Petroleum Environmental Management	47
1.	Economic Regulatory Approaches	47
2.	New Themes in Petroleum Environmental Regulation	49
IX.	Summary and Conclusion	54

Part II – International Regulation

Chapter 2 The Oil and Gas Industry in the Tangled Web of Environmental Regulation: Spider or Fly? 59

Ayesha Dias

I.	Introduction	59
II.	International Environmental Law and the Oil and Gas Industry	63
1.	Evolution, basic features and emerging trends	63
2.	Emergence of international law affecting the oil and gas industry	64
3.	The global environment, international law and the oil and gas industry	67
4.	Key international law concepts of primary importance to the oil and gas industry	73
III.	Regional Environmental Law (REL) and the Oil and Gas Industry	78
1.	Onshore operations and installations of the oil and gas industry	79
2.	Offshore operations and installations of the oil and gas industry	81
3.	The North Sea regime	82
4.	Abandonment and decommissioning	83
5.	The institutional framework of REL in the EU	85
IV.	National Environmental Law (NEL) and the Oil and Gas Industry	86
V.	Current and Future Trends in IL, REL, NEL and the Oil and Gas Industry	89

Chapter 3 International Legal Regime for the Protection of the Marine Environment Against Operational Pollution from Offshore Petroleum Activities 93

Sergei V. Vinogradov and Jay Paul Wagner

I.	Introduction	93
	1. Background	94
	2. Types of operational discharges	96
II.	Global regulatory instruments	98
	1. The 1982 United Nations Convention on the Law of the Sea	99
	2. The 1973/78 MARPOL Convention	103
	3. Other global instruments	110
	4. "Soft law" provisions	113
III.	Regional instruments	118
	1. The Baltic Sea	119
	2. The Northeast Atlantic	123
	3. The Persian/Arabian Gulf	128
	4. The Mediterranean Sea	131
IV.	Concluding observations	135
	1. Global regulations	135
	2. Regional approaches	137
	3. Recent trends	139

Chapter 4 International Law on Offshore Abandonment: Recent Developments, Current Issues and Future Directions 143

Zhiguo Gao

I.	Introduction	143
II.	World offshore development and installations	144
III.	International legal framework on offshore abandonment	146
	1. Relevant international conventions	146
	2. Relevant regional conventions	148
	3. The 'soft law' principles	150
IV.	Legal issues and current debates	151
	1. Opposing treaty interpretations	151
	2. Existing treaty rendered obsolete	153
	3. Fundamental change of circumstances	153
	4. The issue of desuetude	155
	5. Supremacy of the LOS Convention	156
	6. Domestic legislation and state practice	157
V.	Legislation and practice in the UK	158
	1. Position on international law	158
	2. Domestic legislation in the UK	159

3.	Abandonment practice	161
4.	Problems faced by the UK	161
VI.	Major findings and practical considerations	163
1.	Findings on international abandonment law and practice	163
2.	Some practical recommendations	164
VII.	Concluding remarks	167

Part III – Regional Regulation

Chapter 5 European Union Environmental Law and Policy in Relation to Oil and Gas	171
---	------------

Donald A. Reid

I.	Introduction	171
II.	Development of EC environmental policy	172
1.	The Treaty of Rome 1957	172
2.	Single European Act	172
3.	The Treaty of European Union 1993	173
III.	Planning EC environmental policy	174
IV.	European Community institutions	174
1.	The Commission	174
2.	European Parliament	174
3.	The Council of Ministers	175
4.	European Court of Justice	175
5.	Committees	175
V.	Implementation of environmental policy	175
1.	Legal instruments	175
2.	Legal basis for legislation	176
VI.	The application of EC law in member states	176
1.	Interpretation of EC law	176
2.	The direct effect doctrine	177
3.	Compensation for non-implementation	177
VII.	Infringement proceedings and complaints procedure	178
1.	The Commission	178
2.	Action by individuals	178
VIII.	EC environmental policy affecting the oil and gas industries	178
1.	Environmental impact assessment	179
2.	Hydrocarbon Licensing Directive	180
3.	Controls over air pollution	180
4.	Water pollution	181
5.	Pollution by waste	181
IX.	Decommissioning and abandonment of offshore installations	182
X.	Some other developing EC legal concepts	183
1.	Civil liability for damage to the environment	183

