Munkman on Damages for Personal Injuries and Death

Twelfth edition

Gordon Exall, BA (Warwick)
of Lincoln’s Inn, Barrister
Contents

Foreword to the twelfth edition by Julian Goose QC v
Preface to the twelfth edition vii
Preface to the first edition ix
Table of statutes xxi
Table of statutory instruments xxiii
Table of cases xxv

Chapter 1 The purpose of damages in personal injury cases 1
Damages are compensation in money 1
Meaning of compensation 2
Damages are not punitive 2
Universality of the reparation principle 3
Damages must be full and adequate 3
Damages are normally assessed once and for all 3
Difficulty and uncertainty of assessment does not preclude an award of damages 4
Circumstances where the courts will allow a postponement of the trial date 6
A finding of contributory negligence does not affect the court's assessment of damages 6

Chapter 2 Overview of the types of damages in personal injury cases 7
Quantification 7

Chapter 3 Remoteness of damage and causation 15
Remoteness of damage: practical difficulties 15
Remoteness in practice 15
Issues of remoteness in cases of negligence or breach of statutory duty 16
Contents

Novus actus interveniens 20
Remoteness of damage: distinction between breach of contract and tort 24
Causation and asbestos cases – the development of the ‘Fairchild exception’ 26

Chapter 4 Mitigation of damages 31
The ‘duty’ to mitigate loss a misnomer? 31
The burden of proof 31
Consequences of failure to mitigate 31
Common issues of failure to mitigate loss in personal injury actions 32

Chapter 5 Special forms of damages: Exemplary and aggravated damages 41
Some special forms of damages 41
A second basis upon which to award exemplary damages 42
Exemplary damages in personal injury cases? 42
Aggravated damages 43
Should the court expressly separate the awards for pain and suffering and aggravated damages? 43
What amounts to exceptional cases? 43
Unnecessary medical treatment 44
Damages for rape 44
The true purpose remains compensation 44

Chapter 6 Damages for personal loss: disablement, pain, suffering and loss of amenity – what is being compensated? 45
Personal loss as an element in damages 45
The claim for the physical injury is compensation and not a solatium 45
The personal loss covers more than pain 46
The elements of a claim for pain, suffering and loss of amenity 47
Where the claimant suffers multiple injuries 53
Acceleration cases 54

Chapter 7 Damages for shock, psychiatric injury and workplace stress 55
Psychiatric injuries and the law of damages 55
Shock 55
## Contents

Where life expectancy is reduced 81  
Multipliers in other cases 81  
Judicial reluctance to work outside Tables 81  
Chapter 10 Claims for loss of earnings 83  
The basic position 83  
Loss of earnings: the starting-point of the calculation 83  
Probable future earnings (apart from the accident) 84  
Future increases or reductions 84  
Future inflation not taken into account 84  
Special factors in the trade 84  
Self-employed and company earnings 84  
Pension losses 85  
Potential future earnings (after the accident) 85  
Full allowance should be made 85  
The court looks at the reality of the situation 86  
The duration of the incapacity 86  
The duration of the loss 86  
Benefits other than money 86  
Fraud and working illegally 88  
The limited nature of the illegality defence 88  
Unused earning capacity 89  
Deductions from loss of earnings 91  

Chapter 11 Future loss of earnings and earnings capacity for the employed and self-employed 93  
The apparently different approaches in relation to future loss of earnings 93  
The appropriate multiplier for future loss of earnings 94  
The appropriate approach to loss of earnings on a multiplier/multiplicand approach 95  
Disability in the labour market 99  
The Blamire award – future earnings where there is uncertainty 100  
Claims for loss of chance 104  
Loss of earnings and the self-employed 107
Chapter 12  Claims for care and nursing expenses  

The growing importance of care claims  
111

What is ‘care’?  
111

The vague definition of care  
112

An issue of fact?  
112

Issues that assist in defining and quantifying ‘care’  
112

Quantifying care  
113

Commercial healthcare  
113

Care provided by family members or friends  
115

Quantification of the claim  
116

There is no set deduction: the decision in Evans v Pontypridd Roofing  
116

The Law Commission approach  
118

Providing evidence to the court  
120

Claims for a mixture of future gratuitous and professional care: how future needs are assessed  
120

Claims in minor and non-severe cases  
122

Claims for household assistance  
124

The importance of the Daly principle  
124

Claims do not extend to assistance provided in claimant’s business  
125

A claim can be made for loss of ability to act as a carer  
125

Chapter 13  Accommodation costs  

Establishing that the need for the accommodation arises from the injuries  
127

Capital costs and alterations  
127

Outgoings and living expenses  
128

Chapter 14  Other heads of damages  

The increased sophistication of claims for damages  
131

Inability to do work around the home and DIY  
131

Clothing and items damaged in the accident  
133

Aids and appliances  
133

Medical and hospital expenses  
134

Transport costs  
135
Chapter 18 The effect of benefits and the statutory recoupment of DSS benefits

Benefits that are not subject to recoupment
Future unlisted benefits
Benefit recovery of defined benefits
The relevant period
Listed deductible benefits to be paid in the future
The benefits equivalent to heads of damage
Recoverable benefits
How the recoupment system works
Recoupment and the assessment of damages
Recoupment and interest
Recoupment and Part 36 offers
Repayments by the compensation recovery unit belong to the claimant
The judgment in Hilton

Chapter 19 Damages in anticipation of death and for shortened life expectancy

Effect of judgment or settlement prior to death
The issues facing a claimant with reduced life expectancy caused by the defendant's negligence
The effect of reduction of life on the award for pain, suffering and loss of amenity
The claim for losses prior to death
The appropriate multiplier for future losses when there is reduced life expectancy
Differing judicial approaches
Guidance in the actuarial tables
Assessing life expectancy
The award for losses after death
Are funeral expenses recoverable for a claimant with impaired life expectancy?
Claims for loss of income during the 'lost years'
No 'lost years' award to child claimants
DIY in the 'lost years'
Contents

Summary of differences between 'lost years' claims and Fatal Accident Act claims 186
Practical solutions for a living claimant with dependants 187
The 'lost years' calculation 188
Chapter 20 Damages on death: basic principles 189
Rights of action on death 189
Historical background 189
The two elements of the claim 189
The type of incident that can give rise to a Fatal Accident Act claim 190
Standing in the shoes of the deceased 190
Claimants under the Fatal Accidents Act must be dependants 190
The statutory definition 190
The dependant has to show a loss of a benefit 191
The type of loss that must be shown: the 'reasonable expectation' test 192
What kind of loss supports a claim 192
The burden of proof 192
A 'jury issue' 194
Disregard of benefits arising out of the death: The Fatal Accidents Act 1976, s 4 195
Payments made by the defendant 196
Chapter 21 Valuing a dependency claim 199
The dependency is set at the date of death 199
Not just mathematics 199
The deceased's income 199
Losses are not confined to pure income 200
The dependency calculation 201
Difficult issues in dependency claims 203
Cultural factors in relation to support from an adult child 209
Chapter 22 Non-dependency damages in fatal cases 211
Funeral expenses 211
Bereavement damages 212
Injuries and losses of the deceased prior to death 212
Contents
