**Introduction**  

**Chapter 1** Cooperation over Transboundary Water Resources: A Debate  
1. Introduction  
2. Realists: ‘Water is a potential source of conflict’  
3. Political Economists: ‘Virtual water’  
4. Institutionalists: ‘Efficient and equitable management and utilisation of water resources can ease tension among the riparians’  
4.1. International Law  
4.2. International Organisations  
4.3. Hydro-economics  
5. International Regimes: A Theoretical Framework for Cooperation on Transboundary Water Resources  
5.1. Definition of International Regimes  
5.3. Regime Formation  
5.3.1. Spontaneous Orders  
5.3.2. Imposed Orders
5.3.3. Negotiated Orders
5.3.3.1. Institutional bargaining
5.3.3.2. Epistemic communities
5.3.4. Regimes and International Agreements

6. Conclusion

Chapter 2 Water in the International Agenda: Steps to Regime Building

1. Introduction

2. Conferences Under the Auspices of the United Nations
   2.3. International Conference on Water and the Environment (1992): The Dublin Statement

3. Efforts of the United Nations Specialised Agencies
      3.2.1. Formulation of National Water Resources Strategy
      3.2.2. Key Issues in the Formulation of National Water Resources Strategy
         3.2.2.1. Institutional and human resources issues
         3.2.2.2. Stakeholder participation
         3.2.2.3. Information systems
         3.2.2.4. The role of economics
         3.2.2.5. International considerations

   4.1. The World Water Council (WWC)
      4.1.1. Integrated Water Resources Management (IWRM)
      4.1.2. The World Commission on Water for the 21st Century
   4.2. The Global Water Partnership (GWP)
      4.2.1. Framework for Action (FFA)
## Contents

4.2.2. IWRM ToolBox  
### IWRMToolBox 107  
4.2.3. GWP Water Partnerships  
### GWP Water Partnerships 108  
4.3. The Water Supply & Sanitation Collaborative Council (WSSCC): The VISION 21  
### The Water Supply & Sanitation Collaborative Council (WSSCC): The VISION 21 110  
5. Conclusion  
### Conclusion 115

### Chapter 3 Codification of International Water Law: Principles & Norms 119  
1. Introduction  
### Introduction 119  
2. Legal Framework Doctrines  
#### 2.1. Theory of Absolute Territorial Sovereignty 122  
#### 2.2. Theory of Absolute Integrity of the River 123  
#### 2.3. Theory of Limited (Restricted) Territorial Sovereignty 124  
3. Evolution of International Water Law in its Early Stages 124  
#### 4.1. A Controversial Concept: International Drainage Basin 130  
#### 4.2. Absolute Primacy of the Equitable Utilisation Rule 133  
#### 5.1. ILC’s Drafting of the International Water Law 137  
#### 5.2. The Making of the UN Watercourses Convention 139  
#### 5.3. Defining the Subject of the Convention: International Watercourses 142  
#### 5.4. The Convention and the Existing and Future Agreements 144  
#### 5.5. The Key Principle to Reconcile the Interests of the Riparians: Equitable and Reasonable Utilisation 145  
#### 5.6. Subsidiarity of the No-Harm Rule 149  
#### 5.7. The Principles Facilitating the Operationalisation of the Equitable Use 153  
6. Conclusion  
### Conclusion 156

### Chapter 4 The Hydrological Setting of the Euphrates-Tigris River Basin 159  
1. Introduction  
### Introduction 159  
2. Physical Setting  
#### 2.1. Geography 160  
#### 2.2. Climate  
#### 2.3. Hydrology 162  
##### 2.3.1. Area of Drainage Basin and River Lengths 162  
##### 2.3.2. Main Sources and Tributaries 162
2.3.3. River Discharge 164
2.3.4. Water Balance: Supply and Demand Ratios 166

3.1. Harmonious Nature of Water Politics from the 1920s to 1950s: The Development of the Rivers at a Minimal Level 169

3.2. The Controversial Nature of Water Politics from 1960s to the Present: Initiation of Major Development Projects and Current Water Policy and Management 170

3.2.1. Turkey 170

3.2.1.1: Economic factors 170
3.2.1.2. The Southeastern Anatolia Project (GAP) 172
3.2.1.3. Current water policy and management 183
3.2.1.3.1. Population Growth and Urbanisation 184
3.2.1.3.2. Financial Constraints 184
3.2.1.3.3. Institutional Issues 185
3.2.1.3.4. Participatory Irrigation Management in Turkey 189

3.2.2. Syria 193
3.2.2.1. Economic factors 193
3.2.2.2. The Euphrates Valley Project 197
3.2.2.3. Current water policy and management 200

3.2.3. Iraq 206
3.2.3.1. Economic factors 206
3.2.3.2. Thartar Canal Project and water development schemes 209
3.2.3.3. Current water policy and management 211

4. Conclusion 216

Chapter 5 Main Features of the International Regime Suggested for the Euphrates-Tigris River Basin 219

1. Introduction 219

2. Hydropolitics of the Euphrates-Tigris River Basin 221

2.1. Emergence of the Water Dispute among Turkey, Syria and Iraq 221

2.2. Early Negotiations 221

2.3. An Institutionalised Negotiation Framework: The Joint Technical Committee 227
## Contents

2.4. Incidents of Water Crises in the Euphrates-Tigris River Basin 229

2.5. Interdependence, Cooperation and International Regimes 230

3. Institutions for the Suggested Water Regime in the Euphrates-Tigris River Basin 234

### 3.1. Principles

3.1.1. Equitable and Efficient Management and Utilisation of Transboundary Rivers is a Key Determinant in Promoting Cooperation 235

3.1.2. National Water Sector of Each Riparian is a Part of the Global Political Economy Where Adjustments Can be Made Through International Trade 239

### 3.2. Norms

3.2.1. The Euphrates and Tigris Rivers Have to be Considered as Forming One Single Transboundary Watercourse System, and Managed Accordingly 241

3.2.2. The Inventory of Water and Land Resources Should be Drawn up and Evaluated Jointly 242

3.2.3. Each Riparian Has the Right to Use the Waters of the International Watercourses in Their Respective Territories in an Equitable and Reasonable Manner 243

3.2.4. To Attain Optimal Utilisation and Adequate Protection of the Euphrates-Tigris Rivers Cooperation Should be the Norm Among the Riparian States 245

3.2.5. Regular Exchange of Data and Information 247

3.2.6. Duty of Prior Notice 247

3.2.7. Due Attention Should be Paid to the Protection and Preservation of the Ecosystems of the Euphrates-Tigris River Basin 248

### 3.3. Rules

3.3.1. The Protocol of 1987 Between Turkey and Syria 249

3.3.2. Water Allocation Agreement Between Syria and Iraq: The Protocol of 1990 251

3.3.3. The Three-Stage Plan

3.3.3.1. Stage 1 - inventory studies for water resources 254

3.3.3.2. Stage 2 - inventory studies for land resources 255
Building a Regime for the Waters of the Euphrates-Tigris River Basin

3.3.3.3. Stage 3 - evaluation of water and land resources 255
3.3.4. Views of the Downstream Riparians on the Three-Stage Plan 256
3.3.5. Views of Turkey on the UN Watercourses Convention 257
3.4. Decision-Making Procedures: From Joint Technical Committee to River Basin Organisation 259

4. Conclusion 262

Conclusion 265

Appendix 1 Text of the Convention on the Law of the Non-Navigational Uses of International Watercourses 273
Appendix 2 Table of Ratifications and Declarations 295
Appendix 3 Joint Communiqué 297
Appendix 4 Geographic Information Systems and Water Resources Management 301