2. Freedom of access to environmental information and third party rights	184
XI. Conclusion	184

Chapter 6 The European Energy Charter and Treaty and the Environment 187

Robin Griffith

I. Negotiation of the Energy Charter and Treaty	187
II. Political aims of the Charter	188
III. The European Energy Charter Treaty	188
IV. Protection of the environment under the Treaty	189
V. Tasks imposed upon the contracting parties towards the protection of the environment	190
IV. Dispute settlement procedures	191
VII. The energy efficiency Protocol	191
VIII. Conclusion	193

Chapter 7 Regional Perspectives on Trade and Environment: The European Union* 195

Joachim Scherer

I. Introduction	195
II. EU environmental policy and legal framework	196
1. Phases of policy development	196
2. Principles and basis of environmental legislation in the EU	197
4. "Trade" and "environment": the external and the internal perspective	199
III. Environmental protection and free trade: conflict or compatibility?	200
1. "Free trade" and "environmental protection" in the absence of EU rules ...	200
2. More stringent national environmental measures in spite of EU legislation	204
3. Striking balances between "free trade" and "environmental protection": procedures and regulatory approaches	208
IV. Conclusions	211

Part IV – National Regulation

Chapter 8 Environmental Regulation of the Oil and Gas Industry in the U.S.A. 215

James E. Hickey, Jr.

I. Introduction	215
II. Models of US Environmental Regulation	217
1. Environmental impact assessment model	219

2.	The "best technology" model	220
3.	The risk assessment model	220
4.	The strict liability model	221
III.	The Oil Pollution Act of 1990	222
1.	The scope of liability	222
2.	Certification of financial responsibility	225
3.	Double-hull tanker requirements	226
IV.	The Oil Pollution Act five years after enactment	226
V.	Conclusion	227

Chapter 9 The Oil Industry and the Extraterritorial Application of US Environmental Law 229

Ernest E. Smith

I.	The Disparity Between a Global Environment and Domestic Environmental Regimes	229
II.	The Extraterritorial Application of US Environmental Statutes	233
1.	Statutory intent	235
2.	Domestic effects: the question of jurisdiction	239
3.	Conflict with another state's domestic law or policy	240
4.	Other barriers to extraterritoriality	243
III.	Conclusions	246

Chapter 10 Environmental Issues in International Oil and Gas Exploration and Production 249

Jill A. Kotvis

I.	Current Environmental Issues	249
II.	Are US environmental laws and standards adaptable to the international community and developing nations	255
III.	Some observations	257

Chapter 11 Directions in European and the United Kingdom Environmental Policy and Legislation 259

Christopher Napier

I.	Directions in EC environmental protection	259
1.	European Community Fifth Action Programme in relation to the environment and sustainable development	259
2.	Commission progress report	265
3.	Summary remarks	265
II.	Principles of EC environmental protection	266

1.	Principles of Environmental policy	267
2.	The integrated approach	269
III.	Directions in the UK environmental policy and legislation	270
1.	The 1997 report <i>This Common Inheritance</i>	270
IV.	Common law developments in the UK	276

Part V – Corporate Environmental Management

Chapter 12 Approaches to Minimizing the Environmental and Social Impacts of Oil Development in the Tropics	279
---	------------

Amy B. Rosenfeld, Debra L. Gordon and Marianne Guerin-McManus

I.	Introduction	279
II.	The new frontier	281
1.	Liberalization and privatization	281
2.	Economic and legal incentives	282
3.	Need for foreign capital	283
4.	Exploration and reserves	284
III.	Environmental impacts and best practices	285
1.	Environmental roles and responsibilities	286
2.	Environmental impact assessments	287
3.	Environmental monitoring and evaluation	288
4.	Environmental impacts of seismic exploration	289
5.	Environmental impacts of land clearing	294
6.	Environmental impacts of roads	296
7.	Environmental impacts of drilling and production	298
IV.	Social impacts and best practices	306
1.	Social roles and responsibilities	308
2.	Social impact assessments and management plans	310
3.	Social monitoring and evaluation	313
4.	Best practices: stakeholder participation	314
5.	Social impacts of access and colonization	316
6.	Social impacts of contact	318
7.	Health impacts	321
8.	Social impacts of dependence on outside aid	324
V.	Legal and financial mechanisms to promote best practices	329
1.	Legislation	329
2.	Petroleum codes	333
3.	Voluntary guidelines	335
4.	Environmental and social impact assessments	336
5.	Enforcement of petroleum codes, EIAs and SIAs	338
6.	Funding mechanisms for conservation	339
7.	Recommendations	343
8.	Enforcement	344

