### TABLE OF CONTENTS

#### Three Internet Governance
1. Introduction 37
2. Internet Governance 37
3. Internet Organisations 40
4. Private Sector 44
5. Governmental and Non-governmental Organisations 45
6. Summary 47

#### Four International Regulation of the Internet
1. Introduction 49
2. International E-commerce Regulation 50
   2.1 1980 Vienna Convention on Contracts for the International Sale of Goods (CISG) 50
   2.2 2005 United Nations Convention on the Use of Electronic Communications in International Contracting 58
   2.3 European E-commerce Directive 67
3. Model Laws 71
   3.1 1996 Model Law on Electronic Commerce 71
   3.2 2004 UNIDROIT Principles of International Commercial Contracts 74
4. Other Internet-related Treaties 78
   4.1 2001 Convention on Cybercrime 78
   4.2 1996 WIPO Treaties 82
5. Self-regulation versus Internet Regulation 85
6. Summary 88
7. Attempt to Solve Hypothetical Case Studies 89
   7.1 Transaction confirmation case 89
      (a) Model Law on Electronic Commerce 90
      (b) Electronic Commerce Directive 92
   7.2 Strong encryption case 93
   7.3 Summary of hypothetical case studies 94
8. Conclusion 94

#### Part II - Custom

#### Five The Role of Custom
1. Introduction 99
2. Historical Importance of Custom in Western Culture 101
   2.1 Custom in the Roman Empire 101
   2.2 Custom in the European legal tradition 103
   2.3 Medieval Law Merchant 109
   2.4 Custom in contemporary Western legal tradition 111
   2.5 Summary 118
TABLE OF CONTENTS

3. Custom in Other Legal Traditions 119
   3.1 Custom in Islamic tradition 119
   3.2 Custom in Hindu tradition 122
   3.3 Custom in Chinese tradition 123
   3.4 Custom in Japanese tradition 124
   3.5 Custom in tribal societies 125
   3.6 Summary 126
4. Custom in Modern International Legal Orders 127
   4.1 Custom in the international commercial law 127
      (a) Rebirth of the Law Merchant 127
      (b) Problems with the definition of commercial custom 132
   4.2 Custom in international public law 136
5. The Potential Role of Custom on the Internet 137
   5.1 Custom as a source of Internet commerce law 137
   5.2 Custom as a source of knowledge about the Internet 139
6. Conclusion 140

Six International Custom and its Proof 143
1. Introduction 143
2. The Role of Custom in International Law 145
3. The Definition of International Custom 146
4. Practice 151
   4.1 The notion of practice 151
   4.2 Duration of practice 154
   4.3 Generality of practice 156
   4.4 Consistency of practice 158
   4.5 Objections to practice 160
   4.6 Repetition of practice 162
   4.7 Morality and reasonableness of practice 162
   4.8 Summary of practice 163
5. Acceptance of Practice as Law 164
   5.1 The notion of acceptance as law 164
      (a) The ‘belief’ interpretation 164
      (b) The ‘tacit agreement’ interpretation 166
   5.2 Generality of acceptance 168
   5.3 Critique of the subjective element 169
      (a) Critique of opinio iuris 169
      (b) Critique of pactum tacitum 171
6. Alternative Approaches 173
   6.1 The ‘practice only’ approach 173
   6.2 The ‘instant custom’ approach 176
   6.3 Reconciliatory approaches 176
7. Judicial Confirmation of Custom 178
8. Evidencing International Custom 178
  8.1 Methods of evidencing custom 178
  8.2 Recent evidentiary practice of the ICJ 179
    (a) The 1986 Nicaragua case 179
    (b) The 1996 Nuclear Weapons Advisory Opinion 185
    (c) The 2002 Arrest Warrant case 188
  8.3 Two approaches to evidencing custom by ICJ 190
    (a) The ‘declarative’ approach 190
    (b) The ‘inferential’ approach 192
  8.4 Summary of ICJ’s evidencing practice 195
10. Conclusion 197

