Anti-Dumping and other Trade Protection Laws of the EC

Van Bael & Bellis
# TABLE OF CONTENTS

Preface to the Fourth Edition .......................................................... xxiii
About the Authors ............................................................................... xxv

1. INTRODUCTION – THE EC TRADE PROTECTION LAWS

IN PERSPECTIVE ................................................................................. 1
§1.1. Scope of this work ................................................................. 1
1. Anti-dumping measures ............................................................ 1
2. Countervailing measures ......................................................... 1
3. Safeguard measures ................................................................. 2
4. Measures under the ‘Trade Barriers Regulation’ ....................... 2
5. Measures with respect to unfair pricing practices in maritime
   transport and airline services ..................................................... 3

INSTITUTIONAL BACKGROUND ....................................................... 3
§1.2. General ................................................................................. 3
§1.3. EC Treaty: Common Commercial Policy ............................... 3
§1.4. EC Treaty: Community authorities ....................................... 5
1. The Commission .................................................................. 5
2. The Council of Ministers ....................................................... 6
3. The Advisory Committee ....................................................... 7
4. The European Parliament ..................................................... 7
5. The Court of First Instance and the Court of Justice ............... 9

OVERVIEW OF PRACTICE ............................................................... 14
§1.5. Anti-dumping proceedings .................................................. 14
§1.6. Anti-subsidy proceedings .................................................... 15
§1.7. Safeguard proceedings ....................................................... 15
§1.8. Trade Barriers Regulation ................................................... 16
§1.9. Unfair pricing practices in maritime transport proceedings .... 16
§1.10. General comments ............................................................ 16

PART I. ANTI-DUMPING MEASURES .................................................. 21
§2.1. General position ................................................................. 21
THE EC FRAMEWORK .................................................................... 22
§2.2. Legislative history ............................................................... 22
§2.3. Scope of the 1996 Regulation .............................................. 26
§2.4. The European Economic Area ............................................ 26
   1. ‘Community acquis’ ........................................................... 27
   2. Anti-circumvention ............................................................ 28
## TABLE OF CONTENTS

§3.11. The actual export price .................................................. 87  
  1. Sales to intermediate companies ................................... 87  
  2. OEM sales ................................................................. 90  

§3.12. Constructed export price .............................................. 90  
  1. Circumstances under which the export price may be constructed 90  
  2. Construction of the export price .................................... 92  

COMPARISON BETWEEN NORMAL VALUE AND EXPORT PRICE .................. 99  

§3.13. Introduction ............................................................ 99  

§3.14. General principles .................................................... 99  
  1. Comparison at the same time ....................................... 99  
  2. Elimination of the limitative nature of the list of permissible adjustments 99  
  3. No duplication ......................................................... 100  
  4. Burden of proof ....................................................... 100  

§3.15. Specific rules for the determination of the permissible adjustments 100  
  1. Physical characteristics .......................................... 101  
  2. Import charges and indirect taxes .................................. 103  
  3. Discounts, rebates and quantities .................................. 105  
  4. Level of trade ......................................................... 106  
  5. Transport, insurances, handling, loading and ancillary costs 110  
  6. Packing ................................................................. 111  
  7. Credit ................................................................. 111  
  8. After-sales costs ..................................................... 113  
  9. Commissions ......................................................... 113  
  10. Currency conversions .............................................. 114  
  11. Other factors ....................................................... 116  

DUMPING MARGIN ............................................................. 118  

§3.16. Introduction ............................................................ 118  

§3.17. Weighted average or individual normal value/export prices ......... 119  
  1. The EC Institutions’ past practice ................................ 119  
  2. The rules introduced in the Anti-Dumping Regulation .......... 121  
  3. Individual or general dumping margin ............................ 127  

NON-MARKET ECONOMY COUNTRIES ........................................... 128  

§3.18. Introduction ............................................................ 128  

§3.19. The concept of a non-market economy country ........................ 130  

§3.20. Normal value determinations for imports from traditional non-market economy countries ............................. 131  
  1. The selection of the ‘analogue country’ .......................... 131  
  2. Methods to determine normal value ............................... 137  
  3. Adjustments ......................................................... 139  

§3.21. Normal value determinations for imports from ‘special non-market economy regime’ countries ......................... 141  
  1. First criterion: there must be freedom to take decisions without significant State interference ....................... 143
2. Second criterion: accounting records must be in line with international accounting standards ........................................ 145
3. Third criterion: production costs and the financial situation must not be affected by significant distortions ........................................ 146
4. Fourth criterion: bankruptcy and property laws must be applicable ........................................ 146
5. Fifth criterion: exchange rate conversions must be carried out at the market rate ........................................ 146

§3.22. Individual treatment ........................................ 147
§3.23. The procedure in case involving non-market economy regime countries ........................................ 151

4. SUBSTANTIVE ELEMENTS II: INJURY ........................................ 155

§4.1. Introduction ........................................ 155

LIKE PRODUCT ........................................ 157

§4.2. The 'product concerned' determination ........................................ 158
1. Factors taken into account in the 'product concerned' determination ........................................ 159
2. Overview of cases discussing the 'product concerned' determination ........................................ 166
3. Market segmentation ........................................ 172
4. Intermediate products ........................................ 175
5. Modifications of the scope of the investigation ........................................ 178
6. The product determination and the passing of time ........................................ 179