9. Contracts	345
VI. Conclusion	350

Chapter 13 Quality Standards for Corporate Environmental Management 353

Eric Borremans

I. The Growth of corporate environmental management	353
1. Phase 1: end of pipe control (1970s and early 1980s)	353
2. Phase 2: prevention (late 1980s and early 1990s)	353
3. Phase 3: integration, eco-efficiency and sustainability (mid-1990s ongoing) 354	
II. The development of environmental management standards	354
1. The roots of EMS standards	354
2. Eco-Management and Audit Scheme	355
3. ISO 14001	356
III. Key issues relating to EMS certification	356
1. EMAS	356
2. ISO 14001	357
IV. Preparing for the future: what are the key issues?	358

Chapter 14 Managing Environmental Legal Risks in Oil and Gas Exploration and Production Activities 359

Kit Armstrong

I. Introduction	359
II. Major sources of environmental law relevant to oil and gas exploration and production operations	359
1. General issues	359
2. Key treaties and conventions	360
3. Major international agreements	362
4. National laws	363
5. Multilateral development and other funding institutions	365
6. International governmental organizations	366
7. Standards organizations	367
8. Industry standards and guidelines	368
III. Environmental issues companies should anticipate	371
1. General issues	371
2. Some key issues and trends to watch	371
IV. Company legal activities most likely to be affected	380
1. Primary areas of legal focus	381
2. Other business areas	383
V. What companies can do to manage environmental legal risks	384

1. General issues	384
2. Recommended activities	385
VI. Conclusion	389

Part VI – Contractual, Downstream and Sustainability Issues

Chapter 15 Environmental Concepts and Terms in Petroleum Legislation and Contracts: A Preliminary Study	393
--	------------

Ibibia Lucky Worika

I. Introduction	393
II. Conceptual problem of terminology	395
1. Genesis of environmental concepts and terms	395
2. Definitions and content	397
III. Efficacy and rationale for continued retention of environmental concepts and terms	403
1. Advantages	403
2. Disadvantages	405
3. Rationale for continued retention	406
IV. Supportive and complementary suggestions	408
1. Best practicable environmental option (BPEO)	408
2. Sustainable petroleum development practice (SPDP)	410
V. Conclusion	413

Chapter 16 Downstream Energy: Resuming a Leadership Role	417
---	------------

John C. Gault

I. Introduction	417
II. Origins of energy industries	418
III. Forthcoming challenges	418
IV. Recent achievements	420
V. Reestablishing industry leadership	422

Chapter 17 Sustainable Development of Petroleum Resources: The Rumpus and Resolution	433
---	------------

Stanley Nwabuishi Onuosa

I. Introduction	433
II. The purpose of sustainable development	434
III. Sustainable Development of Petroleum Resources: Its Implications	436

IV. The Antagonist's Perception	438
V. The Protagonist's Perception	440
VI. Resolving the Conflict	443
VII. Pathway to Sustainable Development of Petroleum Resources	444
VIII. Conclusion	449

Appendices

Appendix 1 International Treaties and Documents in Relation to the Oil and Gas Industry	453
Appendix 2 IMO Guidelines and Standards for the Removal of Offshore Installations and Structures on the Continental Shelf and in the Exclusive Economic Zone	459
Appendix 3 Protocol for the Protection of the Mediterranean Sea against Pollution Resulting from Exploration and Exploitation of the Continental Shelf and the Seabed and its Subsoil	465
Appendix 4 Protocol Concerning Marine Pollution Resulting From Exploration and Exploration of The Continental Shelf	491
Appendix 5 World Bank Guidelines for Environmental Assessment of Oil and Gas Development Projects	501
Appendix 6 Shell's Environmental Policy and Guidelines	525
Appendix 7 Pertamina's Policy for Environment and Safety	529
Appendix 8 Environmental Checklist for Petroleum Exploration and Production Activities	531
Appendix 9 Petroleum Environmental Glossary	547
Selected Bibliography	569
Index	575