Seven Internet Custom 199
  1. Introduction 199
  2. Problems with Applicability of International Custom to Internet Commerce 200
  3. Objectives of the New Concept of Custom 203
  4. Proposed Definition of Electronic Commerce Custom 204
  5. Practice 205
    5.1 The notion of practice 206
      (a) Actions 206
      (b) Promises to act 207
      (c) Abstention from action 208
    5.2 The notion of legally relevant practice 209
    5.3 The notion of sufficiently widespread practice 210
      (a) Practice widespread in space 211
      (b) The notion of majority 212
        (a) Quantitative majority 214
        (b) Qualitative majority 216
      (c) Practice widespread in time 216
    5.4 Duration of Internet practice 216
      (a) Horizontal element of time 217
      (b) Vertical element of time – Volume of transactions 217
      (c) New meaning of time factor 218
    5.5 Consistency of practice 219
    5.6 Objections to practice 220
    5.7 Repetition of practice 221
    5.8 Morality and reasonableness of practice 221
    5.9 Summary of the notion of practice 222
  6. The Subjective Element 223
    6.1 Rejection of subjective element in e-custom 223
    6.2 Expectation of practice observance 224
7. Summary of the Concept of E-custom 225
8. The Role of an Adjudicator 226
9. Hypothetical Examples 227
9.1 Transaction confirmation practice 228
9.2 Hypothetical transaction confirmation case 232
9.3 Transaction encryption practice 232
9.4 Hypothetical banking case 236
10. Consequences for the IT Industry 236

Part III — Evidencing Custom 239

Eight Evidencing Custom on the Web 241
1. Introduction 241
2. Problems with Traditional Methodology 241
3. Overview of the Proposed Methodology 243
4. Sampling the Internet 244
4.1 Random sampling 246
4.2 Non-random sampling 248
4.3 Sample size 249
4.4 Representativity of the sample 252
4.5 Summary 254
5. Overview of Means of Evidencing Internet Custom 254
5.1 Human versus automation 255
5.2 Website Content Analysis 257
5.3 Website Traffic Analysis 258
5.4 Web Infrastructure Analysis 258
5.5 Developer Tools Analysis 259
5.6 Web Participants Opinion Poll 259
5.7 Summary 260
6. Proposed Three-step Methodology 260
6.1 E-commerce development tools capability test 261
6.2 Practice examination test 263
(a) Automatic analysis of practice 263
(b) Manual analysis of practice 265
6.3 Literature review test 267
7. Hypothetical Case Studies 268
7.1 Transaction confirmation case 269
(a) E-commerce development tools capability test 269
(b) Practice examination test 274
(i) Automatic analysis 274
(ii) Manual analysis 275
(c) Literature review test 280
(d) Case summary 282
7.2 The banking case
   (a) E-commerce development tools capability test
   (b) Practice examination test
      (i) Automatic analysis
      (ii) Manual analysis
   (c) Literature review test
   (d) Case summary

8. Conclusion

Part IV — Towards Supranational Internet Law

Nine Potential Internet Customs

1. Introduction
2. Online Property
   2.1 Freedom of linking without authorisation
   2.2 Right to copy certain online materials without permission
      (a) E-mail copying
      (b) WWW copying
      (c) P2P copying
   2.3 Freedom of registration of a domain name
   2.4 Right to explore user’s behaviour
3. Online Security
   3.1 Obligation of an online business to support non-trivial username and password authentication
   3.2 Obligation of an online business to support strong encryption of all exchanges of sensitive information
   3.3 Obligation of an online business to deny a service if client’s web browser does not support strong encryption
   3.4 Obligation of an online business to automatically sign a user out if a web browser is not used for some time (timeout)
   3.5 Obligation of an online bank to use valid digital certificates issued by trusted authorities
4. Online Contracting
   4.1 Obligation of an online business to display steps that follow to conclude an electronic contract
   4.2 Obligation of an online business to provide means of identifying and correcting input errors
   4.3 Obligation of an online business to summarise the transaction before accepting payment
   4.4 Obligation of an online business to confirm an online order instantly and by electronic means
5. Online Advertising
   5.1 Obligation of an online business to refrain from sending spam
