MANUAL OF EUROPEAN ENVIRONMENTAL LAW

Second edition

ALEXANDRE KISS
President, European Council on Environmental Law

and

DINAH SHELTON
University of Notre Dame
PART 1 OVERVIEW

1 Introduction

- Terminology
  - Environment
  - Pollution
  - Law
  - Europe
- Basic characteristics
- History of European environmental law
- The legal framework
  - Sources of national laws
    - Constitutions
    - Legislation
    - Executive decrees
    - Common law
    - Administrative agency rule-making
    - Regional or local law
- The European Community
  - Treaty provisions
  - Regulations
  - Directives
  - Action programmes

### 2 Fundamental concepts

#### Aims
- Preservation of the biosphere 35
- Sustainable development 36

#### Principles
- Conservation 39
- Amelioration 39
- Precaution and prevention 39
- Protection 42
- Polluter pays 43
- Other principles 44

#### Documents
- The Stockholm Declaration on the Human Environment 45
- The Rio Declaration on Environment and Development 48
- The Environmental Protection Act of Slovenia 52

### 3 Institutions and agencies

#### National institutions 55

#### European Community 59

#### International institutions 62

#### Documents
- Single European Act 68
- Lithuania, Environmental Protection Act 68

### 4 The role of the public

#### Human rights and the environment 72
- The right to information 73
- Public participation 80
CONTENTS

The right to a remedy 81
A right to a safe and healthy environment 84
Non-governmental organizations 87
Using NGO expertise 87
Codes of conduct and other standard-setting 88
Participation in licensing and permit procedures 89
Complaints of violations 89
Funding environmental projects 90
Case studies 90

Dinah Shelton, *NGOs in the European Community: The European Environmental Bureau* 90
Blanche Vahle, *The Role of Environmental NGOs in Central and Eastern Europe: Prospects and Problems* 92

Documents 98
Bulgaria, Environmental Protection Act 99
Constitutional provisions 101
European Court of Human Rights, *López Ostra v. Spain* 101

Questions and problems 109
Bibliography 110

5 Techniques of environmental law 112

Preventive measures 114
Regulation 114
Standard-setting 114
Restrictions and prohibitions 116
Permits, certification, and licenses 119
Licensing goals 120
Scope of controls 120
Procedures 122

Environmental impact assessment 123

Economic and market devices for environmental protection 127
Taxation 128
Loans 129
Insurance 130
Grants and subsidies 131
Negotiable permits 132
Deposits 132
Labeling 133

Implementation measures 135

Enforcement and remedial measures 139
The nature of responsibility or liability 139
The scope of responsibility 140
Enforcement actions 142
Civil liability 144
PART 2  SECTORAL PROTECTION

6  Biological diversity and the protection of nature  181

Overview  181

Protection of specimens and species of flora and fauna  183

Hunting and fishing regulations  183

Prohibitions on the taking of native species  185

International trade in endangered species  187

Protection of migratory species  189

Limitations on the introduction of exotic species  190

Measures directed toward the preservation of one or several species  191

Measures relating to the transportation of animals  193

Gene banks  194

Protection of habitats and ecosystems  195

Protected areas  196

Types of protected areas  200

Comprehensive and integrated protection  203

Implementation  206

Biotechnology  207

Case studies  211

Jean Gottesmann, Nature Conservation Legislation in Switzerland: Protected Species and Areas  211

## CONTENTS

### Documents
- Convention on the Conservation of European Wildlife and Natural Habitats 230
- United Kingdom, Environmental Protection Act 1990 241

### Questions and problems
247

### Bibliography
248

### 7 Protection of the soil

#### Overview
250

#### Case studies
- Michel Prieur, *Legal Protection for Soil* 254
- Hector Hacourt, *Council of Europe Activities Relating to Soil Protection* 261
- Alberto Lucarelli, *Soil Protection in Italy* 265
- F. A. M. de Haan and S. E. A. T. M. van der Zee, *Soil Protection: The Dutch Case* 274

#### Documents
- Bulgaria, Ownership and Use of Farm Land Act 285
- Council of Europe, European Soil Charter 286

#### Questions and problems
288

### Bibliography
288

### 8 Fresh waters

#### Overview
290

#### The protection of fresh waters in international law
292

#### Means and methods to protect water against pollution
295
- Regulating discharges into water 296
- Determining water-quality standards 298
- Special measures to protect groundwater 299

#### Protection for specific watercourses or sites
301

#### Integrated planning
301

#### Case studies
- Stefano Burchi, *Recent Trends in the Law and Administration of Fresh-Water Resources in Western Europe* 302
- Ludwig Krämer, *Fresh Waters and EC Law* 309
- Meinhard Schröder, *The Rhine* 316
- Alexandre Kiss, *The Gabčíkovo–Nagymaros Case* 322

#### Documents
- Convention on the Protection and Use of Transboundary Watercourses and International Lakes 328

#### Questions and problems
336

### Bibliography
336
# Protection of the marine environment

## Overview

- General legal regime
- Standards protecting the marine environment
  - International law
  - European Community standards
  - National legislation
- Rules concerning sources of harm
  - Vessel-source pollution
  - Atmospheric pollution
  - Dumping of wastes
  - Exploration and exploitation of the seabed
  - Land-based pollution
  - Accidental pollution
  - Responsibility and reparations

## Case studies

- Tullio Scovazzi, *International Law and the Protection of the Marine Environment*
- Said Mahmoudi, *The Baltic and the North Sea*
- Maria Teresa Mosquete Pol, *The Protection of the Sea in Spain*

## Documents

- Convention on the Protection of the Marine Environment of the Baltic Sea Area
- OSCOM Decision 95/1 on the Disposal of Offshore Installations
- OSCOM Decision 89/1 on the Reductions and Cessation of Dumping Industrial Wastes at Sea
- Sweden, Act on Prohibition of Dumping of Wastes in Water
- Sweden, Act on Measures against Vessel Source Pollution

## Questions and problems

## Bibliography

# The atmosphere

## Overview

- National and Community measures
  - General laws applicable to air pollution
  - Air-pollution measures
  - Regulating activities or installations
  - Regulating specific pollutants
  - Air-quality standards
  - Zoning
- The international dimensions of air pollution

## Case studies

- Jose Juste, *Protection of the Atmospheric Environment by International Law*
- Ludwig Krämer, *The European Community and Atmospheric Pollution*

PART 3 TRANSSECTORAL ISSUES

11 Regulating sources of environmental harm 437
Overview 437
Activities and processes 438
Industry 438
Agriculture 438
Military activities 441
Tourism 443
Hazardous substances 446
Production controls 447
Marketing and use 450
Transport and import/export controls 454
Nuclear radiation 455
Wastes 457
Management rules 459
Methods of waste discharge 462
Reducing the volume of wastes 465
Transfrontier movement of wastes 466
Noise 466
Industrial noise 467
Transportation noise 468
Neighborhood sounds 469
Protection against accidental harm 470
Regulation 471
Liability 474
Risk assessment 474
Case studies 475
J.-M. Devos, Industry and Effective Implementation and Enforcement of EC Regulation of Hazardous Substances 475
Mary Sancy, European Regulation of the Transboundary Movement of Wastes 479
C. P. Naish, The Policy of Waste Disposal in the Chemical Industry 486
Documents 489
12 Environmental planning and integrated protection 512

Overview 512
The urban environment 513
The rural environment 515
Integrated planning 516
Case studies 518
M. E. Williams, The Environment in Europe's Cities: Whose Responsibility? 518