§4.3. Like product definition ........................................ 181
1. Basic physical, chemical and/or technical characteristics and basic use ........................................ 181
2. Quality differences ........................................ 184
3. Other criteria ........................................ 185
4. Intermediate products ........................................ 186
5. No production by the Community industry ........................................ 186

COMMUNITY INDUSTRY ........................................ 187

§4.4. Notion of Community industry ........................................ 187
§4.5. The determination of the EC production ........................................ 188
§4.6. The products ........................................ 188
§4.7. The producers ........................................ 189
1. Exception 1: producers related to exporters or importers ........................................ 191
2. Exception 2: producers importing products under investigation ........................................ 195
3. Exception 3: regional industry ........................................ 203
4. No separate identification of the Community production of the like product ........................................ 207

§4.8. The determination of the Community industry ........................................ 207
1. The requirements to be included in the Community industry ........................................ 207
2. Standing ........................................ 209

MATERIAL INJURY ........................................ 211

§4.9. Notion of 'material injury' ........................................ 211
§4.10. Actual material injury ........................................ 211
§4.11. Volume of dumped imports ........................................ 214
1. Statistics on imports ........................................ 215
2. Volume of imports in absolute terms ........................................ 216

- §16.7. Products on their way to the Community .................................................... 605
- §16.8. General procedure for administering quantitative quotas .......................... 605
  1. Method based on traditional trade flows ...................................................... 605
  2. Method based on the order in which the applications are submitted .............. 606
  3. Method allocating quotas in proportion to the quantities requested .......... 606
- §16.9. Administration of quantitative quotas: application for licenses ............... 607
- §16.10. Administration of quantitative quotas: issuance of licences for import ..... 608
- §16.11. General procedure for administering tariff quotas .................................. 609

### TRANSITIONAL PRODUCT-SPECIFIC SAFEGUARD MECHANISM .......... 610

### SURVEILLANCE MEASURES ................................................................. 612
- §16.12. Basis for surveillance measures ............................................................ 612
- §16.13. The power to adopt surveillance measures ............................................. 614
- §16.15. Information on products subject to surveillance measures .................... 615
- §16.16. Duration of surveillance measures ....................................................... 616

### 17. PROCEDURE .................................................................................. 617
- §17.1. In general .................................................................................................. 617

### COMMUNITY INFORMATION AND CONSULTATION PROCEDURE .... 617
- §17.2. The Advisory Committee ....................................................................... 617
- §17.3. Information obligation ............................................................................. 617
- §17.4. Consultations .......................................................................................... 617

### COMMUNITY INVESTIGATION PROCEDURE ........................................ 618
- §17.5. Introduction ............................................................................................ 618
- §17.6. Initiation of a proceeding ......................................................................... 618
- §17.7. Investigation ............................................................................................ 619
  1. Powers of investigation .................................................................................. 619
  2. Hearing of interested parties .......................................................................... 620
  3. Investigation report ....................................................................................... 620
  4. Confidentiality ............................................................................................... 620
- §17.8. Termination of a proceeding .................................................................... 620

### IMPOSITION OF SAFEGUARD MEASURES ........................................... 621
- §17.9. In general ................................................................................................ 621
- §17.10. Provisional safeguard measures .............................................................. 621
- §17.11. Duration of safeguard measures ............................................................ 622
- §17.12. Review of safeguard measures ............................................................... 622
- §17.13. Re-imposition of safeguard measures .................................................... 623

1. The proceeding is terminated because it is found, as a result of the examination procedure, that the interests of the Community do not require any action to be taken.

2. The procedure is suspended because, after the examination procedure, the third country/countries concerned take measures which are considered satisfactory.

3. The procedure is suspended because it appears that the most appropriate means to resolve the dispute is the conclusion of an agreement with the third country concerned.

4. Other course of action.

JUDICIAL REVIEW

§22.15. Judicial review.

PART V. THE REGULATION ON UNFAIR PRICING PRACTICES IN MARITIME TRANSPORT AND AIRLINE SERVICES

23. INTRODUCTION

§23.1. Regulation on unfair practices in maritime transport

§23.2. Regulation on subsidisation and unfair pricing practices in the supply of airline services from third countries

THE WTO FRAMEWORK

SCOPE OF APPLICATION OF THE REGULATIONS

§23.3. Regulation on unfair pricing practices in maritime transport

§23.4. Regulation on subsidization and unfair pricing practices in the supply of airline services from third countries

24. SUBSTANTIVE ELEMENTS

§24.1. Introduction

§24.2. Unfair pricing practices

1. Introduction

2. Non-commercial advantages

3. The determination of the normal freight rate

4. Freight rates charged by foreign shipowner

5. Comparison between normal rate and rate charged by foreign shipowner

§24.3. Injury

1. Introduction

2. Community shipowners on a particular route

3. Major injury

4. Causality

§24.4. Community interests
